

- Recent emphasis on reports has been with:
 - Salary reporting
 - Research project reporting
- New Payroll Reports:
 - By Budget Centre
 - By Corporate Heirarchy
 - By Employee
 - By Project by Period

Payroll Reports have not yet been scheduled due to security/access

- New Reports for Research reporting
 - Detailed Income and Expenditure Statement
 - By Owner
 - By Project

Drilldown is not available on these reports as yet, due to errors with the commitment drilldown

- Two new functionalities:
 - Natural Account Grouping
 - Detail or Life to Date report

It is anticipated that the “Detailed Income and Expenditure Statement by Owner” will become a scheduled report

- It is proposed that we will remove Research Project reporting from the Funds Availability reports
 - e.g. Funds Availability will only become relevant for Operating projects.
