A research degree at the University of Tasmania will enable you to be trained and mentored by some of the best researchers in the world, in one of the best learning environments in Australia.

The HDR Candidate Guide is designed to support you to undertake your research degree by providing an overview of key information and links to the ordinances, policies, procedures and guidelines that govern Higher Degree by Research degrees at the University of Tasmania. In addition to this guide, you should familiarise yourself with the Graduate Research website, which provides a wealth of information and resources: utas.edu.au/research-admin/graduate-research
Welcome from the Dean of Graduate Research

Congratulations on commencing your Higher Degree by Research (HDR), and welcome to the University of Tasmania. As an HDR candidate you are a part of the wider research community and a crucial part of the University’s strategic plan to produce distinctive research and creative output, which make important contributions to the future of Tasmania and the world.

We are committed to providing you with a high-quality research education and experience, and all the support you require to engage in world class research. We view our HDR candidates as colleagues and look forward to exchanging ideas with you throughout your candidature.

Whether you continue in research or pursue other endeavours after your higher degree, we will help you to develop the capabilities, skills, knowledge and experience for a successful future.

Inside this guide you will find an introduction to the resources you need to keep on track and information to help you understand the processes and milestones involved in successful candidature.

This guide will also introduce you to the work of the Graduate Research Office and the online candidature management system, iGRad. You will not need all of this information to begin with, but it is worth having this booklet at hand as you navigate your way through the graduate research experience.

I wish you all the very best for your future research and career.

Professor Peter Frappell
Acting Dean of Graduate Research

Congratulations on the start of your research journey.
ya pulingina
(hello and welcome)

Riawunna Centre for Aboriginal Education acknowledges the traditional owners of the land and the Tasmanian Aboriginal community as the caretakers of lutruwita. The Riawunna team acknowledges that it is privilege to stand on Country and walk in the footsteps of those before us.

The Riawunna Centre utas.edu.au/riawunna has a long history of seeing Aboriginal and Torres Strait Islander students succeed in a whole range of fields through positive change and educational experiences that build independent resilient and confident learners, supported through shared celebrations, culture and Community.

Riawunna sits in the Student Experience Portfolio and provides a culturally welcoming space for Aboriginal and Torres Strait Islander students to meet, study and access academic and pastoral support and assistance across the Sandy Bay, Newnham, Cradle Coast, Darling Harbour and Rozelle campuses. The Riawunna team recognises and is committed to Aboriginal success by creating a sense of belonging and connection for students and staff.

Riawunna takes seriously the health and wellbeing of students. A dedicated Aboriginal Counsellor works with Aboriginal and Torres Strait Islander students within the Riawunna space and also with other students with the Health and Wellbeing Team.

The Centre is for students to meet, find help, advice, and meet other Aboriginal and Torres Strait Islander students and staff.

Riawunna provides the following services and resources:

- Academic support and advice
- murina Program (pathway program)
- Riawunna Tutoring Program
- Community/Schools engagement
- Health and Wellbeing Counsellor
- Riawunna Community Program
- Riawunna visiting Scholars Program
- Assistance with applications for bursaries, scholarships, and cadetships
- Cultural and social activities
- Resource collection featuring Aboriginal literature and resources
- Computer labs
- Cultural spaces for studying and relaxing
Frequently used terms and acronyms

**Academic Unit**
The primary academic organisation of the University consists of Colleges, which consists of one or more Academic Units e.g. the College of Arts, Law and Education has five Academic Units, one of which is the School of Humanities.

**Candidature Management Advisor (CMA)**
CMAs are your first point of contact for HDR queries that are administrative in nature.

**Co-Supervisor**
A supervisor within an HDR candidate’s supervisory team who is not their Primary Supervisor.

**Confirmation of Candidature**
Confirmation of Candidature (also referred to as Confirmation or CoC) is a review enacted after a period of probation in accordance with Section 23 of the Research Training Ordinance. Confirmation determines whether candidature may continue.

**Discipline**
Within each Academic Unit there may be discipline-based groups e.g. within the School of Humanities there are four Disciplines, one of which is English.

**Doctoral degree**
Doctor of Philosophy and Professional Doctorate degrees – unless otherwise specified.

**EFT**
Equivalent full-time enrolment. An HDR candidate studying full-time has an EFT of 1.0, while an HDR candidate studying part-time has an EFT of 0.5.

**eStudent**
A University system where HDR candidates can change personal information such as their contact details, manage coursework enrolment, look up fees (if applicable) and check graduation details.

**Full-Time Equivalent**
The measure of the enrolment load of a candidate by which the degree period will be calculated.

**Full-time**
Full-time candidature means an EFT of 1.0 at least 38 hours per week is spent on research training.

**Graduate Research Coordinator (GRC)**
A GRC oversees candidature management of candidates, in consultation with the Head of Academic Unit.

**Graduate Research Office (GRO)**
The Graduate Research Office is responsible for the administration of candidature management including:
- Admission to candidature
- Administration of living allowances (scholarships)
- Enrolment, variations, and administration of the examination process.

**Higher Degree by Research (HDR)**
A Doctoral degree or a Master of Research degree.

**HDR Candidates**
Individuals enrolled in Higher Degrees by Research at the University of Tasmania are usually referred to as research or HDR candidates rather than students.

**iGRad**
An electronic candidature management system, providing information to HDR candidates on their candidature, milestones and progression.

**Maximum Degree Period**
The period within which an HDR candidate must submit their thesis or examinable works (i.e. exegesis and creative work) for examination. This is normally 2 years EFT for a Masters of Research degree and 4 years EFT for a Doctoral degree.

**Milestones**
Milestones are candidature requirements that include Confirmation of Candidature, (annual) Reviews of Progress and thesis submission.

**MRes**
Master of Research.

**Part-Time**
Part-time candidature means an EFT of 0.5 and a minimum of 19 hours per week is spent on research training.

**PhD**
Doctor of Philosophy.

**Professional Doctorate (Prof Doc)**
A professional research qualification which has an equivalent status to a PhD. It is designed for mid-career and senior managers who wish to integrate advanced research into their professional lives.

**Primary Supervisor**
The Primary Supervisor is the research academic within a supervisory team with whom an HDR candidate will work most closely with. They are responsible for ensuring that all academic, administrative and regulatory requirements are met by the HDR candidate.

**Research Plan**
The plan that outlines, within the maximum degree period, the direction and milestones of all aspects of a research program. The plan should be reviewed and updated on a regular basis in iGRad.

**Review of Progress**
Every HDR candidate is required to undergo an initial review of progress (called Confirmation). Every twelve calendar months thereafter an annual review is undertaken by the supervisory team and the Graduate Research Coordinator.

**Supervisory team**
A team of supervisors, comprising of a Primary Supervisor and one to three co-supervisors, who supports an HDR candidate in their research degree.
Who you need to know
Who you need to know

GRADUATE RESEARCH OFFICE

The Graduate Research Office (GRO) can help you with a range of matters relating to your candidature. If you have an administrative enquiry, a good starting point is to email the Candidature Management Advisor (CMA) within GRO for your College. For more complex enquiries, please make an appointment to meet with someone in person. GRO staff are divided into:

Admissions (applications, scholarships and enrolments) and Candidature (commencements, variations, coursework and examinations), so make sure you check the right location for your enquiry and College in the table below.

You can also call GRO, Monday to Friday, between 9.00am and 5.00pm AEST: +61 3 6226 8559.

ACADEMIC ROLES AND RESPONSIBILITIES

Undertaking a research degree is a unique experience and every project is different. As a Higher Degree by Research (HDR) candidate you should have a clear understanding of your role and responsibilities, and those of your supervisors, Graduate Research Coordinators (GRCs), Heads of Academic Units and the Dean of Graduate Research.

The roles and responsibilities are described in the following:

- Schedule C: Minimum Resources for HDR Candidates as per HDR Admissions, Selection & Enrolment Procedure: [utas.edu.au/research-admin/graduate-research/policies-and-forms/hdr-policies](utas.edu.au/research-admin/graduate-research/policies-and-forms/hdr-policies)
- Student Behaviour and Conduct Ordinance: [utas.edu.au/policy/ordinances](utas.edu.au/policy/ordinances)

To manage your expectations, it is highly recommended that you familiarise yourself with these documents. To assist, a summary of the various academic roles and their responsibilities have been provided, beginning with HDR candidates.

Higher Degree by Research Candidates

HDR candidates are enrolled in a Doctoral degree or a Master of Research degree.

Higher Degree by Research candidates are responsible for:

- Undertaking research activity, as agreed with their supervisory team, related to their research project
- Producing a thesis which fulfils the relevant degree requirements and is presentable according to the accepted practices of the University
- Becoming familiar with the requirements and expectations as set out in the University ordinances, policies, procedures and guidelines relevant to Higher Degrees by Research
- Being proactive in holding regular meetings with their supervisory team and individual supervisors (either face to face, or using electronic media)
- Becoming independent researchers with supervisory guidance resulting in the self-regulation of research activity
- Providing formal progress reports as required, through the Primary Supervisor, at periods specified by the University
- Research quality and practices, safety, personal ethical responsibility
- Developing an approved research budget in consultation with the Primary Supervisor
- Acquiring information about relevant research funding schemes, including additional scholarships, training scholarships, travel scholarships, prizes and awards that they may be eligible
- Being an active participant in the research life of their Academic Unit and University
- Abiding by the Behaviour Policy.

An important part of your research journey is also getting to know other HDR candidates. Not only will this enrich your experience, but it will provide you with a valuable support network. You are encouraged to be proactive early in your candidature by introducing yourself to other HDR candidates in your area and attending events. If you’re unsure who they are, please ask your GRC to assist.

Supervisors

Your supervisory team includes your Primary Supervisor and between one to three co-supervisors. The supervisor’s role is to guide, advise and support you to complete your candidature. They are your first port of call for any matters relating to your research project.

Supervisors are collectively and individually responsible for:

- Supporting the HDR candidate to develop and design their research project so that it is of the quality and standard required for the qualification and can be completed within the maximum degree period
- Providing mentoring and guidance in all aspects of conducting and completing the research project and in all written components of completing the research, including the thesis and associated publications or equivalent
- Ensuring all HDR candidature milestones are met on time
- Creating and promoting an inclusive research training environment
- Providing a level of pastoral care and having an awareness of the HDR candidate’s basic wellbeing.
Graduate Research Coordinator

Every Academic Unit has several GRCs whose role is to oversee supervision in consultation with the Head of Academic Unit (in most cases, this is the Head of School). If you have any issues or questions about your candidature that you would like to discuss with someone other than your supervisors, your GRC is the first person to talk to. A list of GRCs is available online within the GRC Register: [utas.edu.au/research-admin/graduate-research/supervisors/grc-register-and-training](utas.edu.au/research-admin/graduate-research/supervisors/grc-register-and-training)

Graduate Research Coordinators are responsible for:

- Providing advice to the Head of Academic Unit to assist with the assessment of supervisory practices within the Academic Unit and any problems or grievances (including those related to academic or research misconduct) that may arise, and may need to be reported to the College Executive Deans and the Dean of Graduate Research
- Reporting to the Head of Academic Unit, any proposed changes to candidature that may impact on the allocation of supervisory resources
- Advising supervisors and HDR candidates on matters related to timely progression of candidature
- Providing a level of pastoral care to HDR candidates.

Head of Academic Unit

The Head of Academic Unit is responsible for academic line management within each Academic Unit. While you will primarily liaise with your supervisors, you should take the opportunity to meet the Head of Academic Unit during your first few weeks of candidature. You can ask your supervisors to help you facilitate this meeting.

Heads of Academic Units are responsible for:

- The administration of the Academic Unit including planning, budget, strategy, human resources and performance as per the Academic Delegations Ordinance: [utas.edu.au/policy/ordinances](utas.edu.au/policy/ordinances)
- Reviewing and attesting to research activity status of supervisors
- Ensuring high quality supervision practices by supervisors
- Providing a level of pastoral care to HDR candidates.

Dean of Graduate Research

The Dean of Graduate Research provides leadership and oversight for the University’s HDR strategy and policy and the distribution of Commonwealth and University scholarships. The Dean of Graduate Research liaises with the Graduate Research Office on operational matters and makes the final determination on all issues related to candidature and examination. Any HDR candidate wishing to meet with the Dean of Graduate Research can make an appointment. Contact details are available online: [utas.edu.au/research/degrees/contact-us](utas.edu.au/research/degrees/contact-us)

The Dean of Graduate Research is responsible for:

- Encouraging high quality supervision practices, for monitoring supervisory practices across the University, and for taking action as appropriate to ensure that high quality supervision is achieved for all HDR candidates
- Reporting to Academic Senate on research higher degree supervision in the University
- Approving supervision arrangements on the advice of the Head of Academic Unit. The Dean of Graduate Research must seek assurance that:
  - Those nominated can provide appropriate supervision by virtue of their qualifications and experience, their research interests and their personal qualities; and,
  - Supervision has been taken into account in the academic’s workload model and adequate supervision can be maintained for the duration of candidature regardless of staff leave and other absences from the University.
What you need to do
What you need to do

BEFORE YOUR FIRST DAY

Get excited!
You are about to begin your Higher Degree by Research, and join the University of Tasmania’s research community.

Read your Acceptance of Offer email
Please read your Acceptance of Offer email carefully and undertake all the requested steps.

Arrange accommodation and request airport pickup (For international or interstate candidates moving to Tasmania)
For candidates moving to Tasmania to commence their research, consider your accommodation options. The University of Tasmania have a range of on-campus options, as well as links to off-campus accommodation utas.edu.au/student-living. The University of Tasmania also provides a free airport pick-up service. Register your request in the Accommodation Portal and submit an Airport Pickup Request online: utas.starrezhousing.com/StarRezPortalStudents/

Familiarise yourself with roles and responsibilities
Familiarise yourself with your role and responsibilities as an incoming candidate, and the roles and responsibilities of your supervisory team, Graduate Research Coordinator (GRC), Head of Academic Unit and Dean of Graduate Research. A handy summary is provided on page 10.

Read your Conditions of Award (For candidates in receipt of a Living Allowance Scholarship)
Please ensure you read your Award Conditions. Please note, scholarship payments cannot commence until you have an open Australian bank account. If you’re unsure where your closest bank is relative to the University campus, please contact UConnect and they will be able to assist you: utas.edu.au/students/admin/u-connect
YOUR FIRST DAY

Familiarise yourself with your campus
Look at a campus map and familiarise yourself with your relevant campus and the services it offers: utas.edu.au/campuses.

Meet your Primary Supervisor
Attend a meeting with your Primary Supervisor and take some time to get to know each other. During this meeting:

- Complete the necessary commencement paperwork (accessible through your Acceptance of Offer email, or on the Candidate Forms webpage: utas.edu.au/research-admin/graduate-research/policies-and-forms/hdr-candidates-forms-and-guidelines
- Organise infrastructure (such as your laptop, desk allocation, and access card)
- Discuss Information Technology and system requirements.
- Organise an on-site induction
- Schedule your initial supervisory meeting with your supervisory team and preferably your GRC
- Discuss and establish research and behavioural expectations
- Ask your Primary Supervisor to meet your GRC.

Submit your commencement paperwork
Submit the completed commencement paperwork via email to the Graduate Research Office (GRO): www.utas.edu.au/research/degrees/contact-us. Confirmation of enrolment will be sent to your personal email address and may take up to 1 working day to occur.

Set up your space
Your Academic Unit will provide you with the necessary infrastructure to work on-campus. Please ensure you acquire information about building, office and/or lab access, your desk allocation, tea and washroom facilities, photocopying, travel, internet access and on-campus mailing addresses.

Undertake an on-site induction
Undertake an on-site induction within your Academic Unit. This induction should be facilitated by your Graduate Research Coordinator (GRC). For all candidates (irrespective of whether you are on- or off-campus), please ensure you acquire information about:

- Key personnel within the Academic Unit and College. This includes the professional staff who are there to assist you with day-to-day enquiries regarding administration
- Academic Unit and College specific facilities and support arrangements (e.g. funding for conference attendance)
- Any Academic Unit-specific inductions you are required to undertake
- Any relevant email distribution lists you should be added to
- Where or how to meet other HDR candidates.

Be safe
Save the Security number (+61 3 6226 7600) in your phone and familiarise yourself with other emergency contact information: utas.edu.au/infrastructure-services-development/emergency-management. You can also request assistance from Campus Security by using SafeZone. SafeZone is an app for your mobile device that can be downloaded for free: utas.edu.au/safety-and-wellbeing/safezone
YOUR FIRST TWO WEEKS

You might be feeling a bit unsure about the first few weeks of candidature. Don’t worry – it’s completely normal to feel this way. Here is a list of things you can do that will help you to get settled and organised. You will be getting stuck into your research in no time!

Get your student ID card

Once you have submitted your commencement of candidature paperwork, and upon receipt of an enrolment confirmation email, obtain your student ID card through a UConnect location, or online: utas.edu.au/students/admin/id-and-access

Get your login details

Your University email, username and password details (login details) will be emailed separately to your personal email account. It may take up to 3 working days to be generated upon being enrolled. Please contact Service Desk if you have not received your details after this time: utas.edu.au/service-desk

Have your initial supervisory meeting

Undertake your initial supervisory meeting with your supervisory team and preferably your GRC. During this meeting, discussion points should include:

- Key project aims
- Each party’s role, responsibilities and expectations, including how to provide feedback and resolve issues
- A proposed timetable and methods of working together
- Key milestones, including whether ethics approval is needed (and, if so, how to obtain it), provisional progress.

Meet your Graduate Research Coordinator

If you have not done so already, meet your GRC. The GRC works alongside the Head of Academic Unit and your supervisors to oversee your candidature. A list of GRCs is available online within the GRC Register: utas.edu.au/research-admin/graduate-research/supervisors/grc-register-and-training

Log in to the University systems

Upon receipt of your login details you will be able to access a range of online systems required during candidature, including webmail, iGRad, eStudent and MyLO. For further information on these student systems, please refer to this guide and the Commencing Candidates website under What you need to know: utas.edu.au/research-admin/graduate-research/commencing-candidates

Commence the HDR Candidate Induction

Access MyLO and start the HDR Candidate Induction via the Discover Course Catalogue: utas.edu.au/mylo. All new candidates are required to undertake the HDR Candidate Induction, to ensure a smooth transition into their HDR program. The Induction is self-paced and must be completed within your first month of candidature. Please ensure you retain your certificate of completion for Confirmation of Candidature.
Enrol in coursework units

Enrol in your coursework units as early as possible via eStudent: estudent.utas.edu.au. Coursework units undertaken during candidature teach you high-level research, communication and management skills. For further information on your coursework, or on how to apply for an exemption or credit, please refer to Graduate Research Coursework found here: utas.edu.au/research-admin/graduate-research/current-candidates

For domestic candidates, please ensure you complete a Commonwealth Assistance Form (eCAF) during the enrolment process. You can find instructions on how in the HDR X5A & S6O Commonwealth Supported Place Guide found here: utas.edu.au/research-admin/graduate-research/current-candidates/your-graduate-research-coursework

Familiarise yourself with responsible research conduct

Ensure you are aware of and understand what is required to ensure responsible research conduct. A handy summary is provided within this guide.

Meet an International Student Adviser
(For international candidates)

Visit or contact an International Student Adviser:utas.edu.au/students/learning/advisers. International Student Advisers can provide assistance with understanding University policies and procedures or accessing services and information pertinent to international candidates, such as finding accommodation and understanding visa requirements. They can also assist with any personal circumstances affecting your candidature.

Pay your Student Services and Amenities Fee
(For domestic candidates)

Ensure you pay your Student Services and Amenities Fee (SSAF). SSAF is a compulsory fee for student services and amenities provided, which are non-academic in nature. Further information on SSAF may be found online: utas.edu.au/students/admin/ssaf

Make sure to complete the HDR Candidate Induction, accessible in MyLO: utas.edu.au/mylo
YOUR FIRST MONTH

With the excitement and activity of your first two weeks behind you, it can be hard to know what to do next. Understanding candidacy progression and how you manage candidacy is therefore your next step, in addition to completing the HDR Candidate Induction and beginning some key activities and tasks necessary for Confirmation of Candidature, your first formal review.

Familiarise yourself with candidacy progression and milestones

Familiarise yourself with your candidacy milestones and requirements. General information is accessible within this guide, with a succinct description of each type found on the Candidature Milestones webpage: utas.edu.au/research-admin/graduate-research/current-candidates

Familiarise yourself with candidacy management and variations

Familiarise yourself with how you manage and undertake variations to candidacy. A useful summary is provided on page 21 of this guide.

Commence the Academic Integrity Module

Access MyLO and start the Academic Integrity module via the Discover Course Catalogue: utas.edu.au/mylo. All new candidates are required to undertake the Academic Integrity module, to enhance their understanding of the principles of academic integrity, and why it’s important. The module is self-paced and should be completed within your first month of candidacy. Please ensure you retain your certificate of completion for Confirmation of Candidature.

Book a research consultation with a Research Librarian

An essential tool for success, Research Librarians provide guidance in various areas including research planning, accessing pertinent literature, publishing your research outputs and measuring impact. They can also assist you to sign up for ORCID and Researcher IDs, which will help build your research profile when you publish.

During your consultation you will be required to complete an Information Skills Checklist: utas.edu.au/library/research/services-for-researchers

The consultation is also an opportune time to discuss how the Library can assist you with your Data Management Plan and Literature Review, both requirements of Confirmation of Candidature.

Start the process of getting ethics approval (if required)

Many research projects require human or animal ethics approval to proceed. It is therefore essential that you discuss with your supervisors whether ethics approval is needed for your research and, if so, how to obtain it.

For more information, please contact the Research Integrity and Ethics team: secure.utas.edu.au/research-admin/research-integrity-and-ethics-unit-rieu

Commence your Research Plan

The Research Plan is a live document, which can be created and maintained throughout candidature in iGRad: utas.edu.au/research-admin/graduate-research/igrad. It describes your project’s aims, methods, directions and milestones, which should be reviewed and updated regularly during candidature.

The first draft of your Research Plan must be completed at three months’ EFT and submitted to your GRC through iGRad. For more information about the Research Plan please refer to your Primary Supervisor for Academic Unit-specific requirements and, for more general information refer to the HDR Academic Progress Procedure: 4 Research and Research Training – utas.edu.au/policy/procedures

Commence your Data Management Plan

Begin to create a Data Management Plan, which will describe how you will collect, organise, manage, store, secure, back up, preserve and share your research data. The Data Management Plan should adhere to the Management of Research Data Procedure UNDER REVIEW: 4 Research and Research Training – utas.edu.au/policy/procedures.

The Library also has a range of resources to help you develop your Data Management Plan: utas.libguides.com/ResearchData/management

For more information, please liaise with your Primary Supervisor and/or contact a Research Librarian: utas.edu.au/library/research/services-for-researchers
At the end of your first year you will go through a process called Confirmation of Candidature. It is important that you prepare for this well in advance.
YOUR FIRST YEAR

Within the first month of candidature you’ve begun to work on key tasks many of which will contribute to Confirmation of Candidature, the first formal review you will undergo at the end of your first year EFT of candidature.

Submit your first Research Plan draft

The first draft of your Research Plan must be completed at 3 months’ EFT, and submitted through iGRad: utas.edu.au/research-admin/graduate-research/igrad. Once you have done so, please notify your GRC and Primary Supervisor to ensure they are aware. Please note, the Research Plan is a live document that will be reviewed annually in each Annual Review (including Confirmation). It may therefore change as your candidature progresses.

Make progress with your coursework

In your first year, you should focus on completing any coursework units that are required for Confirmation. These are:

- Master of Research – XGR501: Introduction to Higher Degree by Research
- PhD – Completion of at least 50% of the Graduate Certificate in Research, including XGR501 and either XGR502 or one elective unit.
- Professional Doctorate – Completion of at least 50% of coursework specified in the Course and Unit Handbook, including XGR501
- Quantitative Marine Science (QMS) or Quantitative Antarctic Science (QAS) program – Your coursework will contribute to the Graduate Diploma of Marine and Antarctic Science (SGO). Questions should be directed to the QMS Program Coordinator.

You should also take some time to plan the rest of your units. There are a range of elective units on offer that you can select from based on the skills and knowledge that will enhance your ability to complete your research project: utas.edu.au/research-admin/graduate-research/current-candidates/your-graduate-research-coursework

Complete a substantial piece of academic writing

By the end of your first year you need to produce a piece of academic writing that is relevant to your research project and appropriate for your discipline. This piece of writing is particularly important as it is required for Confirmation. Your supervisors will be able to advise you regarding length, format, style and any other requirements. You are encouraged to discuss this with your supervisors early on in your candidature to give you as much time as possible to complete the written work. Research Librarians can also assist you in searching for and accessing relevant literature: utas.edu.au/library/research/services-for-researchers

Confirmation of Candidature

Confirmation of Candidature is your first major review. It occurs at 12 months EFT for doctoral candidates, at 6 months EFT for Master of Research candidates, and at commencement of candidature for PhD by Prior Publication candidates. The primary purpose of Confirmation is to make sure that you have the capacity to undertake your research project within the maximum degree period, and that your research project is clearly defined, coherent and feasible.

To have your candidature confirmed and to allow continued enrolment in your course, you must fulfil the following requirements:

- Research Plan
- Ethics requirements (if required)
- Data Management Plan
- Written work
- Oral presentation
- Peer review
- Supervisor-Candidate meetings
- Coursework
- Any additional criteria required by your Academic Unit or specified in your letter of offer

For Confirmation, the required documentation is submitted via iGRad. Submission may begin as soon as the tab appears in iGRad, 2 months before the due date.

For more information about Confirmation please refer to your Primary Supervisor for Academic Unit-specific requirements and, for more general information and requirements please refer to the HDR Academic Progress Procedure: 4 Research and Research Training – utas.edu.au/policy/procedures

A succinct summary of this candidature milestone may also be accessed online: utas.edu.au/research-admin/graduate-research/current-candidates
YOUR SECOND YEAR

Congratulations on making it through Confirmation of Candidature.

By now, your research project will have developed significantly since you commenced. You might be about to collect data, or you may have already started. It is possible, however, that your research project isn’t as well-defined as you’d like it to be, or that your research has been delayed. It is normal to feel uncertain about your project and the progress you have made. Research is not a linear process, and you are likely to change direction and modify your plans multiple times during your candidature.

There are a number of things you can do to help you to navigate your second year of candidature and the challenges it brings.

Prepare for your Annual Review

Following successful Confirmation, academic progress of candidature will be formally reviewed at an Annual Review of Progress meeting every 12 calendar months of candidature, regardless of study load, until submission. Annual Reviews check your academic performance is consistent with your Research Plan and make sure that you have the right resources and support to complete your research project within the maximum degree period.

You will be required to complete your Annual Review Report in iGRad at least 2 weeks prior to your meeting:
utas.edu.au/research-admin/graduate-research/igrad

Your Primary Supervisor will also complete a report in iGrad and these reports will be reviewed by the GRC. The GRC will share the reports with the Annual Review of Progress (ARP) Committee who will conduct the review.

You can start completing your Report as soon as the tab appears in iGrad, 2 months before the due date.

For more information about your Annual Review please refer to your Primary Supervisor for Academic Unit-specific requirements and, for more general information refer to the HDR Academic Progress Procedure: 4 Research and Research Training – utas.edu.au/policy/procedures

A succinct summary of this candidature milestone may also be accessed online:
utas.edu.au/research-admin/graduate-research/current-candidates

Continue to make progress with your coursework

If you are a PhD or MRes candidate, you need to complete all coursework requirements by your second year Annual Review of Progress. If you have already completed your core units and have remaining units to complete, you can select from a range of elective units which are offered throughout the year. It is important to choose units that will help you with your research project. If you have any questions about selecting appropriate units, you should talk to your supervisors or GRC.

Sometimes, workshops and courses you undertake as part of your research can also count towards your coursework.

For further information on available electives, or on applying for an exemption or credit, please access the HDR Coursework website:
utas.edu.au/research-admin/graduate-research/current-candidates/your-graduate-research-coursework

If you are enrolled in a Professional Doctorate or the QMS or QAS program, you should discuss your coursework requirements and any exemptions with your Course/Program Coordinator.
YOUR THIRD YEAR

Your final year is approaching. Here are some things you can do, last but not least of which is prepare for the most exciting milestone of all: Thesis submission.

Prepare for your third or final Annual Review

At the end of your third year EFT you may go through your final Annual Review. The purpose and process of this review is the same as the previous Annual Review – to assess your academic performance relative to your Research Plan and ensure you have what you need to complete your project.

Just like your previous Annual Review, you will need to complete an Annual Review Report via iGrad. As your thesis deadline will be approaching, it is likely that your final Annual Review meeting will focus on your thesis.

For more information about your Annual Review please refer to your Primary Supervisor for Academic Unit specific requirements and, for more general information refer to the HDR Academic Progress Procedure: 4 Research and Research Training – utas.edu.au/policy/procedures

Finalise your coursework

By your third year EFT, you should must completed all coursework required for your candidature. If not, there are a range of units you can select that are offered throughout the year. It is important to choose units that will help you with your research project:
utas.edu.au/research-admin/graduate-research/current-candidates/your-graduate-research-coursework

Prepare for thesis submission

The final and perhaps most exciting milestone of your candidature is submission of your thesis.

Your thesis will embody the results of your research conducted during your candidature and demonstrate that your research has produced original findings that make a significant contribution to knowledge.

Your thesis may be presented in a variety of formats for the relevant discipline.

For more information about thesis submission, please refer to your Primary Supervisor for Academic Unit specific requirements and, for more general information refer to the HDR Examination Procedure: 4 Research and Research Training – utas.edu.au/policy/procedures

To assist, thesis submission, examination and graduation guidelines, forms and templates are also accessible online:
utas.edu.au/research-admin/graduate-research/policies-and-forms/hdr-candidates-forms-and-guidelines

A succinct summary of the steps involved in the preparation, submission and examination of this candidature milestone may also be accessed here: utas.edu.au/research-admin/graduate-research/current-candidates
TIPS FOR SUCCESS THROUGHOUT YOUR CANDIDATURE

Have regular meetings with your supervisors
Meeting regularly with your supervisors to discuss project progress, troubleshoot issues and develop action plans for future research is vital to the success of your candidature.

Build your research skillset
Three Minute Thesis (3MT)
The Three Minute Thesis (3MT) is a competition designed to help HDR candidates develop academic and research communication skills. Competitors have three minutes to explain their thesis and its significance, in language that is appropriate to a non-specialist audience. The University hosts the 3MT every year, with the winner sponsored to compete in the Asia-Pacific Final.

You are encouraged to participate in 3MT, as the ability to communicate the importance of your research project and articulate your findings is a very valuable skill. More information about 3MT is available online: utas.edu.au/research-admin/graduate-research/research-training-opportunities

Resources
There are a range of online development resources including Vitae and LinkedIn Learning.

Vitae is an online repository of researcher development articles and training materials, including some that are specifically for HDR candidates. You can log in to Vitae using your University of Tasmania credentials: vitae.ac.uk/

LinkedIn Learning is an online learning platform that contains more than 10,000 courses on a range of subject matter including business, software, technology and creative skills. You can log in to LinkedIn Learning using your University of Tasmania credentials: linkedin.com/learning

Internships
Internships can enable you to turn your PhD theory into practice, build industry networks and enhance your CV, and develop soft skills to support and complement your research expertise. You should talk to your supervisor about identifying opportunities to undertake internships and placements during your candidature.

Career Development and Employment
Making informed decisions about your career is an important step in the transition from university to work or further study. The Student Leadership and Careers team can help you to clarify important career issues, assist you with your career decisions and provide many services to support you to build your career: utas.edu.au/students/careers
Teaching and tutoring opportunities
You may be interested in furthering your skills in teaching or tutoring. If so, you should discuss this with your supervisors as they are best placed to advise of relevant opportunities within your Academic Unit. You will need to be mindful of the restrictions on the amount of paid employment undertaken during your candidature, as stipulated in the HDR Candidature Management & Enrolment Variation Procedure: 4 Research and Research Training – utas.edu.au/policy/procedures

Develop your thesis
The best way to minimise stress as you approach your thesis submission deadline is to actively and consistently develop your thesis throughout your candidature. Every thesis is different, however it is vital that you decide the format and plan the structure of your thesis with your supervisors and find an approach to working on your thesis that suits you.

It is also important to have an early discussion with your supervisors about formatting, length and referencing requirements, as these differ by discipline.

You should take some time to review the HDR Examination Procedure: 4 Research and Research Training – utas.edu.au/policy/procedures which provides important information about your thesis such as format, content, language and word count.

Publish as you go
Publishing during candidature is a great way to build your publication record and receive peer review feedback on your research that will contribute to your thesis. You should discuss publications with your supervisor as early as possible in your candidature.

It is also possible to include your publications within your thesis. Where publications are included in your thesis (either in whole or part), you must include a co-authorship statement in the preamble of your thesis. For more information please review the Guidelines for Incorporating Publications into a Thesis and Authorship of Research Procedure: utas.edu.au/research-admin/graduate-research/policies-and-forms/hdr-policies

Stay engaged
Depending on the nature of your research project, you may spend a lot of time working independently.

It is important to stay engaged socially and professionally with members of the University and wider community. You might consider attending on-campus events, joining a club or society or connecting with the University Community, Friends and Networks Programme (UTASLife).

• Events: utas.edu.au/events
• Clubs & Societies: tusa.org.au
• UTASLife: utas.edu.au/utaslife

Take care of yourself
There are a number of unique stressors faced by HDR candidates. Research takes a great deal of time and it can often be stressful and isolating.

To thrive during your candidature, it is important that you stay as mentally and physically well as possible. This can help you to better overcome challenges, build healthy relationships and work more productively.

There are a number of resources available that can help you to look after your physical and mental health and achieve a good work-life balance.

• Safety, Health and Wellbeing: utas.edu.au/students/shw
• Work, Health & Wellbeing Network: utas.edu.au/work-health-wellbeing
• Supporting and Managing Candidates’ Mental Health: utas.edu.au/research/graduate-research/candidates-mental-health/home
• Aboriginal and Torres Strait Islander HDR candidates: utas.edu.au/riawunna

Most importantly, you should never be shy about reaching out to someone if you need to talk. This person might be one of your supervisors, your GRC, another HDR candidate, a family member or friend, or anyone you are comfortable talking to.
What you need to know
What you need to know

ORDINANCES, POLICIES, AND PROCEDURES

In order to ensure that you make an impact in your chosen field and develop the skills you need for your desired career, the University has ordinances, policies and procedures that provide guidance to Higher Degree by Research candidates and all staff involved with research at the university.

The Research Training Ordinance is the overarching framework for research degrees at the University of Tasmania: [utas.edu.au/policy/ordinances](utas.edu.au/policy/ordinances)

Other important polices and procedures include:

- HDR Admissions Selection & Enrolments Procedure
- HDR Candidature Management & Enrolment Variation Procedure
- HDR Academic Progress Procedure
- HDR Examination Procedure
- Schedule C: Minimum Resources for HDR Candidates as per HDR Admissions, Selection & Enrolment Procedure
- HDR Supervision & Academic Support Procedure

You can access these documents online on the HDR Policies & Procedures webpage ([utas.edu.au/research-admin/graduate-research/policies-and-forms/hdr-policies](utas.edu.au/research-admin/graduate-research/policies-and-forms/hdr-policies)), with the broader Framework available on the Governance Instruments Framework website ([utas.edu.au/policy](utas.edu.au/policy)).

Ordinances

Within the governance framework of the University are ordinances. Of particular importance within the HDR space are the following:

- Research Training Ordinance
- Academic Delegations Ordinance
- Student Participation and Attainment Ordinance
- Student Academic Integrity Ordinance
- Student Behaviour and Conduct Ordinance

You can access these ordinances online: [utas.edu.au/policy/ordinances](utas.edu.au/policy/ordinances)

RESPECTFUL AND RESPONSIBLE CONDUCT

People are the heart of our University community. As members of our University community we work and study in close proximity to each other, regularly interact and often depend upon one another, all of which requires high levels of trust and respect. Our University is therefore committed to a culture that encourages respectful and responsible conduct.

Values and behavioural expectations

Our University is committed to a values-based culture. This means the foundation of our community is based upon a shared set of values and by behavioural expectations that have been set in place to help us be safe, feel valued and respected, and thrive. These values are:

- Respect and self-respect
- Fairness and justice
- Integrity
- Trust and trustworthiness
- Responsibility
- Honesty

Aligned with these values are our behavioural expectations, which are set out within the Behaviour Policy: Governance and Accountability – [utas.edu.au/policy/policies](utas.edu.au/policy/policies)

You should familiarise yourself with these values and expectations, because a safe and respectful University community is everybody’s responsibility. For further information please go online: [utas.edu.au/students/safe-fair-community-unit](utas.edu.au/students/safe-fair-community-unit)

Further assistance may also be acquired from the Safe and Fair Community Unit (SaFCU). SaFCU is a University-wide service providing support, advice, and information to assist all community members be safe and well: [utas.edu.au/students/shw/safe-fair-community-unit](utas.edu.au/students/shw/safe-fair-community-unit)

The University is a member of Respect. Now. Always., an initiative launched in 2016 by Universities Australia to combat sexual assault and sexual harassment against students. The University is committed to ensuring it has effective strategies in place for preventing and responding to sexual assault and sexual harassment. For further information, please refer online:
utas.edu.au/respect-now-always

As an HDR candidate at the University, you also have access to the following free online MyLO units:
- Responding to Disclosures of Sexual Violence
- Consent Matters

You should also be aware of the First Responder’s Protocol, which outlines how to respond to a disclosure of sexual assault or sexual harassment:
utas.edu.au/students/safe-fair-community-unit/sash

The Responding to Disclosures of Sexual Violence unit provides you with the skills to respond appropriately, empathetically, and confidently. If someone chooses to share their experience of sexual assault or sexual harassment with you, the Consent Matters unit is a course to help you understand sexual consent, boundaries, respect, and positive intervention:
mylo.utas.edu.au/d2l/le/discovery/view/course/433766

Responsible research conduct

The University of Tasmania is dedicated to creating and maintaining an environment that promotes responsible research conduct in accordance with the Australian Code for the Responsible Conduct of Research (the Code).

In response to the Code, our University has implemented a suite of policies and procedures, which are outlined in the University of Tasmania’s Responsible Conduct of Research Framework. It is every candidate’s responsibility to be aware of and adhere to the Code and Framework.

In addition to research integrity, each HDR candidate must abide by the University’s commitment to uphold a high level of academic integrity. As noted within the Student Academic Integrity Ordinance:

“Academic integrity underpins the quality of every aspect of academic work and the student journey. Upholding academic integrity creates expectations for the conduct of academic work for students and staff and is a quality benchmark for Australia’s higher education sector.”

Research integrity and ethics, and academic integrity are the backbone of our University’s research culture. To ensure your understanding of what is expected of you as an HDR candidate, please familiarise yourself with the following:

- University of Tasmania’s Responsible Conduct of Research Framework: utas.edu.au/research-admin/research-integrity-and-ethics-unit-rieu/research-integrity/university-of-tasmania-responsible-conduct-of-research-framework
- Research Integrity & Ethics website: utas.edu.au/research-admin/research-integrity-and-ethics-unit-rieu
- Student Academic Integrity Ordinance: utas.edu.au/policy/ordinances
- Academic Integrity for Students website: utas.edu.au/students/learning/academic-integrity

For further information on research integrity, or if ethics approval is required for your project, please contact the Integrity and Ethics unit:
utas.edu.au/research-admin/research-integrity-and-ethics-unit-rieu/contacts

MISCONDUCT, COMPLAINTS AND RESOLVING DIFFICULTIES

When issues arise the University is committed to providing an environment in which genuine concerns or complaints are treated seriously, impartially, and resolved as quickly as possible.

Inappropriate behaviour:

Behaviour that is inconsistent with our University values is considered to be inappropriate behaviour. Inappropriate behaviour of staff and candidates is managed in line with the Student Behaviour and Conduct Ordinance, Behaviour Policy and Behaviour Procedure: utas.edu.au/policy

If something has happened which is felt to be inappropriate behaviour, or you require further information, please contact the Safe and Fair Community Unit (SaFCU).
Safe and Fair Community Unit
SaFCU respond to notifications of sexual assault or sexual harassment, concerns raised in relation to wellbeing or behaviour, reports of misconduct, and the lodgement of general concerns or complaints.

If you have experienced sexual assault or sexual harassment, or have observed concerning or inappropriate behaviour, please contact SaFCU (+61 3 6226 2560, SaFCU@utas.edu.au). For more detailed information about SaFCU, please go online: utas.edu.au/students/safe-fair-community-unit/sash

Resolving difficulties within the academic unit:
Where possible, candidates should work with their Primary Supervisor to resolve difficulties as soon as they arise during candidature. HDR candidates may also seek advice and support from the Student Advocacy Service at the Tasmanian University Student Association tusa.org.au/about-our-student-advocacy-program/

Where a candidate has been unable to resolve a problem with their supervisors they should continue to seek to resolve the problem by working with the following people in their Academic Unit, in the order presented:

- Graduate Research Coordinator
- Head of Academic Unit
- College Executive Dean

If a candidate is still unable to resolve the problem a formal complaint may be made through the Dean of Graduate Research, following the procedure outlined within the Student Complaints Policy and Student Complaints Procedure:

For matters related to harassment or discrimination, or other inappropriate behaviour, formal complaints may be actioned under the Behaviour Policy (6 Governance and Accountability – utas.edu.au/policy/policies) and Behaviour Procedure UNDER REVIEW (6 Governance and Accountability – utas.edu.au/policy/procedures)

Research misconduct:
The definition of research misconduct and the process for submitting an allegation of research misconduct are detailed in the University’s Managing Allegations of Research Misconduct Procedure UNDER REVIEW (4 Research and Research Training – utas.edu.au/policy/procedures)

To assist in the promotion of research integrity, the University has appointed Research Integrity Advisors (RIAs) to provide advice to staff and candidates on responsible research practices. RIAs are available to explain University policy and procedure and to provide advice on options available to staff and candidates who are considering making an allegation of non-compliance with the Australian Code for the Responsible Conduct of Research. For further information on RIAs, please go online: utas.edu.au/research-admin/research-integrity-and-ethics-unit-rieu/research-integrity/research-integrity-advisers

Academic misconduct:
At the University of Tasmania, academic integrity requires all students to act responsibly, honestly, ethically and collegially when using, producing and communicating information with other students and staff members.

Breaches of academic integrity resulting in allegations of academic misconduct are investigated according to the procedure within Student Academic Integrity Ordinance: utas.edu.au/policy/ordinances

For further information on academic misconduct please go online: utas.edu.au/students/learning/academic-integrity

Review of Decisions made by the Dean of Graduate Research:
Where a decision has been made by the Dean of Graduate Research, a candidate may request that the Deputy Vice-Chancellor (Research) review the decision. If the candidate is still unsatisfied with the decision of the Deputy Vice Chancellor they may give notice in writing within 20 days to the Provost, that they seek an appeal under the Student Complaints Policy (2 Learning Environment – utas.edu.au/policy/policies) and section 2.5 of the Student Complaints Procedure (2 Learning Environment – utas.edu.au/policy/procedures).
It is expected that you will complete your research and submit a body of work (in most cases, a thesis) for examination within the maximum degree period. For Master of Research candidates this is 2 years EFT, and for Doctoral candidates this is 4 years EFT.

During candidature you will be required to undertake various action items or milestones. These milestones have been provided to ensure there are opportunities for project refinement through periodic feedback and guidance.

Your candidature milestones are:
- Initial Supervisory Meeting
- Regular Meetings
- Research Plan Draft
- Ethics Approval (if required)
- Confirmation of Candidature
- Annual Reviews of Progress
- Milestone Progress Reports to GRC
- Thesis Submission and Examination

A succinct summary of what each candidature milestone entails may be accessed here: [utas.edu.au/research-admin/graduate-research/current-candidates](utas.edu.au/research-admin/graduate-research/current-candidates)

Managed in iGRad, the Action Dates tab details every milestone, including when they are due for completion. Before the due date, iGRad will send reminder emails. Depending on milestone type it is generally the responsibility of your Primary Supervisor or Graduate Research Coordinator (GRC) to complete the milestone in iGRad. If a milestone becomes overdue, either because it has not been completed or has not been signed off, you will receive an automatic reminder from iGRad.

If you have concerns about meeting your milestone by the due date or wish to complete a milestone earlier, please liaise with your Primary Supervisor or GRC first. If your query remains unresolved, the Graduate Research Office (GRO) is also happy to assist you and, in exceptional circumstances the Dean of Graduate Research may approve shifting the due date.

For further information please access the following:
- Candidature Milestones webpage: [utas.edu.au/research-admin/graduate-research/current-candidates](utas.edu.au/research-admin/graduate-research/current-candidates)
- iGRad – Your Candidature Management Tool webpage: [utas.edu.au/research-admin/graduate-research/igrad](utas.edu.au/research-admin/graduate-research/igrad)

Your primary focus during candidature is your research project. As such, there are requirements around the number of hours that you must devote to your research project. This is at least 38 hours per week for full-time HDR candidates and at least 19 hours per week for part-time HDR candidates.

Work experience and paid employment
If you are a full-time HDR candidate you are limited to a maximum of 365 hours (20% of a full time load) work experience or paid employment per 12-month period, provided it does not interfere with your research project and it is documented in your Research Plan and endorsed by the Academic Unit. International HDR candidates should check their visa conditions for any restrictions on paid employment.

Annual/Sick leave
As an HDR candidate you are entitled to 20 working days annual leave (pro rata) and 10 working days sick leave per year. Annual leave and sick leave are included within the total length of the maximum degree period and is managed within the Academic Unit via your Primary Supervisor. If more than 10 consecutive working days of sick leave are taken, a Medical Leave of Absence should be requested.

It is important that you plan for and take your annual leave as it can help you manage your work-life balance and prevent burn-out.
Leave of absence

A leave of absence refers to a period of non-enrolment, when you are not working on your research degree for personal or medical reasons. When approved by the Dean of Graduate Research, a leave of absence does not change the total length of the maximum degree period but shifts the maximum expiry date in proportion to the approved leave. This is likewise the case if you are in receipt of a Living Allowance Scholarship Award; the Scholarship period will not change but the expiry date will shift in proportion to the approved leave.

There are limits to the duration of a leave of absence and some restrictions may apply prior to Confirmation and when you are approaching your maximum degree period. Where possible, you should discuss your intention to apply for a leave of absence with your Primary Supervisor before you apply.

Candidature variations

During candidature you may be required to make changes to your enrolment or project. These changes are referred to as variations. Possible variations include:

- Leave of absence (not to be confused with sick or annual leave)
- Change of enrolment status (or load; full-time to part-time and vice versa)
- Change of campus (mode)
- Change of thesis topic
- Change of supervisor
- Transfer to PhD from MRes (and vice versa)
- Extension of candidature
- Withdrawal from candidature

All candidature variation applications must be endorsed by your Primary Supervisor, GRC and Head of Academic Unit, and must be approved by the Dean of Graduate Research to proceed.

If you are in receipt of a Living Allowance Scholarship Award, please check the conditions of the Award as an application to vary candidature may affect the tenure of the Award and your eligibility to retain the Award. Furthermore, in the case of leave of absence there may be eligibility for paid leave.

Prior to submitting an application, all international candidates should seek advice from an International Student Adviser: utas.edu.au/students/learning/advisers. For international candidates there may be visa implications to your request that may prevent an application being successful.

Prior to submitting an application, all Professional Doctorate candidates should seek advice from their Course Coordinator.

All candidate forms may be accessed via the Forms & Procedures website: utas.edu.au/research-admin/graduate-research/policies-and-forms. All forms that are eForms may also be managed and tracked via the Service Portal: utas1.service-now.com/selfservice/

For further information on all candidature variations, please access the following:

- Research Training Ordinance: utas.edu.au/policy/ordinances

The Candidature Team within GRO is also happy to assist you with any queries you may have: utas.edu.au/research/degrees/contact-us

At the University of Tasmania, Google Chrome is the recommended web browser. If you run into technical difficulties, try using Google Chrome first, then contact Service Desk.
OTHER USEFUL INFORMATION

Travelling

Travel Procedure
As an HDR candidate you must abide by the University’s Travel Procedure UNDER REVIEW: 6 Governance and Accountability – utas.edu.au/policy/procedures

All travel outside of your home state that is related to your research must be authorised using the Travel Management System and booked through the University’s contracted Travel Agent. You should discuss your travel arrangements with your supervisors prior to making any plans, and ensure it is supported by your Academic Unit: utas.edu.au/finance/travel

Travel funding
The University recognises that conference attendance is an important research activity which contributes to the research abilities and profile of an HDR candidate. Significant skills can be gained and networking opportunities can arise which may lead to future research collaborations and employment opportunities. Similar benefits can be gained from participating in short internships and other research training activities at research facilities or institutions of international standing.

You are encouraged to be proactive in finding and applying for possible sources of travel funding. A good starting point is to have a discussion with your supervisors and GRC. You can also search the Research Professional database for potential funding opportunities: researchprofessional.com/0/rr/home

Living allowance scholarships
If you have been awarded a Living Allowance Scholarship, please be aware that it may take up to four weeks from your commencement date for your first scholarship payment to occur. Payments are made fortnightly.

Scholarships are normally only offered on a full-time basis and are governed by the conditions detailed in the Conditions of Award and Letter of Offer. It is vital that you are familiar with the conditions of your scholarship, particularly when requesting a variation to candidature.

You are encouraged to keep an eye out for other scholarship opportunities during your candidature.

A good place to start is the Research Degrees Scholarships webpage: utas.edu.au/research/degrees/scholarships/other-scholarships

Fees
International HDR candidates
Unless a Tuition Fee Scholarship has been awarded, international HDR candidates are charged tuition fees for the duration of their research degree. Fees are charged in advance each enrolment period (of which there are two each year – 01 January to 30 June, and 01 July to 31 December). HDR candidates can access their fee statements online via eStudent and need to ensure that their fees are paid by the due date: estudent.utas.edu.au

An international HDR candidate’s tuition fee includes the Student Services and Amenities Fee.

Domestic HDR candidates – Research Training Program (RTP) Fees Offset
The RTP Fees Offset was introduced by the Commonwealth Government in 2017 to replace the Research Training Scheme (RTS). The RTP Fees Offset covers tuition fees for domestic candidates enrolled in a research degree for the duration of the course with no extension available.

Other applicable fees, such as the Student Services and Amenities Fee, are the candidate’s responsibility.

Student Services and Amenities Fee (SSAF)
The Student Services and Amenities Fee (SSAF) is a compulsory fee for student services and amenities of a non-academic nature such as employment and career advice, financial advice, childcare, food services and sporting and recreational activities. Further information about SSAF may be found online: utas.edu.au/students/admin/ssaf

HDR candidates should access eStudent and ensure that their fees are paid by the due date: estudent.utas.edu.au

SA-HELP
SA-HELP is a loan scheme that assists eligible candidates to pay all or part of their SSAF.

If eligible for SA-HELP, and if utilised, the amount is added to a candidate’s accumulated Higher Education Loan Program (HELP) debt. For further information on SA-HELP, or for assistance from the Fees Unit, please go online: utas.edu.au/fees
**Student visas and changes to citizenship**

International HDR candidates must remain keenly aware throughout candidature of the conditions of their student visa, particularly when applying for a variation of candidature. International Student Advisers and GRO will do their best to remind you of requirements or restrictions, but it is ultimately your responsibility to comply with the conditions of your visa.

If you require an extension to your Confirmation of Enrolment (CoE) please talk to your CMA in GRO and they will guide you through the process. Once your extension is approved, please contact an International Student Adviser to find out how this will affect your student visa: [utas.edu.au/students/learning/advisers](utas.edu.au/students/learning/advisers)

If your citizenship/residency status changes, please ensure you complete a Change of Citizenship/Residency Status form and attach documentary evidence in support of a change in status. This form must be submitted as soon as possible after a change of citizenship/residency for changes to take immediate effect, including eligibility for the RTP Fees Offset. For further information, please visit [How do I change my Citizenship details? (AskUs)](AskUs).
The University of Tasmania provides a range of services and resources to ensure you have access to a safe, welcoming, inclusive and supportive environment. The following services are available to all Higher Degree by Research (HDR) candidates, whether they be on-or off-campus. An overview of helpful support services is also available on the Graduate Research website: utas.edu.au/research-admin/graduate-research/current-candidates

<td>Field Friendly</td>
<td>Field Friendly is a management tool for staff, students and volunteers participating in field activities at the University. As well as record keeping it provides a central location for minimum standards and procedures relevant to field safety. Field Friendly incorporates a risk assessment process, project approval and review as well as meeting record keeping requirements.</td>
<td>Support: <a href="utas.edu.au/safety-and-wellbeing/information-and-documents/risk-topics/field-activity">utas.edu.au/safety-and-wellbeing/information-and-documents/risk-topics/field-activity</a></td>
</tr>
<tr>
<td>Service Portal (Service Now)</td>
<td>A tool that enables you to create, track and access a support request. Requests may include: • Requesting access to various network drives • Acquiring additional software (please note, non-University of Tasmania software, which requires payment, will require Primary Supervisor approval and provision of an account code to charge the fee to) • Data management and storage</td>
<td><a href="utas1.service-now.com/selfservice/">utas1.service-now.com/selfservice/</a></td>
</tr>
<tr>
<td>Skype for Business</td>
<td>Part of the Microsoft Office suite to enable communication.</td>
<td><a href="utas1.service-now.com/selfservice/">utas1.service-now.com/selfservice</a> Click on “Tips &amp; Tricks” and “Technology”</td>
</tr>
<tr>
<td>Turnitin</td>
<td>A tool that produces an originality report that highlights where care may need to be taken to correctly acknowledge the work of others and prevent potential plagiarism.</td>
<td><a href="utas.edu.au/turnitin">utas.edu.au/turnitin</a></td>
</tr>
<tr>
<td>Virtual Private Network (VPN or MyVPN)</td>
<td>VPN provides secure, encrypted connections to University network and resources. If you are off-campus, you will need to activate VPN prior to accessing secure systems such as iGRad and the network drives.</td>
<td><a href="utas1.service-now.com/selfservice">utas1.service-now.com/selfservice</a> Click on “Tips &amp; Tricks” and “Technology”</td>
</tr>
<tr>
<td>Web Access Research Portal (WARP)</td>
<td>WARP is the University’s research output database. Use the HDR Publications Upload area to register publications that you write as part of your research degree.</td>
<td><a href="https://rmdb.research.utas.edu.au/public/rmdb/q/warp_home">https://rmdb.research.utas.edu.au/public/rmdb/q/warp_home</a></td>
</tr>
<tr>
<td>Webmail</td>
<td>All HDR candidates are provided with a University email account. This is integral as all formal University correspondence is sent to this account, and is also likely to be used by your supervisors, other University staff and HDR candidates. You must check your University email regularly to avoid missing important information regarding your candidature and other University matters.</td>
<td><a href="utas.edu.au/webmail">utas.edu.au/webmail</a></td>
