Big Idea 2
Learning Activity 2

Questions:
1. If you were trying to make a healthy cereal choice, which manufacturer would you choose and why?
2. How many breakfast cereal products have 10 grams or more of sugar per 100 grams of breakfast cereal?
3. What is the sugar level that occurs the most in the breakfast cereal products?

Answers:
1. I would choose Uncle Toby’s because they have more choices in the low sugar category.
2. 97 products are in this category of more than 10 grams per 100 grams of breakfast cereal.
3. The most frequent sugar level is 20-29.9g/100g.
