School of Computing and Information Systems

Unit Outline

KXO302 IS Project

Semester 2, 2013
Sandy Bay Campus, Hobart

Unit Coordinator
Dean Steer
E-Mail: Dean.Steer@utas.edu.au
Phone: (03) 6324 3693
Room: V169, Newnham Campus, Launceston
UNIT OVERVIEW

Introduction

This unit aims to provide students with the experience of developing a medium-scale information systems project in a small team. All aspects of the systems development life cycle will be considered: problem specification, requirements extraction, system design, implementation, testing, documentation and deployment. The unit provides students with the experience of working in a team and dealing with the professional issues of teamwork, contract negotiation and management, risk minimisation; group dynamics, and presentation skills.

This unit builds on the learning developed in earlier parts of the degree and provides an opportunity to apply theoretical knowledge and previous practical experience in a setting which attempts to create an environment typical of the professional world outside the University.

Each student will be placed in a team of 6-8 people, and each team will be allocated a virtual project to implement. For logistic reasons, the projects will be synthetic, with the unit coordinator acting in the role of client. They will however be projects that the student might typically encounter in their early professional life. The unit is about both the process of producing the products (the individual and team work), and the products themselves.

Prerequisites

KXO231 or KXO301

Unit Weight

12.5% of one academic year

Teaching Pattern

There will be a combination of face-to-face and video linked lectures and workshops during the semester. Notification of the times and locations will be via the unit's MyLO website.

Unit Content

Team structures and roles
Feasibility studies
Project Brief skills
Project Milestone structure
Presentation skills
Managing a project and project roles
Producing System Documentation and Project Reports

For more information see the section titled 'Content' on the unit website.

Prior Knowledge and/or Skills

Students are expected to have successfully completed the ICT Project Management unit (KXO231) or the IS Project Management unit (KXO301).

Students are also expected to have a working knowledge of project management and database management software, and to have the necessary skills to produce well formatted business reports and presentations.

Learning Outcomes

On successful completion of this unit, you will be able to:

1. work cooperatively and effectively in a systems development team;
2. determine the requirements for a given hypothetical information system, and produce a project plan to meet those requirements;
3. apply an appropriate systems development methodology to design, build and deploy an information system;
4. document both the process and the deliverables of an information system, both in writing and face-to-face to an audience;
5. reflect on the activities of an information systems development team, and identify the strengths and weaknesses of individual and team performances.

Generic graduate attributes

The university has defined a set of generic graduate attributes expected in its graduates. 
http://www.utas.edu.au/__data/assets/pdf_file/0003/214662/Generic-Attributes-of-Graduates.pdf Your course is designed to enable you to develop generic skills that are valued in, and expected of, graduates. These are skills that you will need to develop over time. Hence you are encouraged to look for opportunities, as you study each unit, to reflect on and improve these skills.

Knowledge

1. Students will be able to apply system investigation and development skills acquired in previous units of their degree.
2. Student will develop a capability of adding to their skill and knowledge base where necessary to meet the needs of their client.
3. Student will develop an understanding that information systems are the result of teamwork, not individual effort.

Communication Skills

1. Students will develop the ability to interact with a client in a real-world setting
2. Students will demonstrate strong oral and written skills, both within their team, and in presentations to their client.

Problem-solving

1. Students will develop the understanding that project management requires them to accept total responsibility for meeting the requirements, and to develop attitudes of "can do" and "whatever it takes".
2. Students will be required to identify obstacles to their success, and find and implement effective strategies to overcome these problems.

Global Perspective

1. Students will be able to develop a system that they can add to a personal portfolio that can be used to demonstrate their readiness to enter the IT profession.
2. Students will be able to demonstrate to potential employers that they have an understanding of work practices in the IT industry.
3. Students will be able to demonstrate competency in the English language.

Social Responsibility

1. Students will be expected to behave at all times during the unit in accordance with acceptable professional and ethical standards.
2. Students will develop an ability to empathise with their end users and to understand the impact their system will have on these people.
UNIT ASSESSMENT

Assessment Pattern

Internal (100%)

Assessment Summary

<table>
<thead>
<tr>
<th>Component</th>
<th>Weight</th>
<th>Due Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>Individual: Contribution to Team and Project</td>
<td>30%</td>
<td>Timesheets: Weekly. ePortfolio: 18th October 2013</td>
</tr>
<tr>
<td>Individual: Peer and Self Review</td>
<td>10%</td>
<td>Friday, 18th October 2013</td>
</tr>
<tr>
<td>Group: Initial Project Plan and Presentation</td>
<td>10%</td>
<td>Friday, 2nd August 2013</td>
</tr>
<tr>
<td>Group: Records of Group Activities and Meetings</td>
<td>5%</td>
<td>Weekly</td>
</tr>
<tr>
<td>Group: Deliver System Components</td>
<td>35%</td>

Assessment Items

Item 1  Title: Individual: Contribution to Team and Project  
Type: In-Semester - group project  
Task Length: As required  
Weighting: 30%  
Links to Learning Outcomes: 1  
Due: Timesheets: Weekly. ePortfolio: 18th October 2013  
Description: Keep records that accurately reflect your individual activities and progress towards the team goals;  
Assist and advise other team members where possible and where necessary in order to help achieve team goals;  
Accept and complete a reasonable share of the tasks and activities necessary to achieve team goals.  
Your contributions are to be documented by submitting a 'timesheet' form each week to your Individual dropbox on MyLO.  
Plus you are to keep a 'diary' documenting your experiences in being a part of the project team using an ePortfolio provided for you on MyLO.  
Full details are available in the Project Brief.

Item 2  Title: Individual: Peer and Self Review  
Type: In-Semester - group project  
Task Length: As required  
Weighting: 10%  
Links to Learning Outcomes: 5  
Due: Friday, 18th October 2013  
Description: Provide an evaluation of the performance of the team as a whole, and also the members of the team, including yourself.  
Submission will be to your Individual dropbox on MyLO. Full details are available in the Project Brief.

Item 3  Title: Group: Initial Project Plan and Presentation  
Type: In-Semester - group project  
Task Length: As required  
Weighting: 10%  
Links to Learning Outcomes: 1, 2, 3, 4  
Due: Friday, 2nd August 2013  
Description: Produce an initial project plan purporting to meet the project requirements, and present the plan in a PowerPoint presentation.  
The PowerPoint presentation is to be submitted to the Team’s dropbox on MyLO. Full details are available in the Project Brief.

Item 4  Title: Group: Prototype and Final Presentations  
Type: In-Semester - group project  
Task Length: As required  
Weighting: 10%  
Links to Learning Outcomes: 4  
Due: Prototype: 28th August. Final: 15th October 2013  
Description: To demonstrate the progress made the team must produce a 5 minute PowerPoint presentation that demonstrates their prototype systems to their client. This will provide an opportunity for the client to comment and possibly make useful suggestions.
**Final Presentation:** The team is to demonstrate their completed project and documentation to the client in a 10 minute Live System and PowerPoint presentation. The PowerPoint presentations are to be submitted to the Team's dropbox on MyLO. Full details are available in the Project Brief.

**Item 5**
**Title:** Group: Records of Group Activities and Meetings  
**Type:** In-Semester - group project  
**Task Length:** As Required  
**Weighting:** 5%  
**Links to Learning Outcomes:** 2, 3, 4  
**Due:** Weekly  
**Description:** Keep records that accurately reflect individual and team activities and progress towards the team goal. This will include providing pre-published agendas and keeping minutes of the weekly Team meetings. Meeting agendas and minutes are to be submitted each week to your Team's dropbox on MyLO. Full details are available in the Project Brief.

**Item 6**
**Title:** Group: Deliver System Components  
**Type:** In-Semester - group project  
**Task Length:** As required  
**Weighting:** 35%  
**Links to Learning Outcomes:** 1, 2, 3, 4  
**Due:** Friday, 18th October 2013  
**Description:** Deliver system components required to meet user requirements; deliver such documentation as is required to allow the client to use and to maintain the delivered system; deliver final project plans. All system components and documentation are to be submitted to the Team's dropbox on MyLO. Full details are available in the Project Brief.

See the 'Assessment' section in unit website for more detailed information about assessment items.

**How your Final Grade will be determined**

Overall assessment will be based on the student's performance throughout the semester. In order to achieve a pass (or better) result, a student must obtain:

1. at least 45% of the marks for the team component;  
2. at least 45% of the marks for the individual component;  
3. at least 50% of the overall mark.
UNIT RESOURCES

Unit Web Site

This unit is Web Dependent: content & communication. This means that you will need to use the Web for this unit. The unit website contains unit information and resources.

The unit website is accessed from http://www.utas.edu.au/coursesonline/. You will need to use your university email pop account username and password to log on to the MyLO system. Once authenticated by the system your personalised MyLO Learning Online area will be displayed. It contains links to the websites that you have permission to access - including the website for this unit.

If you are not able to access the unit website, please contact the University IT help desk:
- Entrance Level, Morris Miller Library, Sandy Bay Campus;
- Entrance Level, Launceston Campus Library, Newnham Campus.
- Telephone: 6226 1818 and 1300 304 903.
- The 1300 number is a local call from within Tas, with the exception of mobiles.
- Email: servicedesk@utas.edu.au
- Website: http://www.utas.edu.au/servicedesk/student/index.html

Prescribed Text

None

Software

The software that you will need to access the unit website and to study this unit, including general purpose software such as word processors, is provided on the computers in the School's computing labs. If you intend to use software on other computers please check that the versions are compatible.
GENERAL RESOURCES

School Website
School of Computing and Information Systems - Faculty of Science, Engineering, and Technology. 
http://www.utas.edu.au/cis

Faculty Website
Information and Resources for Faculty of Science, Engineering and Technology students are available on the faculty website at: http://www.utas.edu.au/scieng

University Website
Information and Resources for 'Current Students' are available on the university website at: 
http://www.utas.edu.au/students/

School Help Desk
Contact the School Help Desk if you have any queries or problems with accessing, using, or printing from the computers in the School of Computing and Information Systems labs.

In Hobart the Help Desk is located on level 3 in the Centenary Building, and is open from 10:00am-12:00pm, and 2:00pm-4:00pm Monday-Friday. The phone number is 6226 2929.

In Launceston the Help Desk is located near the entrance to the computing labs and is open from 10:00am-12:00pm, and 2:00pm-4:00pm Monday-Friday. The phone number is 6324 3447.

Both help desks will accept queries over the phone outside the standard opening hours.

The computer labs at the Cradle Coast Campus are maintained by ITR - please contact the University Help Desk for assistance with these computers.

Computing Facilities
The School has PC labs (running Windows 7), Mac labs (running Mac OS X 10.6), and special purpose Networking labs at the Newnham and Sandy Bay campuses. All students are provided with logins for Windows, Macintosh and Unix environments. If you have not used these facilities before please contact the School Help Desk to collect your account details. If you would like to access these facilities after hours please contact the School Help Desk.

In Hobart, there are 4 PC Labs, 2 Mac Labs, and 1 Networks Lab in the Centenary Building. In Launceston, there are 2 PC Labs, 1 Mac Lab, 1 Networks Lab, and one Multipurpose Lab in Building V.

Use of Facilities
Use of computing facilities provided by the School is subject to the School's Ethics Guidelines, details of which are posted at http://www.utas.edu.au/computing-information-systems/resources/ethics-guidelines. Copies of the guidelines are also available in all School labs. The School's facilities may only be used for study-related purposes, and may not be used for personal gain. Anti-social behaviour in labs such as game playing, viewing pornography, loud discussion, audio without the use of head-phones, etc is strictly prohibited in all labs at all times. Eating, drinking, and smoking is not permitted in the labs. Before being granted access to the School's facilities, you will be required to sign a declaration that you have read and understand these guidelines, and that you will abide by them. Disciplinary action may be taken against students who violate the guidelines.
Learning Strategies

If you need assistance in preparing for study please refer to your tutor or lecturer. For additional information refer to the Learning Development website: http://www.utas.edu.au/learndev/

If you will be using MyLO for the first time and would like some information on how to use MyLO refer to the following website: http://www.utas.edu.au/coursesonline/mylo-support.htm

Some of the units you will study use videoconferencing to deliver lectures and tutorials. To enable you to get the best out of a videoconference please refer to the following guide: http://www.its.utas.edu.au/videoconf/vcstudentguide.pdf

Help resolving concerns about this unit

In the first instance you should contact your lecturer. If the matter is not resolved then you should contact the Head of School. If the matter is still unresolved and you would like to know who to contact or the procedures for resolving your concern refer to the following website: http://acserv.admin.utas.edu.au/complaints_info.html

The Tasmanian University Union (TUU) may also be able to assist.

The School reserves the right to alter the details contained in this Unit Outline. Students will be advised of changes to the outline via their University email account and it remains the responsibility of the student to check their email for such changes.

Occupational Health and Safety

The university is committed to providing a safe and secure teaching and learning environment. For more information see http://www.admin.utas.edu.au/hr/ohs/pol_proc/

University Services and Support

If you are experiencing difficulties with your studies or assignments, have personal or life planning issues, disability or illness which may affect your course of study, you are advised to raise these with your lecturer in the first instance.

The University has staff available to assist you, such as the:

- Learning Development Advisor
- Student Counselor
- Careers Advisor
- Disability Officer

For more information and contact details see the Services and Support section on the University 'Current Students' web page: http://www.utas.edu.au/students/
GENERAL ASSESSMENT

Approach to Learning

The University is committed to high standards of professional conduct in all activities, and holds its commitment and responsibilities to its students as being of paramount importance. Likewise, it holds expectations about the responsibilities students have as they pursue their studies within the special environment the University offers.

The University’s Code of Conduct for Teaching and Learning states:

Students are expected to participate actively and positively in the teaching/learning environment. They must attend classes when and as required, strive to maintain steady progress within the subject or unit framework, comply with workload expectations, and submit required work on time.

You are expected to spend about 130 hrs studying in this unit - this includes attendance at scheduled teaching sessions. (For a 13 week semester this is, on average, 10 hr/wk.) This is the amount of study time that the 'typical' student will need to reach the level of competence and understanding required to fulfil the unit objectives. You are expected to:

- attend all scheduled teaching sessions, unless otherwise notified by the unit coordinator
- prepare for, and actively participate in all scheduled teaching sessions
- complete the assigned learning tasks
- review what has been learnt
- complete assessment items and submit them on time
- access and be familiar with the information and resources available on the unit website
- seek help from teaching staff if you have any questions or difficulties in studying this unit

You are encouraged to read the university's Code of Conduct for Teaching and Learning. Part A describes the 'Responsibility of the University to Students' and part B describes the 'Responsibilities of Students to the University'.

It is expected that students will familiarise themselves with access and use of the MyLO system operated by the University for the electronic delivery of course materials, and for various forms of communication.

It is expected that students will consult email sent to their University email address at least twice a week for notices relating to the administration of the unit, and for notification of the results of assignments.

It is expected that students will read the background material specified in the course curriculum, will actively attend and participate in tutorials, and be prepared to discuss relevant issues arising with tutors, lecturers and fellow students.

Student Expectations of the Unit

Students enrolled in this Unit may reasonably expect the following:

1. To be able to contact a lecturer or tutor by electronic mail, to raise issues arising in the unit, either relating to content or student performance within the unit.
2. Subject to availability, to be able to discuss such issues in person with the lecturer or tutor.
3. That assignments will be marked and the marks will normally be returned within 3 weeks of due dates.
4. That all relevant notices regarding the administration of the unit, including any necessary changes, will be communicated to all students enrolled in the unit via email.

These expectations are in addition to those specified in relevant University regulations.
Plagiarism

Unless specifically stated in the specification of the assessment item provided on the unit website, it is required that:

- work submitted by a student is the work of that student alone OR
- where the assessment item is to be completed by a group of students, the work submitted by the group of students is the work of that group of students alone.

While students are encouraged to discuss the assignments in this unit and to engage in active learning from each other, it is important that they are also aware of the University's policy on plagiarism. Plagiarism is taking and using someone else's thoughts, writings or inventions and representing them as your own; for example downloading an essay wholly or in part from the internet, copying another student’s work or using an author’s words or ideas without citing the source.

"Plagiarism is a form of cheating. It is taking and using someone else's thoughts, writings or inventions and representing them as your own; for example, using an author's words without putting them in quotation marks and citing the source, using an author's ideas without proper acknowledgment and citation, copying another student’s work.

If you have any doubts about how to refer to the work of others in your assignments, please consult your lecturer or tutor for relevant referencing guidelines, and the academic integrity resources on the web at http://www.academicintegrity.utas.edu.au.

The intentional copying of someone else's work as one's own is a serious offence punishable by penalties that may range from a fine or deduction/cancellation of marks and, in the most serious of cases, to exclusion from a unit, a course or the University. Details of penalties that can be imposed are available in the Ordinance of Student Discipline - Part 3 Academic Misconduct, see http://www.utas.edu.au/__data/assets/pdf_file/0006/23991/ord91.pdf.

The University and any persons authorised by the University may submit your assessable works to a plagiarism checking service, to obtain a report on possible instances of plagiarism. Assessable works may also be included in a reference database. It is a condition of this arrangement that the original author's permission is required before a work within the database can be viewed."

It is important that you understand this statement on plagiarism. Should you require clarification please see your unit coordinator or lecturer. Useful resources on academic integrity, including what it is and how to maintain it, are also available at: http://www.academicintegrity.utas.edu.au

Referencing

The preferred text referencing systems for the School is the Harvard system (also referred to as the author-date system). In your written work you will need to support your ideas by referring to scholarly literature, works of art and/or inventions. For information on presentation of assignments, including referencing styles: http://utas.libguides.com/referencing

It is important that you understand how to correctly refer to the work of others and maintain academic integrity. Failure to appropriately acknowledge the ideas of others constitutes academic dishonesty (plagiarism), a matter considered by the University of Tasmania as a serious offence. The university document on plagiarism contains information about referencing the work or ideas of others (see http://www.utas.edu.au/plagiarism/).
Submissions

The details of the submission method (paper, electronic or other) for each assignment will be supplied in a separate assignment specification sheet. All in-semester assignment submissions (including electronic submissions) are to include an Assignment Cover Sheet which includes a statement confirming that the submission is your own work. The Assignment Cover Sheet is available from the School Help Desk in Launceston and Hobart, and on the School’s website: http://www.utas.edu.au/computing-information-systems/resources.

Students must take responsibility for the correct submission of their assignments. Students are expected to adhere to the following procedure for submission:

- Submitted files MUST be checked by the student to ensure that correct submission of the file has been undertaken.
- Students are expected to notify the Lecturer WITHIN TWO HOURS of submission if their files have not been submitted correctly.
- Students must take responsibility for safely backing up of their own files during the academic year to ensure that no files are permanently lost.

Extensions

Assessment items will not be accepted after the due date except under the conditions stated in the School policy on late assessment. http://www.utas.edu.au/__data/assets/pdf_file/0003/231960/ExtensionPolicy.pdf (PDF - 100KB).

Review of Assessment and Appeals

1. It is expected that students will adhere to the following policy for review of any piece of continuous assessment.
   a. Within 5 days of the release of the assessment result, the student should request an appointment with the Lecturer. The student should be prepared to discuss specifically which section of the marking criteria they are disputing and why they consider the mark is inappropriate.
   b. Following this discussion, students may request a formal remark of the original submission (in accordance with Rule of Academic Assessment 111, clause 22.1). This remark will be undertaken, where practicable, by an alternative assessor.
2. Students may also request a review of the final result in a unit. The request and payment must be made within 10 days from the date of the result notification. Students are referred to Rule of Academic Assessment 111, clause 23 at http://www.utas.edu.au/university-council/university-governance/rules and http://www.studentcentre.utas.edu.au/examinations_and_results/results/result_review_results.htm.

Complaints Procedure

It is expected that students will adhere to the following policy for making any complaint or grievance directly related to a Unit:

a. In the first instance, students are to approach the Lecturer or Unit Coordinator concerned and arrange a time to speak with them about their concern.
b. If an issue remains unresolved, the student should approach the Head of School and arrange a time to speak with them about their concern.

If the School's internal policy of complaints is unable to resolve an issue, students should consult Ordinance 8 Student Complaints for further direction, see http://acserv.admin.utas.edu.au/complaints_info.html

Final Grade

Passing grades will be awarded based on the AVCC guidelines:

- PP at least 50% of the overall mark but less than 60%
- CR at least 60% of the overall mark but less than 70%
- DN at least 70% of the overall mark but less than 80%
- HD at least 80% of the overall mark

In order to comply with the benchmarks set by the Faculty of Science, Engineering & Technology for distribution of grades in units, both the in-semester and examination marks that students obtain may be adjusted either upwards or downwards. See http://fcms.its.utas.edu.au/scieng/scieng/policies.asp for details of the Faculty Assessment Guidelines.
