Providing links to readings and Reading Lists

A. Linking to your reading list

To provide a link to your Reading List simply add your alpha-numeric unit code e.g. BEA130 to the end of this URL: http://rlms.utas.edu.au/erl/listpage.php?erlunit=.

You can also copy the link from your web browser when you visit your Reading List and paste it in your desired location.
B. Linking to your readings in Reading Lists

1. Visit your Reading List

2. Select your reading and **highlight** the linked citation.

   Then **copy** and **paste** the link to your desired location.
2.1 You can also **copy** the link (i.e. copy shortcut) and then **paste** it to your desired location.
