Notes:

Staff: T/R - Training Research. Staff: RO - Research Only

UTAS did not receive funding under the Regional Protection Scheme (RPS, Block Funding, 2002-2008) so no rankings are listed.

The overall Block Funding ranks for UTAS do not change when RPS is included for other universities.

This table is updated when national data is released from DIISR and verified via Universities Australia. It typically lags by 18 months.

Note that 2009 data is provisional and has not yet been verified by Universities Australia (24.1.2011).
