Study is an adventure
Undergraduate Course Guide 2025
We acknowledge the Palawa/Pakana people of Lutruwita (Tasmania) and the Gadigal people of Sydney, the traditional owners, and custodians of the land upon which we live and work. We pay respects to Elders past and present as the knowledge holders and sharers. We honour their strong culture and knowledge as vital to the self-determination, wellbeing, and strength of the community. We stand for a future that profoundly respects and acknowledges Aboriginal perspectives, culture, language, and history.
Your journey starts here

Tasmania is a place filled with creativity, industry, nature, and adventure.

Because we’re the only university in the state, you get close access to the industry leaders, artists, and deep thinkers who are shaping our island. That means learning alongside the very best so you can hone your skills for a successful career.

Our class sizes and committed staff mean you’re always more than a number. We’ll give you the personalised attention and support that you need to thrive.

Our whole island is your campus

When you’re in one of the world’s most amazing places, you need to get outside, explore, and live while you learn.

Whatever you’re passionate about, we’ll give you a hands-on education and an unforgettable adventure.

In the natural and social sciences, our island becomes your living laboratory. In health, you’ll travel the state and apply your learning to real-life scenarios. In engineering and design, you’ll access cutting-edge facilities and technology.

Our courses put you alongside key decision makers in government, industry, and the community. You’ll help yourself and future generations to create a better tomorrow.

You’ll also find yourself at the heart of a creative revolution. Working on real briefs and projects, you’ll connect and collaborate with the acclaimed artists, performers, and creatives that are drawn here.

Flexible study options

Whether you want to kick-start your career, pick up a new skill, or tackle a lifelong passion, we have a flexible course for you. You can study part-time, online, or however fits your lifestyle and commitments. You might want to study two degrees, study a short course, or graduate job-ready in just two years. University is an exciting journey, and we’re here to help you every step of the way.

A great student lifestyle

There’s no place in the world quite like Tasmania. Living on our island, you can go from the world’s wildest art festivals to World Heritage areas – all in the same day.

Our campuses put you right in the heart of beautiful, charming cities that are rich in heritage. No matter where you study, you’ll become a member of a creative, diverse, and welcoming community.
By choosing to study with us, you’ll become part of the world’s leading university on climate action.

For many years our university has been working hard to bring people together and deliver more sustainable outcomes for Tasmania, and from Tasmania to the world.

We know that our mission is a pressing one.

Now is the time to create a society based on a climate-positive and circular economy, where inequality diminishes rather than grows, and where a better measure of the quality of life guides our choices. Hone the skills for a successful career to make a global impact.

Having adopted the United Nations Sustainable Development Goals, we see sustainability as an opportunity across everything we do and are passionate about the role you can play as a student.

No matter what you study, there are plenty of ways to get involved.

#1 in climate action globally
Times Higher Education Impact Rankings 2022 and 2023

#5 overall ranking globally

Learn and apply your skills in sustainability

Add a major in Sustainability to your degree
Learn to identify sustainability-oriented impacts of decisions and the techniques to create effective sustainable solutions in any workplace. Study the Sustainability major as part of any bachelor’s degree with space for a second major.

Sustainability Integration Program for Students
SIPS is our award-winning and globally recognised student engagement program which allows you to apply your study to real-world sustainability challenges and be paid or gain course credit for your work.

Study Sustainable Living anytime, anywhere
Develop the skills to make a difference at home or the workplace while exploring your passion for sustainability. Our Diploma of Sustainable Living is available fully online.

Green Impact Program
Take practical action to improve the sustainability of your campus, collaborate with students from different courses and engage in creative activities with an element of friendly competition through the Green Impact Program.

Join a club or society
The Tasmanian University Student Association (TUSA) has many sustainability-focused clubs and societies. Join the Australian Youth Climate Coalition, Zero Waste Society, Community Engagement Tasmania Society and more – or start your own.

Other ways to get involved
Whether you join us at Global Climate Change Week or have your say in our biennial Student Sustainability Survey, there are many opportunities get involved in sustainably.
Uni life in Tasmania

There’s much more to university than studying. That’s why we encourage you to go beyond the classroom and take part in all the social opportunities we have on offer. Each campus is home to a thriving student community, with lots of events and social opportunities to engage with.

Choosing your campus
Our university has campuses in the three distinct regions of Tasmania: Hobart in the South, Launceston in the North, and Cradle Coast in the North West. We also have a specialised Nursing and Paramedicine campus in Sydney.

Each campus is home to a thriving student community, with loads of events and social opportunities.

Explore our campuses on page 9.

Living on campus
Our Residential Colleges are a great way to immerse yourself in Tasmanian culture, build lifelong friends and make cherished memories.

For many students, studying at University is their first time living independently away from home. The Residential Colleges provide you with a supportive environment where you can thrive emotionally, academically and socially.

With a range of College options and residential experiences, you can live in the heart of the cities or a short walk from campus.

Explore our College options on page 11.

Making friends
Having a strong support network while you’re at university makes a big difference. There are plenty of ways you can meet people and make new friends.

Studying in Tasmania, you can take part in social events, off-campus trips, travel opportunities, campus tours, and much more. To get even closer to your community and make new friends, download the UniApp from your app store. It’s a great way to connect with people – and it’s got lots of great features that will enrich your uni experience.

Visit utas.edu.au/uni-life and utas.edu.au/student-events

Clubs and Societies
Whether it’s music, bushwalking, or sports, our student societies cover all kinds of interests. It’s a great way to meet and connect with like-minded people.

At the start of each semester we have Clubs and Societies Day where you can find out more about what each club and society has to offer.

Visit tusa.org.au

Support and wellbeing
Study can sometimes be stressful, but we’re here to help. Our support services include health and wellbeing, study skills development, career guidance, and more.

Visit utas.edu.au/support

Exploring Tasmania
No matter where you study in Tasmania, you’ll have easy access to incredible World Heritage areas. You can explore our vibrant cities, which are small enough to feel comfortable in, but big enough to always have something new to discover – whether it’s a restaurant, boutique store, or art festival.

Explore more utas.edu.au/experience-tasmania

Uni sport
Interested in joining a local sports club? Whether you want a new experience, or to pursue sport at its highest level, our clubs provide first-class equipment and facilities for athletes at any level.

Visit utas.edu.au/sport
Explore our campuses

Tasmania is a very special place. Studying here, you can immerse yourself in a vibrant city lifestyle with World Heritage areas right on your doorstep.

Our campuses make the most of each region’s strengths, which means your learning is informed by the place you live. We’re also building exciting new campuses and spaces to connect you with industry and community.

Learn more at utas.edu.au/campuses

Hobart

Hobart is a perfect slice of urban living on the edge of pristine World Heritage areas. Study in the heart of the city, on the harbour, or by the beach.

Our beachside Sandy Bay campus is located 10 to 15 minutes south of the city centre.

Located on Hobart’s waterfront, our Institute for Marine and Antarctic Studies (IMAS) combines strengths in Marine and Antarctic science in one precinct, offering opportunities for collaborative research of local, national and international significance.

The building provides world-class teaching and research facilities for around 300 students and staff.

In the heart of the Hobart CBD, next to the Royal Hobart Hospital, the Medical Science Precinct (MSP) accommodates research facilities for our Menzies Institute for Medical Research and our College of Health and Medicine. Our Hobart campuses also include the Hedberg building. This cutting-edge facility provides a learning space for music and creative arts students unlike anywhere else in the country.

Our vibrant creative precinct brings together artists across Hunter Street and Salamanca. Here, you can study Fine Arts, Design, Media, Music, and Theatre and Performance.

Hobart students can also access our free student bus, UniHopper, to travel between our inner-city locations and facilities.

In the coming years, we’re planning an exciting move to Hobart City. This will be a vibrant, contemporary learning space that blends university and city living.

Providing a great education to as many people as possible is at the heart of everything we do. Our future Hobart City campus will create more access and new opportunities for generations to come.
Cradle Coast

Our brand-new Cradle Coast campus offers modern, world-class facilities on Burnie's spectacular waterfront – where little penguins are regular visitors, and whales have been spotted from our classrooms.

Here, you'll become part of a vibrant community while being immersed in flexible, hands-on learning experiences unique to the North West. You'll be studying within walking distance of the beach, CBD, and modern student accommodation. Our renowned learning centres in this region include the Tasmanian Institute of Agriculture, Rural Clinical School, and Makers Technology and Innovation Hub.

Cradle Coast will be your gateway to temperate rainforests, World Heritage area walks, tasting trails, the arts, and deep cultural experiences. All against the backdrop of one of the most beautiful stretches of coastline in the world.

Sydney

Our Sydney campus offers Nursing, Paramedic and Health Management education. Our close partnerships with a range of NSW Local Health Districts, St Vincent’s Hospital, NSW Ambulance, and other private healthcare providers give you a range of valuable hands-on work placement opportunities.

Launceston

Tasmania’s second-largest city, Launceston, offers you easy access to creative, sporting, and outdoor experiences. Our revitalised Inveresk campus, with cutting-edge and purpose built facilities in the heart of Launceston, is now complete. Our three new buildings are now open, in addition to the Community Food Garden, Esk Activity Space, and University Square.

The Inveresk campus is conveniently located near the inner city, alongside the Queen Victoria Museum and Art Gallery. It’s home to our Architecture, Fine Arts, Design, and Theatre and Performance programs, as well as our Academy Gallery and the Inveresk Apartments. You can study Education, Humanities and Social Sciences, Law, and Business units in our beautiful new River’s Edge building. And if you’re interested in sport, health, or sciences, you’ll join a like-minded community and have real-life learning opportunities.

The $300m Inveresk campus redevelopment features nursing simulation labs, as well as allied health clinics in a shared precinct that includes the city’s biggest sports stadium.

Our spacious campus overlooks the stunning kanamaluka/Tamar River. Home to the Australian Maritime College, our Newnham campus will continue to offer world leading maritime simulation and teaching facilities, with headquarters for the Tasmanian Institute of Agriculture.

Launceston

Living on campus

Join one of our vibrant Residential Colleges by living near or on campus. You’ll make friends and share an amazing lifestyle.

Our Residential Colleges have accommodation to suit every student’s needs, from self-contained apartments to single rooms with shared kitchen facilities. We also offer plenty of financial support to keep your rental costs affordable. This gives you access to a community designed to support your academic, social, and wellbeing needs – all on a student’s budget.

Find your home on campus

Hytten Hall, which incorporates Hobart Apartments, is our College in the Hobart CBD. A mix of self-contained studios and shared apartments, they’re a short walk to our city campuses.

Christ College and St John Fisher College, which incorporate University Apartments, are located in Sandy Bay. They offer single rooms with shared facilities and six-bedroom flats.

Jane Franklin Hall is a fully-catered Residential College that is affiliated with the University of Tasmania, but is operated independently. If you would like to live at Jane you will need to contact them directly to make an application.

Our West Park Apartments are steps away from our Cradle Coast campus in Burnie. These apartments are self-contained with their own kitchen, bathroom and study space. The Apartments are a short walk from the UniGym and the Burnie CBD, and the Rural Clinical School is a 6 minute drive away.

Investigator Hall, which incorporates the Newnham Apartments, offers single rooms with shared facilities and self-contained studio apartments. Investigator is located on the spacious 50-hectare Newnham campus, right next door to the Australian Maritime College overlooking the stunning kanamaluka/Tamar River.

Inveresk Apartments, is located near the inner city on the Inveresk campus and offers self-contained studio apartments alongside the Queen Victoria Museum and Art Gallery.

Jump into uni life

Living on campus in one of our Residential Colleges is a great compliment to your academic success. Our Colleges offer events and programs ranging from intercollegiate sports competitions, formal and ceremonial dinners, arts and music competitions, social events and various academic supports.

Our Student Clubs create opportunities for you to make new friends, be supported by your peers and get involved in college and campus life.

Our Colleges are led by a team of Principals, Deans of Students and Residential Communities Officers who will help you settle in and make sure you are traveling well across your time at the University.

Joining one of our Colleges is to become a member of a proud tradition that reaches all the way back to the founding of the University.

How to apply

Applying to one of our Residential Colleges is easy and can be done online. To get started, head to utas.edu.au/accommodation and create an account.

Cost and scholarship opportunities

Moving can be expensive, but we’re here to make it easier and more affordable. Relocation bursaries may be available, depending on your individual circumstances. These help to cover the costs associated with moving.

Learn more about scholarships on page 14.
Don't let costs get in your way

Our scholarships and financial support

University is a life-changing experience that should be open to everyone. We won't let anything get in your way.

Easy access to scholarships

We have hundreds of scholarships across all areas of study. They can provide you with financial support, help with moving from home, or recognition for your achievements.

Best of all, scholarships give you peace of mind and let you to make the most of your time studying.

[utas.edu.au/scholarships]

Pay for uni later with a HELP loan

Many of the things we buy in life, like cars and houses, are paid off gradually. Paying for a degree is no different. As an Australian student, you can study with a HELP loan. This means that the Government pays for your education and you don’t need to pay it back until you’re earning a good salary.

Learn more at [utas.edu.au/hecs-help]

How our scholarships can help*

How Support to Study helped Greg

Growing up on the North West Coast, Greg always wanted to be a marine biologist. But the cost of relocating and accommodation was a barrier to that dream.

After securing the Support to Study Scholarship Package, Greg could afford to relocate to Hobart, and received accommodation support. He’s now studying an undergraduate degree at the Institute for Marine and Antarctic Studies.

For Greg, the Support to Study package made a massive difference to his academic success. Without financial pressure, he can now focus on and excel in his learning.

The best part is that this package helps students who have the potential to succeed at uni. You don’t need to have a high ATAR or have participated in higher education before.

[utas.edu.au/support-to-study]

How a Thomas Crawford scholarship rewarded Daisy

High-achieving Daisy lived interstate and wanted to study an undergraduate double degree with us. To help fund her studies, she applied for the Thomas Crawford University of Tasmania Scholarship.

Based upon her excellent results in Years 11 and 12, and financial need, she has been awarded $5,000 per year to study for the duration of her course.

This scholarship helped Daisy move to Tasmania and get ready for study. She appreciated the recognition for her academic efforts in high school, but also the acknowledgment that she needed some ongoing financial support towards university living and study expenses.

Daisy is now in her second year of study, and is loving the course and student lifestyle here.

Get the support you need

Whether you need academic help, career guidance, or just someone to talk to, we’re here. These are some of the ways we support you as a student.

Get help with your studies
As a student, you’ll have access to all kinds of resources. These include:

College Student Advisers
Our College Student Advisers can help you with course and enrolment advice, adjusting to university life, time management skills, and personal issues affecting your studies. They offer appointments in person, by phone, or online via Zoom.

Learning Advisers
Our Learning Advisers offer individualised appointments which focus on developing your academic skills and building a personalised strategy to help you study. Our highly qualified Learning Advisers can also provide English language support, helping you to build your essential language, communication, and academic skills.

Peer Assisted Study Sessions (PASS)
These timetabled study sessions are led by student mentors and can help you improve your grades.

Learning workshops and webinars
Join live and pre-recorded sessions across a range of topics.

24 Hour Study Support
Our service allows you to access study support in real time. You can submit your assignment for feedback and talk to a subject expert when you need it the most.

utas.edu.au/study-support

Health and wellbeing support
We offer a range of student health and wellbeing services. These include:

Counselling
Studying with us gives you free access to confidential and professional counselling. Counsellors can help you achieve your best by building a deeper understanding of yourself and the things that are getting in your way. They can also support you to implement strategies to succeed. Plus, you can access wellbeing sessions and information to help you get the most out of your time with us.

For more information on support and wellbeing, please visit utas.edu.au/counselling-support

Accessibility support
We provide practical assistance and support for any student with a disability and/or health condition (including mental health). Together, we’ll ensure that you meet your learning needs.

utas.edu.au/support
A safe and diverse culture
We’re committed to creating a culture that’s safe, promotes equality and values diversity. Respecting and maintaining the rights and dignity of our staff and students is our highest priority.
utas.edu.au/diversity

Safe and Fair Community Unit
The Safe and Fair Community Unit is a university-wide service providing information, support and advice to keep everyone safe and well.
utas.edu.au/safe

Religious support
We welcome people of all faiths and spiritualities. We have a diversity of faiths within the community, with pastoral carers based at both the Hobart and Launceston campuses.

The University can help connect you to local religious and cultural groups and organisations.

There are also prayer rooms on the Sandy Bay and Newnham campuses for Muslim students and staff.

LGBTIQA+ support
We are working towards creating an inclusive University where all of us, no matter how we identify, feel valued, respected, and safe. We have a range of supports available for LGBTIQA+ students.
utas.edu.au/counselling-support

Childcare and parenting facilities
We support students who are also parents through our range of services and facilities available at our campuses.
utas.edu.au/campuses

Career guidance and support
You’ll be supported throughout your whole journey from study to work. We’ll help you find jobs while you’re studying and connect you with future employers. We also offer a range of leadership, work-integrated learning, and professional placement experiences. These include programs with businesses and industry that help you gain valuable skills and experience as you study.
utas.edu.au/study-support

Leadership and volunteering
We can help you develop your leadership skills and make unique connections. You can volunteer, become a student representative, or gain experience through a student leadership role.
utas.edu.au/leadership-and-volunteering

Support for Aboriginal and Torres Strait Islander students

Riawunna provides a welcoming space and assists with academic and cultural support for Aboriginal and Torres Strait Islander students.

**Aboriginal Student Advisers**
Riawunna Aboriginal Student Advisers work to ensure a positive experience for Aboriginal and Torres Strait Islander students at every stage of their University journey.

The range of support that we offer includes tutorial support, assistance when applying for scholarships, making referrals, and cultural and social supports.

**Riawunna Tutoring Program**
Riawunna Tutoring Program supports Aboriginal and Torres Strait Islander students with academic supports and guidance while studying. You’ll be matched with a tutor who can assist you with your relevant study needs.

**Murina Pathway Program**
Riawunna’s Murina Program is a supportive program that provides Aboriginal and Torres Strait Islander students a pathway designed to build academic skills and confidence within an Aboriginal framework, and offers units covering culture, history, storytelling, and study skills, as well as on-Country experiences.

**Riawunna Community Program**
Riawunna’s Community Program hosts a range of cultural activities and events with the University and Aboriginal community to strengthen the connections of people, place, and culture — this includes hosting activities and events both on campus and/or on-Country.

**Facilities**
The Riawunna Centre for Aboriginal Education provides a culturally safe space to relax, connect, and learn. We provide facilities that include a community room, study spaces, and a place for ceremony, which includes a fire pit and cultural garden. The Riawunna team warmly invites Aboriginal and Torres Strait Islander students and community to our campus sites at Inveresk, Sandy Bay, and Cradle Coast.

Learning abroad

For many students, university and travel go hand in hand. Get in touch with the Learning Abroad team today to learn about our exciting range of global programs.

With an overseas exchange program, you can enjoy the best of both worlds. You get to soak up the pristine nature and unique lifestyle of Tasmania while immersing yourself in some of the world's most vibrant and exciting cities.

Our exchange program allows you to spend up to one year of your degree studying overseas at one of our 140 global exchange partners throughout Europe, North America, and Asia.

Tuition fees at the host university are waived, and all studies undertaken are recognised as part of your degree.

A range of scholarships and other financial assistance are available to help cover in country costs, such as flights and accommodation. Plus, our team of dedicated staff will be there to support you every step of the way.

Looking for a shorter experience? Alongside the UniGo program (page 19), there are also a range of summer and winter programs that run anywhere from two to six weeks. You could spend a snow season in France, attend a rock concert in the USA, or do a virtual Hong Kong internship.

Find out where your degree can take you. utas.edu.au/outbound

With an overseas exchange program, you can enjoy the best of both worlds.
Extra learning opportunities

At the University of Tasmania, we like to reward hard work and passion. That’s why we offer a range of exciting programs for high-achieving students, as well as anyone who wants to get a taste of uni while they’re still in school.

These add unforgettable experiences to your time studying with us – even when you’re still in year 11 and 12.

**Study with us in year 11 and 12**

Through our University Connections Program (UCP), you can study units with us while you’re in school. This program offers a great introduction to university and the units have no HECS fees.

Some units can even contribute to your TCE and be included in your ATAR. They can also provide credit towards your future course.

Learn more at [utas.edu.au/ucp](utas.edu.au/ucp)

Our High Achiever Program (HAP) is another great way to get a head start on university. You get to experience what it’s like to study with us, while completing units that can be counted towards your future course. These units will also contribute towards your TCE and can be included in your ATAR.

HAP opens up special courses, discounted fees, scholarships and more. You’ll also get to make the most of our incredible facilities, teaching staff and support services. The units you study under the program have no HECS fees.

Learn more at [utas.edu.au/hap](utas.edu.au/hap)

**Add to your uni experience**

Want to combine your degree with overseas trips, summer research programs, scholarships, and special events? Our Catalyst Program offers high-achieving students all this and more.

To check whether a course has a Catalyst Program, look for this symbol throughout the guide.

Learn more at [utas.edu.au/catalyst](utas.edu.au/catalyst)

**Study honours to set you apart from other graduates**

Add an extra year to your degree to boost your skills in research, project planning, and critical thinking. These highly valued skills and deepened knowledge open the door to diverse career paths and success. Honours is also the best pathway into further postgraduate research studies in master’s or doctorate courses.

Learn more at [utas.edu.au/study](utas.edu.au/study)

**UniGO**

UniGO is a learning abroad opportunity where you’ll explore the connections between place, culture, technology and sustainability, travelling for up to three weeks over your summer break. UniGO students will travel to Indonesia, Malaysia or Vietnam. Finances should not be barrier to participation in UniGO. We pay for your international flights, accommodation, visas, insurance, internal transport, and meals. Depending on your circumstances, you may also be eligible for financial support.

For further information visit [utas.edu.au/unigo](utas.edu.au/unigo)
Our Schools Recommendation Program

We have a place for you at the University of Tasmania.

Together with your schools, we’ve introduced a program to help year 12 students get ahead. This allows you to apply early for our range of exciting, diverse courses. It also means that you’ll receive your offers much earlier in the year.

We will provide you with high quality learning experiences that prepare you for a successful career.

Australian year 12 students can apply for up to five courses at the end of June. Rather than an ATAR, your application is based on your school’s recommendation. This can factor in your year 11 results, as well as other considerations.

Here’s how it works:

• Use this guide to find the course that interests you
• Submit your application from 27 June
• After mid-year assessments, your school will complete the recommendation and give us your year 11 results
• You’ll receive an offer once the recommendation is received from your school
• You can enrol in your units in mid-December

Courses in Medical Radiation, Paramedicine, and the Bachelor of Medical Science and Doctor of Medicine work differently. Entry to these courses is very competitive, so an early offer is not available. We still encourage you to apply as part of your Schools Recommendation Program application.

You’ll be assessed for these preferences once your ATAR is released, rather than through the Schools Recommendation Program. However, you may still receive early offers to other preferences you have included.

Bachelor of Medical Science and Doctor of Medicine: utas.edu.au/courses/h3x
Bachelor of Paramedicine: utas.edu.au/courses/53x
Bachelor of Health Science (Medical Radiation Science): utas.edu.au/courses/53i

If you don’t receive an offer for your dream course through the program, don’t worry. You’ll be re-assessed for your preferences after your ATAR is released.

If you don’t receive an offer through the program or your ATAR, we also offer pathway programs. These include the Diploma of University Studies, which gets you ready to complete your chosen bachelor’s degree.

University is an exciting journey and we’re here to help you every step of the way.

KEY DATES FOR YEAR 12 STUDENTS

Get your applications in by 29 July to be eligible for a first round offer.

Applications open
27 June
Round 1 applications close

Pathways to your future

University is for everyone, but we all take different paths to get there. Our programs will give you the experience, skills, and confidence to take the next step.

Making uni accessible to everyone

Studying at university should always be an option, no matter your background. Our pathway programs are here to support each and every student journey.

We offer a range of courses, as well as short foundation programs. They’re designed to give you access to undergraduate courses by equipping you with the skills and knowledge you need to succeed.

These programs are available at our Cradle Coast, Hobart, Launceston, and Rozelle campuses. Many of our courses are also available online. From school leavers to career changers, there is something for everyone.

University Preparation Program

The University Preparation Program is a free general academic skills-based course. It's designed to develop and consolidate your skills to undertake further study options. We'll help you adjust to life as a university student so that you feel comfortable with both on campus and online learning options.

What you'll learn:

• Understand yourself as a university learner through a strength-based approach
• Key skills such as essay writing, referencing, group work and presentations
• Build your numeracy and science skills
• Experience university life and culture

Open to everyone 17 and over, the University Preparation Program provides an alternative entry pathway into university. By successfully completing this course, you'll meet the General Entry Requirements (GER) for further study at the University of Tasmania.

Diploma of University Studies

If there's a degree you'd love to do, but need some assistance preparing for it, the Diploma of University Studies is for you. We can also help if you didn't receive the ATAR you had hoped for, or it's been a while since you last studied.

You can choose from pathways that match the degree you’re thinking of studying. These include Arts, Business, Education, Engineering, Health Science, Nursing Foundation Studies, Paramedicine, Psychology, Science, and Social Work.

You'll learn important skills that will help you at uni. As you'll also be studying first-year units in your pathway of choice, the Diploma of University Studies provides credit into your bachelor's degree. This means you can study in your area of interest straight away.

Pathways for Aboriginal and Torres Strait Islander students

Riawunna’s Murina Program is a supportive program that provides Aboriginal and Torres Strait Islander students a pathway designed to build academic skills and confidence within an Aboriginal framework, and offers units covering culture, history, storytelling, and study skills, as well as on-Country experiences.

The Murina Program is offered on the Sandy Bay, Inveresk, and Cradle Coast campuses via online, face-to-face classes, and on-Country experiences.

The language of university

For new students, it might seem like university has its own language. But don’t worry. It’s easy to translate.

**Bachelor’s degree**

*Three to five years*

A qualification awarded after completing an undergraduate course between three to five years (full-time), e.g. Bachelor of Science or Bachelor of Fine Arts. There are accelerated versions of some courses that allow you to graduate with a bachelor’s degree in two years.

**Associate degree**

*Two years*

Shorter than a bachelor’s degree (typically two years of full-time study or part-time equivalent). They can be a more industry-focused option or lead to further study.

**Diploma**

*One year*

One-year qualifications (full-time study or part-time equivalent) that are developed to be flexible and easily accessible. They can also lead to further learning at university.

**Course**

A program of study that leads to an award, e.g. the Bachelor of Education course. Courses are made up of individual units.

**Unit**

This is another word for subject. Within a unit, there are lectures, seminars, tutorials, and sometimes practicals, that cover a particular topic.

**Major**

The main focus of your degree. When you enrol, you’ll choose an area that interests you, and then study a group of units related to that area.

Many degrees allow you to complete a second major as an elective, either from your course or other courses across the university.

**Discipline**

A field of related studies, e.g. the disciplines of Physics, Mathematics, or History.

**College**

An academic body that runs a group of courses. For example, the College of Health and Medicine oversees all the courses relating to health and medicine.

**Full-time study load**

When studying your degree, a full-time study load is typically eight standard units in semesters one and two of a calendar year.

**Semester and Trimester**

These are formal university teaching periods. There are two main semesters, each comprising 13 weeks of teaching. In accelerated courses, there are three main trimesters each comprising 12 weeks of teaching.

**Undergraduate study**

Study undertaken to gain a diploma, associate degree, or bachelor’s degree.

**On-time applications**

This is the date that applications for study close. If you apply later than this date, you may not get a place in your course.

▲ Students enjoying the facilities at the Medical Science Precinct, Hobart.
Getting started at uni

Our team is here to take all the stress out of starting uni. We’ve designed a range of programs to make your transition smooth, including orientation, study groups, workshops, and fun social events.

**Enrolment sessions**
Attending an enrolment session is a great way to prepare for university. These help you with the administrative parts of studying, including enrolling in units, choosing your timetable, understanding fees, and learning about the online systems you’ll use.

**UniStart**
UniStart is an online program that helps you develop the skills to succeed at university. These skills include critical thinking, research, and assignment-writing. We’ll also teach you to get more out of lectures, tutorials, and online learning.

**Student Advice**
We have Student Advisers who specialise in a range of different areas to help you get started, including course specific student advice, learning advice, accessibility specialists, and Aboriginal and Torres Strait Islander Advisers.

**Orientation**
Orientation is an important part of your uni journey. You’ll connect with other students, explore your new learning environments, and learn about all the support services available to you.

Before semester starts, you can take part in a variety of events, activities, and information sessions to get started. Learn more at [utas.edu.au/starting-uni](utas.edu.au/starting-uni)

* Students at the Inveresk campus library, Launceston.
Choosing your course

Create your own study experience

University is about more than gaining the skills for a job. It should be a once-in-a-lifetime experience that changes the way you see the world. Our exciting, diverse courses allow you to embark on a journey as unique as you are.

More choice than ever

At the University of Tasmania, we give you the freedom to study your degree, your way.

We now offer more choice in your course content than ever before. You can choose to study a broad range of topics or focus on just a few. Either way, you’ll graduate with a deeper knowledge and skill base that will see you thrive in your chosen career.

Unlike other universities, we don’t have mandatory ‘breadth’ units. This means you’ll only learn about the things you’re really passionate about.

Accredited degrees

Some of our courses are subject to professional accreditation. This means that an external, professional body assesses the content and quality of the course to ensure it meets their standards. Students completing an accredited course may meet the academic requirements for membership of the professional body.

For full accreditation info, visit the online course page.

Combine your interests with a double degree

Our double degrees allow you to deepen your knowledge within two separate study areas. That means you can pursue your career and follow your passion at the same time. And when you graduate, you’ll have a set of skills that will really set you apart.

Use this guide to find out if your course is double degree compatible. Look for the 📖 symbol.

If you can’t find your double degree, please contact us and together we’ll explore the possibilities or find some alternative options.

Learn more at utas.edu.au/double-degrees

Become career-ready

Studying with us, you’ll gain real-world experience in your chosen industry. When the time comes to embark on your career, this gives you the competitive edge. In fact, more of our graduates enter the workforce with full-time roles and higher salaries.

Our students achieve career outcomes above the national average.

81.5% find full-time employment within four months of graduating.  
National average 79.1%

88.4% are employed within four months of graduating.  
National average 88.6%

$78,300 median full-time salary within four months of graduating.  
National average $68,000

Source: 2022 Graduate Outcomes Survey, domestic undergraduate students

More reasons to study a double degree

- Get more out of your time at uni.
- Maximise your employability.
- Build your own unique set of skills.
- Study for your career and yourself.
How to apply

1. Find a course
You can apply for up to five courses at once. Unlike other states, there is no charge to apply as a domestic student to the University of Tasmania.
View our courses online utas.edu.au/courses
If you are a year 12 student you can apply for the Schools Recommendation Program. For more information please visit utas.edu.au/srp

2. Keep your options open
Once you’ve selected the course you most want to study, don’t forget that you can increase your chances of success by applying to other degrees that interest you.
In fact, you can select up to five preferences. If you’re applying for a course but unsure if you’ll be successful, please contact our student advisers on 13 8827 (13 UTAS) or by emailing us at course.info@utas.edu.au

3. Check the dates
Before you apply, it’s important that you check the key admission dates. These will tell you when applications open, when semesters begin, and more.
Visit utas.edu.au/application-dates

4. Make sure you meet the entry requirements
To be considered for entry into our courses, you need to meet specific requirements. You can check the entry requirements tab on your course page at utas.edu.au/courses for more details.
You also need to either have completed Australian Year 12 (or equivalent), or be aged 17 or older and be applying on the basis of your previous study or work experience.
For most of our courses, entry is based on your ATAR score or your rank, which is calculated based on your qualifications and experience. If you’re unsure whether you meet the entry requirements, or if you are uncertain about your ATAR or rank, please contact course.info@utas.edu.au

5. Apply for a scholarship
You don’t need to be academically gifted to receive financial support for your study. We offer one of the most extensive ranges of scholarships in Australia, and we encourage everyone to apply.
Visit utas.edu.au/scholarships

6. Check if you’re eligible for recognition for prior learning
You may be able to have your past studies or work experience count as credit towards your course. That means you won’t have to complete all of the units listed in your course structure and you may be able to graduate sooner.
You need to apply separately for credit for prior learning (advanced standing), so make sure you check the application requirements and closing dates.
Learn more at utas.edu.au/rpl

7. Accept your offer
Once your application has been assessed, we’ll notify you as to whether or not you’ve been accepted. If you are accepted, simply follow the instructions in the offer letter to secure your place at university.
If you don’t receive an offer, you can contact our friendly team at course.info@utas.edu.au or 13 8827 (13 UTAS) for advice on alternative options for study.
