Bayer boost

ENVIRONMENTAL SCHOLARSHIP SCHEME

RECEIVE UP TO $6000!

BAYER

Science For A Better Life

What is BAYERboost?

BAYERboost is an environmental scholarship scheme giving Year 11, 12 and undergraduate university students experience in environmental research or restoration during their summer holidays.

BAYERboost scholarships are funded by innovative research company Bayer Australia, and administered by the Australian Geographic Society.

Why BAYERboost?

Through the scholarships we hope to encourage and promote research in, about and for the environment and provide students with the opportunity to broaden their experience in environmental research or restoration.

How many scholarships are there?

> **$6000** for a tertiary student for 12 weeks of work experience
> **$5000** for a Year 12 student for 10 weeks of work experience
> **$3000** for a Year 11 or 12 student for 6 weeks work experience

"My experiences with the scholarship have been amazing and unforgettable..."

Sophie Warren, 2011 Scholarship recepient

How do I apply?

1 VISIT **www.BAYERboost.com.au** and download an application form.

2 ASK your teacher or lecturer to assist you with your application.

3 FIND a host organisation and decide on a project together. Your project can be something the organisation is already working on. It could be environmental research, field conservation or ecosystem restoration. IT'S YOUR CHOICE!

For host organisation examples, scholarship guidelines and closing dates visit our website or email your questions to **BAYERboost@ausgeo.com.au**

Applications are judged by a selection panel, on the basis of the student's calibre and the quality of the project proposal submitted.

About us

Bayer Australia Ltd

An international, research-based group with major businesses in healthcare, crop science and high-tech materials, Bayer employs more than 108,400 people worldwide and has a portfolio of more than 5000 products and operations in nearly every country.

Bayer Australia aims to make a positive contribution to the community by providing educational partnerships and environmental initiatives, like the BAYERboost scholarship and CarbonKids!

Australian Geographic Society

Founded by Dick Smith in 1988, the Australian Geographic Society is dedicated to supporting scientific research, protecting and fostering a love for our environment and natural heritage, encouraging the spirit of discovery and spreading the knowledge of Australia to Australians and the world!

"I believe getting involved in environmental research or restoration is one of the most rewarding and enriching ways to spend your time!"

Kim Hands, BAYERboost ambassador and AG Society's 2012 Young Conservationist of the Year
