

Informit databases

Databases that can be accessed from the Informit interface include:

A⁺ Education
AGIS Plus Text
APA-FT - Australian Public Affairs - Full Text
Informit e-Library
Family & Society Plus
Meditext

There are over 80 other databases with Australian content. They can be accessed by clicking on the "Databases" link at the top right of any search or results page and are listed by product, subject or alphabetically.

Accessing Informit databases

From the Library's Homepage at <http://www.utas.edu.au/library>

- Click on **Finding Information** and select **Databases**
- Click on **I** to bring up the list of databases and click on the link to **Informit** from the list
- Select the databases that you would like to search from the list and click **continue** at the top of the page – they are categorized into broad subject areas such as Agriculture, Art etc – see below.

The screenshot shows the Informit website interface. At the top, there is a navigation bar with the Informit logo and the University of Tasmania Library name. Below this is a menu with options: "Databases by Name", "Databases by Subject", "Databases by Compilation", and "Find Relevant Databases". The "Databases by Subject" option is selected, and a sub-menu is displayed with categories: "All", "Agriculture", "Arts", "Asian", "Business", "Education", "Engineering", "Health", "History", "Indigenous", "Law", "Media", "Reference", "Sciences", "Social Sciences", and "Technology". The "Agriculture" category is selected, and a list of databases is shown. Each database entry includes a checkbox, a title, a brief description, and the number of records. A "continue" button is visible at the top right of the database list. On the right side of the page, there is a "Welcome to Informit" message and a "Getting Started" section with instructions on how to search.

Welcome to Informit
RMIT Publishing's Informit service is the premier source of online full text, multi media and index databases that deliver the majority of Australasian scholarly research to the education, research and business sectors.
For more information about our products, visit: www.informit.com.au

Getting Started
Single database search
Search an individual database by clicking its name.
Multiple databases search
Check the databases you wish to cross search and then click the "Continue" button.
Browse titles from a single database
Click on "Title List" link next to the database
Browse titles from multiple databases
Check the databases you wish to browse and then click the "Continue" button. Then click the "Title" tab.
Find Relevant Databases
Click on "Find Relevant Databases" and enter a search term to search across all available databases.

Conducting a search

- In the **Search Query box** enter your first search term or phrase. e.g. university
- In the next box select the area of the records you wish to be searched. e.g. author, title, or subject - **any field** is the default.
- From the dropdown box select AND, OR or NOT
 - **AND** means that **both** terms must appear in the record.
 - **OR** means that **either term** must appear in the record
 - **NOT** means the term **does not** appear in the record

If you wish to add another search term – go to the next row and

- In the **Search Query box** enter your second search term or phrase. e.g. tertiary
- Select the field type (as above)
- Select AND, OR or NOT

If you wish to add another search term – go to the next row and

- In the **Search Query box** enter your third search term or phrase. e.g. policy
- Select the field type (as above)

The screenshot displays the Informat search interface. At the top, there is a navigation bar with 'informat' logo and 'University of Tasmania Library' text. Below this, there are tabs for 'Search', 'Titles', and 'Databases'. A secondary navigation bar includes 'Sort Results', 'Fields to Display', and 'Records Per Page'. The main content area is divided into several sections:

- Search Query:** A text input field containing 'university'.
- Field Selection:** A dropdown menu set to 'Any field'.
- Operator:** A dropdown menu set to 'OR'.
- Field Selection:** A dropdown menu set to 'tertiary'.
- Field Selection:** A dropdown menu set to 'Any field'.
- Operator:** A dropdown menu set to 'AND'.
- Field Selection:** A dropdown menu set to 'policy'.
- Field Selection:** A dropdown menu set to 'Any field'.

Below the search query, there are several checkboxes and options:

- Also Search Full Text of Articles
- Return Full Content Records Only
- Date Range: 2005 to 2009

At the bottom of the page, there is a footer with the text: 'Informat v3.2 Copyright © 2008 RMIT Publishing | Informat | About'.

If you would like to enter more search terms you can add further search boxes by clicking on [+ Add more terms](#)

Expanding/Limiting

- You can expand the search by ticking **“Also search Full Text of Articles”**
- You can limit to **“Full Content Records Only”**, where available.
- You can select a **“Date Range”** to be searched eg. 2005 to 2009 or use the default, the widest date range.

Once you have set up all of your terms click on

Search

Truncation and Wildcards

Truncation - Use an asterisk (*) after a root word to find all the alternative endings for this word. (e.g. behav* would find behaviour, behavior, behavioural, etc.)

Wildcards - Use a question mark (?) to replace a character anywhere within a word. (e.g. wom?n will find woman and women.)

Search Results

A list of **search results** is displayed.

- Click on the **Complete Record** link to open the full record of an article.
- Some records may have a link to the **Full Text PDF** version of the article.

The screenshot shows the Informit search interface. At the top, there are navigation links for 'Help' and 'Logout', and the 'University of Tasmania Library' logo. The main search area includes a search bar with the query '(university) OR (tertiary) AND (policy)' and a 'Results found: 4589' indicator. Below the search bar, there are three search results. Each result includes a title, author(s), source, and document type. The first result is 'Policy driving change in doctoral education: an Australian case study' by Neumann, Ruth. The second result is 'The Experience of Welfare Receipt: Depression, Demoralisation and Despair?' by Butterworth, Peter. The third result is 'Australia's GuestWorker Revolution' by Castles, Stephen; Mares, Peter. A 'Full Text PDF' link is visible for the second result. The right sidebar contains search filters and options like 'Also Search Full Text of Articles' and 'Return Full Content Records Only'. There are also arrows pointing to the 'Complete Record' and 'Full Text PDF' links in the results.

Saving, printing and emailing records

Mark the records that you want to save/print/email by clicking in the box by the record number.

- Click on the **Save, Print or Email links** at the top right of the list.

To **Save** or **Print** your records:

- Select **which records** are to be saved
- Select the **Fields to Save**
- Select the **Field label format**
- Select the **Output format**
- Click on **Save Records or Print Records**

To **Email**

- Select the same options above and,
- Fill in your email address.

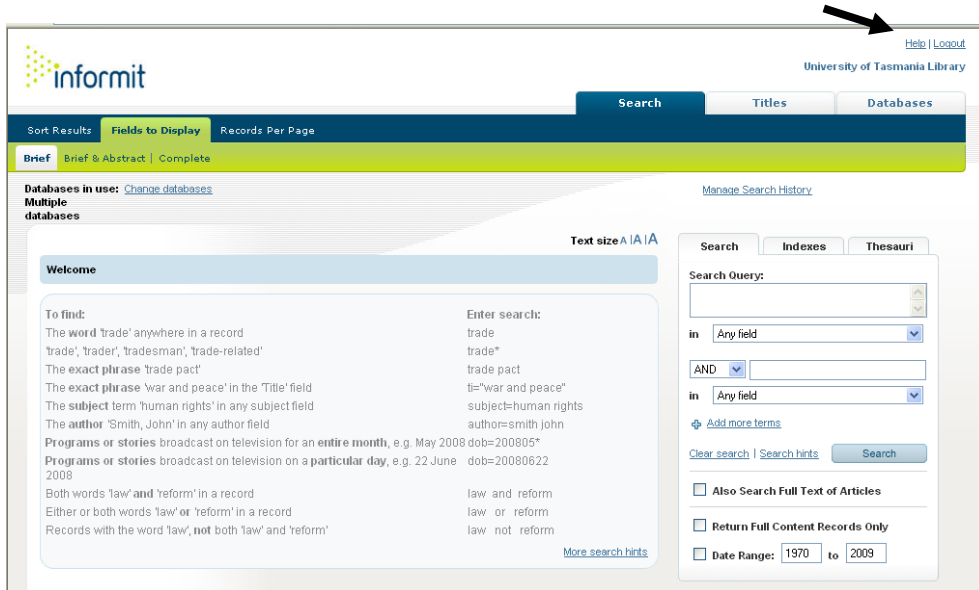

Combining searches

- Click on **Manage Search History** tab above the search boxes on the right of the screen
- To combine searches click in the box by the **Search Set** number
- Select an action from the links available in the blue banner
 - Reuse checked
 - Combine using OR
 - Combine using AND

The screenshot displays the Informit search interface. At the top, there are navigation tabs for 'Search', 'Titles', and 'Databases'. Below these, there are options for 'Sort Results', 'Fields to Display', and 'Records Per Page'. A blue banner contains 'Search History' and 'Manage Search History' links. The 'Search History' section shows a table with columns for 'Set', 'Recs', 'Query', and 'Limits'. A table with one row is visible, containing a checkbox, the number '4589', the query '(university) OR (tertiary) AND (policy)', and the date range '2005-2009'. Above the table, there are links for 'Re-use checked', 'Combine using OR', and 'Combine using AND'. On the right side, there is a search panel with a 'Search Query' input field, dropdown menus for 'in' and 'AND', and a 'Search' button. Below the search panel, there are checkboxes for 'Also Search Full Text of Articles', 'Return Full Content Records Only', and a 'Date Range' field set to '2005 to 2009'. Two black arrows point to the checkbox in the table and the 'Combine using OR' link.

Set	Recs	Query	Limits
#1 <input type="checkbox"/>	4589	(university) OR (tertiary) AND (policy)	2005-2009

For more help see the Informit online Help . You can access this by clicking on the **Help** link in the top right hand corner of the Informit screen (see below). Or, ask a librarian.

The screenshot shows the Informit search interface. At the top right, there is a 'Help | Logout' link. Below the Informit logo, there are navigation tabs for 'Search', 'Titles', and 'Databases'. A secondary navigation bar includes 'Sort Results', 'Fields to Display', and 'Records Per Page'. Below this, there are options for 'Brief', 'Brief & Abstract', and 'Complete'. The main content area is divided into several sections: 'Databases in use: Multiple databases' with a 'Change databases' link; a 'Welcome' section; a 'Text size A | A | A' selector; and a search panel on the right. The search panel includes a 'Search Query' input field, two 'in' dropdown menus for field selection, an 'AND' operator dropdown, and a 'Search' button. There are also checkboxes for 'Also Search Full Text of Articles', 'Return Full Content Records Only', and a 'Date Range' selector set to 1970 to 2009. A 'Manage Search History' link is also visible.
