1 Objective

To outline the Selection Committee processes and accountabilities for the recruitment of academic and professional staff.

2 Scope

This procedure applies to all University staff.

3 Responsibilities

A Selection Committee is responsible for:

- the assessment of applicants against the position criteria;
- ensuring a fair and transparent merit based process; and
- making a decision to appoint and/or making a decision not to appoint.

The Chair of a Selection Committee (or nominee) is required to provide feedback where necessary to a candidate who was not successful for the position. For internal applicants, this is considered essential to assist their professional development and career opportunities.

Members of a Selection Committee will observe responsibilities in regards to conflict of interest, confidentiality and equal employment opportunity as outlined below.

3.1 Conflict of Interest

In accordance with the Conflict of Interest Policy, if a member of a Selection Committee has an interest such that a reasonable person, knowing all the facts, could reasonably conclude that the interest could affect the decision or functioning of the Selection Committee, the member must disclose the interest to the Selection Committee. The Chair has accountability for assessing the relevance for any such conflict in accordance with the Conflict of Interest Policy, and this must be documented in the Selection minutes.

As a broad guiding principle it is undesirable that personal relationships should influence or be seen to influence recruitment and appointment decisions. In the context of recruitment and appointment decisions, personal relationships are defined as relationships which are separate from and/or extend beyond professional relations. Advice from Human Resources should be sought where required.

No person should be advantaged or disadvantaged because of a personal relationship with another member of staff or a member of a Selection Committee.

Whilst a personal relationship with another staff member or an applicant for an employment opportunity within the University does not itself preclude a staff member from making staffing decisions, it is imperative that such decisions are based solely on the criteria of merit, and are consistent with the Conflict of Interest Policy.
3.2 Confidentiality

The University may collect personal information of applicants including contact details, career history and qualifications as part of the recruitment process. This information may only be used by the Selection Committee for the purposes of recruitment and appointment.

Personal information will be collected, held, used and released in accordance with the Privacy Policy.

Members of the Selection Committee and Human Resources may disclose personal information to, and collect information from, nominated referees and relevant organisations such as educational institutions, professional bodies and former employers for the purposes of assessing an application and to verify qualifications, professional registrations and employment history. Personal information will not be disclosed to other third parties without the prior consent of the applicant.

3.3 Equal Opportunity

The Selection Committee will operate in accordance with the University’s Recruitment and Appointment Policy and the Inclusion, Diversity & Equity Policy, the Fair Work Act 2009 and the Anti-Discrimination Act 1998 (Tas).

In summary, the key principles are to:

- maintain the merit principle, through an appropriate assessment; and/or competitive, efficient and effective selection process;
- provide equal opportunity for all candidates; and
- promote a diverse and inclusive workforce.

4 Procedure

A Selection Committee is formed at the commencement of each recruitment process, with each member invited to participate. In accepting an invitation to join a Selection Committee, each member is confirming:

- their availability to participate, noting the timeframe for the process; and
- that there is no conflict of interest that would prevent them from perceptions in the decision making process (see 3.1).

Should any invited member choose not to participate, the Chair or nominee will identify an appropriate alternative in consultation with the Organisational Unit.

All members of the Committee shall be provided with information on the position, including the Position Description, requirements and advertisement.

A Selection Committee should:

- consider all relevant applications;
- shortlist applicant/s;
- assess shortlisted applicant/s;
- determine the merit of applicant/s;
• complete all the required online steps as outline in the e-recruitment solution.

While all Selection Committee members should be actively involved in the recruitment process, the Chair has ultimate accountability for the process, including membership of the Selection Committee, processes undertaken, and outcomes.

A nominated member of the Committee will complete the required details (at present through the e-recruitment solution) to confirm the processes and decision rationale of the Selection Committee. The Chair will electronically authorise this for endorsement by Human Resources.

5 Membership of Selection Committee

A Selection Committee should:

• comprise of at least two, ideally three people;
• have the appropriate technical and behavioural expertise to assess applicants;
• include one member who is external to the organisational unit;
• where possible, have at least one male and one female member;
• where possible, include a member from each main campus or stakeholder area in the case of cross-campus/organisational unit positions.

The Chair of the Selection Committee may supplement the Committee with additional members for the purposes of ensuring adequate professional expertise, and/or appropriate gender balance and/or campus balance.
