Logging in / Queries

If you do not already have a Discoverer logon, we have two generic users available for your use:

User details are:

Hobart	Userid: discoh1	Password: testhob
Launceston/Cradle Coast	Userid: discol1	Password: launtest

Troubleshooting

Please see details below on the Reports available and the input required to generate reports. If you cannot see the reports detailed below under your own Discoverer logon. Please contact us with a request to share these reports to your specific userid or use the generic logons provided.

For any questions about this application please contact the T1F Helpdesk at T1F.Help@utas.edu.au or call x7512

Standard Reports Available

There are a large number of Discoverer Reports that have been retained. For simplification the most useful reports have been grouped into a small subset within the groups presented below.

The first three groups:
