

## EndNote and International Index to Music Periodicals (IIMP)

Importing citations from the International Index to Music Periodicals can be done directly without the need for an EndNote filter. Although International Index to Music Periodicals has fulltext articles in its database, only brief citations will be loaded into your EndNote library.

In International Index to Music Periodicals...

- Perform a search
- Click on the *Add to Marked List* checkboxes for each desired citation
- Click the *Marked List* link at the top of the screen
- On the *Marked List* screen, click on the **Download** link. A *Marked List: Download selected items* screen is displayed

The screenshot shows the IIMP website interface. At the top, there is a navigation menu with links for Home, Search Articles, Search Journals, Browse Journals, Search Reference, Browse Reference, Information Resources, My Archive, and Help. The main content area is titled "Marked List: Download selected items" and includes a "Quick Search" bar, a "Go!" button, and a "Need Help?" link. Below the title, there are links for "Search History" and "Marked List (5 items)". The page offers several download options: "Export directly to RefWorks" (with a RefWorks icon), "Export directly to ProCite, EndNote or Reference Manager", "Download in a format compatible with ProCite, EndNote, Reference Manager and RefWorks", and "Download in plain text format". There are also buttons for "Back to Marked List", "Email", and "Print". A note at the bottom states: "Note: if prompted, select an RIS format such as RefMan RIS when importing citations into ProCite, EndNote, Reference Manager or RefWorks."

From the *Marked List: Download selected items* screen ...

- Click on the *Export directly to ProCite, EndNote or Reference Manager* link. EndNote will engage.

In EndNote...

- Your database records should now be loaded into the EndNote library you have open. If you don't have an EndNote library open, records will be loaded into the library you last had open.

Always check citations as editing may be required.
