Would you like to participate in twelve hours/two days of primary science and literacy professional learning in an award winning, Australian Government supported program?

Registrations Now Open
PrimaryConnections Ready
FREE Two-day Pre Service Teacher Program
University of Tasmania – Launceston
Venue: Sir Raymond Ferrall Centre

Thursday 1st September and Friday 2nd September 2016
8.30am- 4.00pm (both days)

The ‘PrimaryConnections Ready’ program recognises that the beginning teacher has a myriad of professional responsibilities to deal with, and feeling confident, competent and ready to engage and work with their students in the important core learning area of science will be a significant advantage in that crucial first year of teaching.

Being ready to apply the knowledge and skills learnt through this professional learning program will be a valuable asset from the new teacher’s very first day!

REGISTER NOW
Strictly limited spots available
First preference will go to final year students

About the ‘Two-Day PrimaryConnections Ready’ Preservice Teach Program

The twelve-hour ‘PrimaryConnections Ready’ Program assists pre-service teachers to learn about, understand and clarify:

- the aims of the PrimaryConnections program
- the major principles and pedagogy of PrimaryConnections
- the power of the PrimaryConnections 5Es teaching and learning model
- the important relationship between science and literacy
- the “How-to tools” that enhance student learning in science and literacy
- how the program is based on current research
- the richness of the exemplary PrimaryConnections curriculum units and other resources

“Not only did the workshop help with the science side of teaching, majorly improving my confidence, but also gave tools that can be used in other learning areas and in the classroom.” Student – University of Notre Dame, Fremantle WA

About PrimaryConnections:

Linking science with literacy

PrimaryConnections: Linking science with literacy is an innovative approach to teaching and learning which aims to enhance primary school teachers’ confidence and competence for teaching science.

An award-winning program of the Australian Academy of Science supported by the Australian Government Department of Education, PrimaryConnections focuses on developing students’ knowledge, understanding and skills in both science and literacy.

PrimaryConnections key features:

- An inquiry and investigative approach
- A comprehensive professional learning program
- Award winning curriculum resources linking science with literacy
- An ongoing research and evaluation program
