UTAS Open Day is an important step to opening up a world of exciting opportunities for you and your students.

Whether you want to find out about UTAS courses, take part in a workshop or master class, join a tour, enjoy one of our public lectures, chat with staff and students or just have a look at your local university campus, UTAS Open Day is an event not to be missed.

** WHEN:** Sunday 26 August, 10am - 3pm  
** WHERE:** Hobart, Launceston and Cradle Coast campuses

For more information, please contact the Uni Info Centre on 1300 363 864 or visit the website: www.utas.edu.au/openday for regular updates on the event, or to register your interest. The full 2012 Program will be available in late July.

UTAS eNEWS is a newsletter from Student Recruitment and Marketing at the University of Tasmania, released five times per year. UTAS eNEWS is distributed to over 1000 Career Advisors and Pathway Planners within Tasmania and interstate.

UTAS Open Day is an important step to opening up a world of exciting opportunities for you and your students.

Whether you want to find out about UTAS courses, take part in a workshop or master class, join a tour, enjoy one of our public lectures, chat with staff and students or just have a look at your local university campus, UTAS Open Day is an event not to be missed.

UTAS will also be holding Information days at the Sydney campuses for students who are interested in studying Fast Track Nursing or Paramedic Practice at the Rozelle or Darlinghurst campuses. Dates are as follows:

** Darlinghurst Open Day: Saturday 4 August 2012**  
** Rozelle Open Day: Sunday 5 August 2012**

UTAS Faculty of Law offering an Introductory Law Unit in Winter 2012

The Faculty of Law is now offering mid-year entry to the Bachelor of Laws degree. Students are eligible to study a first-year unit (LAW121 Introduction to Law) as an intensive 15-day unit from the 25 June - 13 July 2012.

**LAW121 Introduction to Law** is the first of two introductory units required for entry into the full Laws program. The course covers a diverse range of topics including: ‘thinking like a lawyer’, introduction to the Australian legal system, introduction to Australian Constitutional Law, legal research, legislation, common law and precedent, judges and juries, human rights, and legal problem solving. This unit is open to students intending to proceed in the full Laws degree as well as students in other degrees wanting to pick up an extra unit over winter.
INTRODUCING...

Why I chose this course:
It gave me the ability to focus my time solely towards my music.

My favourite unit:
All Major Study Performance units and Chamber Music Units. Performance and Chamber units are the greatest opportunity to practise, rehearse and perform with weekly performance classes, chamber classes and individual tuition from specialists within each field that have real life experience from ensembles all around the world.

Highlights so far:
Performing the Philip Glass Concerto for Saxophone Quartet and Orchestra in 2011 with the UTAS Tasmanian Discovery Orchestra. This was a truly amazing experience! I got to perform an awesome piece of music, at the front of a fantastic symphony orchestra and be directed by a renowned conductor.

Advice for future students:
Practise. Practise. Practise!! Use the time wisely, as soon as you begin your degree. Listen to the advice of your lecturers and tutors; they are there to help you. During your studies you have almost endless amounts of time to dedicate towards your practising and studying. If there were just one thing that I would change, it would be to go back in time and practise more.

DETAILS

Name: Ben Price
Age: 22 years old
Course: Bachelor of Music (specialising in Saxophone)
Year: 3rd year (2012)
The maritime and logistics industries are booming. Thanks to international trade and online shopping, there are more goods and services being transported around the globe than ever before.

Global trade is a central part of today's economy, and demand for qualified people in the critical area of international logistics continues to grow. Studying International Logistics at AMC will open the door to a career that offers graduates an excellent earning potential and worldwide opportunities.

New for 2012, and the first of its kind in Australia - the Bachelor of International Logistics (Freight Forwarding) will appeal to students already working in freight forwarding, exporting/importing, international transport, and logistics industries, as well as those students wanting to pursue a career in these specialised areas.

Students study business units such as international business management and international business communication, together with more industry specific units in areas such as exporting and importing, trade and border controls, air, land and sea freight transport, logistics, supply chain management, global procurement, and warehousing and distribution.

Graduates will gain the skills needed to pursue careers in operations and management within the international logistics and freight forwarding industries. Potential employers include organisations involved in international trade such as exporters and importers, freight-forwarders, customs brokers, transport companies, logistics service providers, government agencies, as well as other public and private sector organisations that have the need for purchasing, supply, warehousing and distribution professionals. For further information on this course, please contact the Uni Info Centre on 1300 363 864 or email: Course.Info@utas.edu.au.

The Science for Growth Awards is an initiative of the Primary Industry Centre for Science Education (PICSE) - a Centre based at UTAS - and Dow AgroSciences.

These Awards are a pilot program in 2012, offering Year 9 and 10 students an opportunity to improve their scientific skills by engaging in real-life science investigation projects.

The Awards are free to enter and there is the chance to win great cash prizes. Students receive feedback from industry scientists along the way and there is an online forum available for student and teacher support while investigating.

Registrations are now open and teachers must register their classes by Friday 10 August.

Students present their findings as a PowerPoint poster (single slide), which are due for submission by Wednesday 19 September 2012.

This is a fantastic opportunity to celebrate student learning and address the Science Inquiry Skills strand in the Australian Curriculum for little extra work! For more information visit www.scienceforgrowthawards.com.au or contact the Science for Growth Awards Coordinator by emailing SGA.Admin@utas.edu.au.
HEALTH SCIENCE TASTER DAY

The School of Human Life Sciences will be holding an interactive Taster day for Grade 10, 11 and 12 students on Friday 31 August 2012.

Students will be able to choose four out of six workshops in the areas of biomedical science, health/nutrition, cell biology, medical imaging, environmental health and exercise science. Applications will be available online by the end of June, but please register your interest by clicking on the link www.hls.utas.edu.au/tasterday. Please contact Sue Musgrave for further information on 03 6324 5477 or email: Susan.Musgrave@utas.edu.au.

NORTH WEST INFORMATION SESSION - HUMAN LIFE SCIENCES DEGREES

The School of Human Life Sciences will be holding an information session for students and parents at the UTAS Cradle Coast Campus, 16 Mooreville Road, Burnie on Tuesday 10 July between 4.30 - 5.30pm.

SCHOOL OF MEDICINE TASTER DAY

The UTAS School of Medicine held an interactive Taster Day in May for Year 11 and 12 students. For Year 9 and 10 students, the Taster Day will be held on Friday 3 August 2012.

These workshops provide interested students an opportunity to find out more about the degrees offered by the School of Medicine and possible career paths. The degrees to be showcased include the Bachelor of Biotechnology and Medical Research, the Bachelor of Medicine and Bachelor of Surgery and the Bachelor of Paramedic Practice.

Registrations will open on Monday 18 June and should be completed via the following link: www.utas.edu.au/medicine/tasterday. Please contact Anne Barker for further information on 03 6226 4786 or email: teamleaderel.med@utas.edu.au.

PHARMACY TASTER DAY

The UTAS School of Pharmacy will be holding Taster Days on the Sandy Bay campus on Tuesday 4 September and Wednesday 5 September 2012 for Year 9, 10, 11 and 12 students.

Please contact Kiri Fitzpatrick via email: Kiri.Fitzpatrick@utas.edu.au for further information.
THE ROYAL SOCIETY OF TASMANIA:
WINTER LECTURE SERIES 2012

DETAILED

<table>
<thead>
<tr>
<th>Topic:</th>
<th>Saving Tasmania’s Unique Animals</th>
</tr>
</thead>
<tbody>
<tr>
<td>Venue:</td>
<td>Stanley Burbury Theatre, University Centre, Churchill Avenue, Sandy Bay campus</td>
</tr>
</tbody>
</table>

Session One: Tuesday, 19 June, 7.30 pm

Chair: His Excellency, The Honourable Peter Underwood AC, Governor of Tasmania

- Mammalian extinctions: lessons for Tasmania
  Professor Chris Johnson, School of Zoology, University of Tasmania

- Managing devils for species survival
  Mr Andrew Sharman, Manager, Save the Devil Program, DPIPWE

- The nature of the Tasmanian devil facial tumour disease
  Associate Professor Greg Woods, Menzies Research Institute Tasmania, University of Tasmania

Session Two: Tuesday, 17 July, 7.30 pm

Chair: Professor Peter Rathjen, Vice-Chancellor, University of Tasmania

- Sex and social behaviour in mammalian conservation
  Professor Elissa Cameron, School of Zoology, University of Tasmania

- Will Tasmanian devils follow Tasmanian tigers to extinction?
  Dr Menna Jones, School of Zoology, University of Tasmania

- A Tasmania without devils: environmental impacts and implications for feral species
  Mr Nick Mooney, Richmond, Tasmania
CELEBRATING THE STARS! (ALL AGES)

Celebrate the success of Science and Technology Achievers and Researchers (STARS) in their home communities during National Science Week (includes the Young Tassie Scientists). Share their stories of challenge and discovery through interactive presentations and hands-on activities, aimed to inspire and interest you and your students. Explore career pathways and gain insights into the many different areas of science, engineering and technology.

Take part in a STAR celebration being held around the state during August, including school visits and community events. (Some travel subsidies are available for regional schools).

Visit www.utas.edu.au/set for dates and the latest details, or email Sarah.Bayne@utas.edu.au for more information.

These events are brought to you by National Science Week and the University of Tasmania.

CELEBRATING THE STARS: GROTE REBER MUSEUM AND RADIO TELESCOPE TOURS (YEARS 5 - 12)

Discover the amazing world of radio astronomy and see an impressive 26m radio telescope donated to UTAS by NASA. Find out why radio telescopes are important and explore the solar system through amazing 3D virtual reality shows.

**When:** Monday 13 August - Friday 17 August; times by request

**Where:** Mt Pleasant Radio Telescope Observatory, Richmond Road, Cambridge

For more details and bookings please visit www.groterebermuseum.com.au or contact Karen Bradford on 6226 2439 or email Karen.Bradford@utas.edu.au (Note: entry fees apply: $2 per person for Science Week only).
CAREERS EVENTS CALENDAR
UTAS will be attending the following interstate careers events in June and July.
