

# Author Codes

The author list available on PES will show the author code where known for those individuals (staff, students and HRAs) already entered on the HR database.

If the author has not previously been entered on the database, or is external - make a decision taking into account the following:

- All authors except those classified External will be counted as part of the University of Tasmania.
- CRC personnel not employed by this university (X8) are not counted as internal for HERDC reporting.

## University of Tasmania Personnel
