Applications are now open for prospective students wishing to commence study in Semester 1, 2013 (February). Applications should be completed online from the UTAS website: www.utas.edu.au/apply. On-time applications close at 5pm on Friday 28 September - late applications for the Bachelor of Medicine and Bachelor of Surgery will not be accepted.

Scholarships applications are also now open and should be completed at www.scholarships.utas.edu.au. Applications for scholarships close on Wednesday 31 October.

Accommodation Services applications are also open for accommodation options at the Hobart and Launceston campuses and should be completed at www.accommodation.utas.edu.au. Early applications are strongly recommended due to the high demand for residential accommodation.

Jane Franklin Hall (residential college in Hobart) applications are also open and should be completed at www.jane.utas.edu.au. Early applications are strongly recommended due to the high demand.

For further information please contact the Uni Info Centre on 1300 363 864 or email course.info@utas.edu.au.

UTAS OPEN DAY 2012 - ONE DAY ONLY!

Whether you want to find out more about studying, would like a chance to speak with students and staff, are interested in learning about the cutting edge research occurring at UTAS, or are simply curious to see what goes on at UTAS... Open Day is the perfect opportunity for a visit.

Take a stroll around campus, enjoy one of our topical public presentations from keynote speakers and take part in fun
activities and entertainment for all ages.

Highlights of the 2012 Open Day include:

Hobart:
Presentation from keynote speaker Arron Wood (Prime Minister’s Environmentalist of the Year 2007). Join Arron as he explores how climate change may be Australia's greatest opportunity to become a global environmental leader. See flier for more information about Arron and his presentation.

Launceston:
'Sticky and Sam' from The Amazing Race Australia. Hear from the Tasmanian team from The Amazing Race Australia this year, and find out about their adventures on this high profile reality TV show where contestants race around the world.

Cradle Coast:
The Gourmet Farmer - Matthew Evans. With a background as a chef and food critic, Matthew moved from inner city Sydney to rural Tasmania where he breeds pigs and grows brussel sprouts. An author of seven books and a partner in a market stall business and an artisan food shop, Matthew is well known nationally for his SBS series, The Gourmet Farmer.

For further information on the UTAS Open Day or to obtain a copy of the full 2012 program, please contact the Uni Info Centre on 1300 363 864 or visit the website: www.utas.edu.au/openday.

See flier for more information, or to be involved in this event, complete the registration form and return it to Monica Vanderkley at Monica.vanderkley@charteredaccountants.com.au by Friday, 17th August.

UTAS FACULTY OF EDUCATION Launches Video Competition

The UTAS Faculty of Education recently launched a video competition to all current Faculty of Education students.

Students are asked to describe a 'day in the life of a student' and the winner of the competition will be awarded $1000! Further details on the competition can be found at www.utas.edu.au/education.

'TELL US YOUR THOUGHTS and GO IN THE DRAW TO WIN SOME TASMANIAN WINE!

The Student Recruitment and Marketing unit at UTAS is currently considering the development of an 'app' to replicate the information in our undergraduate course guide.

If this occurs, the 'app' would be suitable for mobile tablet devices (iPads, Android tablets or both) and would be available for download at no charge.

At this stage we are looking at an app for mobile tablets only, and not for mobile phones/smart phones. The reason for this is that the course guide is a very lengthy document and would be difficult to condense into something compatible with mobile phones without losing much of the important information.

We would appreciate you taking a few moments to respond to three questions that are available online at https://www.surveymonkey.com/s/MobileTabletDeviceUsage.

All survey respondents will go into the draw to win two bottles of Tasmanian wine - responses close on Friday 24 August with prize drawn on Tuesday 28 August 2012.

'MEET THE BUSINESS LEADER' EVENT - WE INVITE YOU AND YOUR STUDENTS

Hosted by the Institute of Chartered Accountants Australia and proudly supported by UTAS, ‘Meet the Business Leader’ is a networking event for teachers and year 11 and 12 students.

‘Meet the Business Leader’ provides an opportunity to engage with industry professionals and gain an insight into career opportunities in business, accounting and finance.

The event includes an information session, followed by a more interactive networking session with afternoon tea. Business representatives attending range from government and small business through to the mid-tier and the Big 4 accounting firms.
INTRODUCING...

DETAILS

<table>
<thead>
<tr>
<th>Name</th>
<th>Andre Botha</th>

<tbody>
<tr>
<td>Age</td>
<td>19 years old</td>
</tr>
<tr>
<td>Course</td>
<td>Bachelor of Business / Bachelor of Laws</td>
</tr>
<tr>
<td>Year</td>
<td>1st year (2012)</td>
</tr>
</tbody>
</table>

Why I chose this course:

I chose the Bachelor of Business/Bachelor of Law combined degree because I have always enjoyed law, accounting and economics at college.

I had also been told by many people that UTAS was a very good University and I live nearby. The hardest decision has been what area to focus on in business; I am thinking either economics or accounting.

What I plan on doing when I finish the degree:

After finishing this degree I hope to achieve a career in international trade law or in general accounting.
The Bachelor of Musical Arts offered by the Conservatorium of Music in Hobart provides the opportunity for students to enhance their musical skills, awareness and knowledge and, through parallel study, to explore the possibilities of another discipline.

The degree is particularly well suited to students wishing to pursue careers in music technology, music journalism, music broadcasting, promotion and marketing or arts management. Bachelor of Musical Arts students will complete a major in music, a minor in music and four discipline electives. The remaining units of their degree may be taken as a major from another discipline offered at UTAS, for example: English, Journalism, Media and Communications; or Languages; or may comprise further study in music through a choice of music electives.

Students completing this course may be able to articulate into the Master of Teaching course specialising in Secondary Music Teaching.

Duration: 3 years full-time or part-time equivalent

Entry requirements: Applicants are expected to meet the normal requirements set by the University for entry to degree courses. International students need the standard UTAS English language requirements for Bachelor level entry. There are additional requirements (audition and interview) for applicants wishing to undertake units in the ensemble/practical study or music technology majors:

- **Performance students:** prepare fifteen minutes of music to show skill, level of ability and musical tastes.

- **Composition and Music Technology students:** submit a folio of at least three recent compositions. Applicants are encouraged, strongly, to include recent recordings of the works submitted in the folio.

Through interview, the audition panel will assess the applicant’s musical background and career aspirations.

**Location:** Hobart

**Intake:** February and July

**Areas of Study:**

**Majors**
- Music History
- Music Literacy Skills
- Music Technology
- Ensemble Skills
- Literacy and Practices
- History and Practices

**Minors**
- Music History
- Music Literacy Skills
- Music Technology
- Ensemble Skills
- Audio Design
- Performance
- Composition

**Course Structure:** 1 major, 1 minor, 4 degree electives, 8 student electives

For further information, please contact the Uni Info Centre on 1300 363 864 or email: Course.Info@utas.edu.au.
AMC SEAFARING NOW OFFERED AT DEGREE LEVEL

Seafaring is a highly mobile and well-paid profession and, with 90% of the world's goods moved by sea, it's an industry with a strong future. The AMC is pleased to offer its ocean seafaring courses as Bachelor degrees from 2013.

These programs have been restructured to match the Australian and international qualifications framework, and are also available through vocational education pathways.

**Bachelor of Applied Science (Nautical Science)**
work as a Deck Officer navigating vessels.

**Bachelor of Applied Science (Marine Engineering)**
work as an Engineer that keeps the ship moving.

**Bachelor of Applied Science (Maritime Operations)**
ensure the smooth running of onshore operations.

The first two degree programs listed above enable students to work on large merchant vessels including tankers, bulk cargo carriers or passenger liners - throughout Australian and international waters. The third degree is designed for those wanting to work in a range of shore-based operational positions with government, ports and shipping companies.

Further details will be on AMC’s website soon. In the meantime, please register your interest at www.amc.edu.au/enquiry to receive the latest information.

National Science Week is on again from **11 - 19 August**, with an exciting program of activities showcasing everything to do with science! This year’s guest speaker line-up includes well-known science presenter Dr Karl Kruszelnicki, theoretical physicist and science writer Prof Lawrence Krauss, TV and radio science guru Bernie Hobbs, and maths comedian Simon Pampena.

Here’s an update of what’s on offer for schools in 2012 hosted by the University of Tasmania - look out for more activities at www.utas.edu.au/set.

**CELEBRATING THE STARS! (ALL AGES)**

**10 years of Young Tassie Scientists**

Celebrate the success of Science and Technology Achievers and Researchers (STARs) in their home communities during National Science Week. Share their stories of challenge and discovery through interactive presentations and activities, aimed to inspire and interest. Explore career pathways and gain insights into the many different areas of science, engineering and technology.

Take part in a STARs celebration being held around Tasmania during August

<tbody>
<tr>
<td>Monday 13 August - Friday 17 August; times by request</td>
<td>Mt Pleasant Radio Telescope Observatory, Richmond Road, Cambridge</td>
</tr>
</tbody>
</table>

For more details and bookings, www.groterebermuseum.com.au or contact: Karen Bradford, phone 6226 2439 or email Karen.Bradford@utas.edu.au. (Note: entry fees apply: $2/person for Science Week only).
INSTITUTE FOR MARINE AND ANTARCTIC STUDIES (IMAS) TAROONA TOUR (YEARS 7 - 12)

IMAS research scientists and technicians will introduce students to the world of marine and Antarctic science. This will include science talks, a close look at some of our scientific gear, and live encounters with local marine creatures. The tours will take place at IMAS-Taroona (previously known as TAFI).

**When:** Tuesday 14 August - Thursday 16 August; times by arrangement

**Where:** IMAS Taroona

Book a visit by contacting Graeme Ewing on 6227 7228 or preferably by email: Graeme.Ewing@utas.edu.au.

Group size limited to 25 students.

THE MATHS OLYMPICS (YEARS 7 - 12)

Simon Pampena, the National Numeracy Ambassador, is returning to Hobart to perform his hit show The Maths Olympics for National Science Week. Simon is a passionate mathematician whose work inspires students through combining energetic stand-up comedy with maths. The Maths Olympics has proven to be a unique comedy event combining Aussie sporting prowess with the power of maths!

**When:** Friday 24 August, 10:30am - 11:30am

**Where:** UTAS Sandy Bay

Bookings essential - via email: set.enquiries@utas.edu.au

This event is brought to you by National Science Week and the University of Tasmania.
2013 APPLICATION DATES

Please note that the 'on-time' closing date for study commencing in Semester 1, 2013 has changed from that in previous years.

Applications for study commencing in Semester 1, 2013 will now close on Friday 28 September 2012 at 5pm. This includes applications for the Bachelor of Medicine and Bachelor of Surgery, which will not be considered after this date.
