

Australasian Bryological Newsletter Number 31 December 1994
Reference List Number 15

Thanks to Bob Coveny (Royal Botanic Gardens, Sydney) who has been largely responsible for providing the following references that have been published since List Number 14. If there are any references or theses which have been overlooked in compiling this list, then please forward such information to the editor for inclusion in the next reference list.

Adamson, E., Adamson, H. and Seppelt, R. 1994. Cement dust contamination of *Ceratodon purpureus* at Casey, East Antarctica : damage and capacity for recovery. *J. Bryol.* 18(1): 127-137.
