This practical workshop has been designed for Medical Practitioners and Paramedics wishing to further develop their skills in the provision of emergency dental care in the out of hospital setting. This interactive workshop will include hands on scenarios using various simulation modalities.

**Facilitators**

- Dr. Ioan Jones, Senior Clinician Clinical Education, Oral Health Services Tasmania
- Dr. Callum Blackhall, Dental Surgeon, Oral Health Services Tasmania

**Workshop content**

- Dental Anatomy
- Dental Disease and Common Presentations
- Dental Pain and Diagnosis
- Dental Local Anaesthesia
- Pharmacology
- Dental Trauma

ACRRM and RACGP (category two) QI&CPD Points will be offered.

This workshop has been approved for a **one day procedural skills training grant** of $2000 per day. These grants are offered by the Australian Government for rural and remote GPs to maintain their skills. For more details please contact Australian College of Rural and Remote Medicine (ACRRM) or the Royal Australian College of General Practitioners (RACGP).
