

EndNote and Ingenta

Importing records from Ingenta can be done directly without the need for an EndNote filter.

- Perform a search in Ingenta
- Click on the checkboxes against the desired citations
- Click on the *Update Marked List* link. You must do this on every page you select citations
- Click on the **Bookmarking Options** link on the right hand side of the screen. You are displayed a list of options
- Click on the **Marked List** link. You are presented a *Marked List* screen
- Click on the **Export Options** link on the right hand side of the screen. You are displayed a list of options
- Click on the **EndNote** link. EndNote will engage.

Marked List

3 items in marked list.
If you wish to keep your list for future reference, you must sign-in as a registered user first.

Sort By: Display: per page

In EndNote...

- A *Select a Reference Library* dialogue window appears
- Select the library into where you would like the citations loaded and click *Open* (you must do this even when your library is open).

Your database records should now be loaded into your EndNote library.

NOTE: Abstracts are not imported with the citations. Abstracts need to be copied and pasted into your EndNote citations.
