MASTER OF ECONOMIC GEOLOGY SHORT COURSE
via online delivery

Ore Deposit Models and Exploration Strategies

Preparatory material available from 18 May 2020
Interactive sessions from 1 – 12 June 2020 (interactive sessions will be of two to six hours duration, and will be conducted between 9am and 5pm AEST (UTC+10))

CODES, Centre for Ore Deposit and Earth Sciences, University of Tasmania
CRICOS Provider Code 00586B
CODES’ Master of Economic Geology short course Ore Deposit Models and Exploration Strategies, presented by a range of CODES and invited experts, provides an up-to-date synopsis of key ore deposit types including porphyry, epithermal, and skarn deposits, IOCG deposits, orogenic and Carlin-type gold deposits, volcanic-hosted massive sulfide and sea-floor hydrothermal deposits, sediment-hosted-Cu deposits and sedex Zn-Pb deposits. Most deposit types receive the equivalent of a full day of lectures and practical exercises, addressing the location, characteristics, genesis and exploration strategies.

Ore Deposit Models and Exploration Strategies is offered as a unit in the national Minerals Geoscience Masters program.

This course work-based Masters program is aimed at geoscientists who want to gain a thorough up-date on advances across the spectrum of economic geology applied to mineral exploration. The Master of Economic Geology at UTAS is part of the national Minerals Geoscience Masters (MGM) program, jointly offered by the University of Tasmania and the University of Western Australia, in conjunction with Curtin Business School at Curtin University.

Course structure
The Masters course can be completed in either of two ways:

Option 1: requires the completion of six coursework units and a minor research thesis. Four of the units must be completed at CODES, while the remainder may be completed at other participating universities. Duration: 18–24 months full-time; up to 30 months part-time (flexible in recognition of industry participants).

Option 2: requires the completion of eight units of coursework, at least four of which must be undertaken at CODES. Duration: up to 30 months part-time (flexible in recognition of industry participants).

Participating universities offer up to seven units annually or in rotation over a two-year period. Most units are of two weeks duration.

Courses offered by CODES
- KEA707 Ores in Magmatic Arcs (Indonesia): next offered March 2021
- KEA708 Volcanology and Mineralisation in Volcanic Terrains (New Zealand, western Tasmania): next offered March 2022
- KEA709 Ore Deposit Geochemistry, Hydrology and Geochronology: next offered June 2021
- KEA710 Exploration in Brownfield Terrains: next offered 19 – 30 October 2020
- KEA711 Geometallurgy: October 2021
- KEA712 Ore Deposit Models and Exploration Strategies: next offered 1 – 12 June 2020

Fees
UTAS tuition fees for 2020 are $2,381 per unit (8 in total) for domestic students and $8,488 (AUD) per unit for full-fee paying overseas students (FFPOS). Field-based courses have additional costs. Costs will vary for units taught by other MGM partner institutions.

Entry Requirements
A BSc (Hons), or a BSc (majoring in geoscience) with at least two years industry experience. International students should also refer to http://www.international.utas.edu.au. English language proficiency requirements also apply.

REGISTRATION FORM
Ore Deposit Models and Exploration Strategies
1–12 June, 2020

PERSONAL DETAILS
Title—Please highlight ( Prof / Dr / Mr / Mrs / Ms / Miss )
First Name: .............................................................. Last Name: (surname / family name): ..............................................................
Preferred Name: ............................................................................................................................
Position: ...........................................................................................................................................
Company / University / Affiliation: ........................................................................................................
Address: ...........................................................................................................................................
City: ................................................. State: .............. Postcode: ....................... Country: ....................................................
Email: ............................................................................................................................................

REGISTRATION FEES
All fees are in Australian dollars (AUD) and include GST. Please indicate ☑

Minerals Geoscience Masters Program (MGM) Students: (Excludes UTAS tuition fee)
☐ Full course (free)

Industry Participants:
☐ Full course ($1,980)
☐ ___ days at $330/day (maximum charge 6 days)

CODES Industry Partners:
☐ Full course (free)

CODES Staff/Students:
☐ Short course classes (free, indicate days below)

Other Students:
☐ Full course ($330)

PLEASE NOTE: Participants NOT attending entire course, please circle selected days
Week 1:  1  2  3  4  5  6 June
Week 2:  8  9  10  11  12 June

PAYMENT
Registrations are due by 24th of May, 2020. Full payment must be received by 29th of May, 2020.

Preferred payment method. Please indicate ☑

☐ Credit Card
Upon receipt of your registration form you will be provided with a payment reference number and web address for online payments. Please note: Credit card details cannot be accepted by email.

☐ Cheque or Bank Draft
Please make cheques and bank drafts payable to “The University of Tasmania”. Bank drafts must be made out in Australian currency (AUD).

☐ Invoice
Name, address and email address for person responsible for payment of invoice: ..............................................................
........................................................................................................................................
........................................................................................................................................

Please retain a copy of this form for your records and email to Ms Karen Huizing (contact details above).
