

The Graduate Certificate aims to offer a chance to develop or upgrade skills in corporate governance. Specifically the course intends to identify challenges for company directors and managers in corporate governance, and develop critically evaluative skills as corporate governance evolves.

### Introduction

The focus of the Graduate Certificate in Corporate Governance is to provide graduates with the skills required to manage corporate governance better in their work environment.

The units will be offered using flexible learning methods and will embrace general corporate governance concerns in the evaluation of specific areas such as accountability, risk, sustainability and the regulatory environment.

Delivery will incorporate educational technology in a flexible platform allowing students to undertake the course at their own pace, and in their own time and environment. All assessment will be continuous including the delivery of electronic assignments, and in some units, preparation of an online presentation.

### Duration

2 semesters = 2 + 2 units (PT)

### Admission requirements

- Completion of an undergraduate degree of an Australian higher education institution or the equivalent standard in any other approved institution; OR
- Five years of relevant professional experience; OR
- Admission on an alternative basis at the Dean's discretion.
- International students require IELTS 6 with no band less than 6.

### Course Structure

The Graduate Certificate in Corporate Governance requires the completion of 4 core units over 2 semesters (PT).
