Executive Summary

These Guidelines are provided to assist academic staff and students, across all undergraduate and postgraduate units and programs of the School of Health Sciences (SHS), to:

- comply with University Assessment Policy provisions;
- adhere to University Rule 6 Admission, Assessment and Student Progress Rule; and
- meet course accreditation requirements of professional accrediting bodies

These Guidelines also identify assessment practices that are peculiar to SHS, including where:

- assessment strategies focus on consistent skill and knowledge development across theory and practice (including professional experience placement);
- professional experience placement (PEP) units of study contain compulsory pre-placement assessment requirements; and
- mandatory reporting, relating to the regulatory requirements of professional bodies, occurs.

More Information

For further information, contact the School of Health Sciences Associate Head (Learning and Teaching).

Compliance

These Guidelines comply with all University of Tasmania Assessment Policy provisions:

- **Promote Student Learning**
- **Measurement of Student Achievement**
- **Fair, Transparent and Equitable Assessment**

These Guidelines adhere to Rule 6 Admission, Assessment and Student Progress Part 5 - Assessment

The assessment in professional courses and units is designed, in accordance with UTAS Assessment Procedure, through learning outcomes derived from one of the following:

1. The accreditation standards of the professional bodies of *exercise science and exercise physiology, or laboratory medicine*
2. The competency standards and knowledge requirements of the professional bodies to which *other postgraduate* SHS programs are related.
Assessment Responsibilities

1. The College of Health and Medicine Learning and Teaching Committee, and SHS Learning and Teaching Committee and Head of School have the responsibility to:
   • approve assessment requirements, prior to publication in the University Course and Unit Handbook
   • address issues relating to assessment and academic progress
   • alter the form of assessment in consultation with the student affected.

2. The Unit Coordinator has the responsibility to:
   • be familiar with Rule 6 – Admission, Assessment and Student Progress
   • comply with UTAS Assessment Policy http://www.teaching-learning.utas.edu.au/assessment
   • transparently and unambiguously describe all unit assessment requirements in the Unit Outline
   • provide students with an online Unit Outline on MyLO (Learning Management System) by the week prior to each semester of the academic program.

3. The Student has the responsibility to:
   • comply with UTAS Assessment Policy http://www.teaching-learning.utas.edu.au/assessment
   • become familiar with the UTAS Statement on Plagiarism and Academic Integrity
   • become familiar with the Unit Outline and the assessment requirements detailed therein
   • clarify any concerns with the Unit Coordinator early in the semester
   • complete and submit the assessment tasks as listed in the Unit Outline
   • keep a copy of all submitted assessment items for each unit, where possible.

Submission and Return of Assessment Tasks

1. All SHS students should be advised as to the mode of submission of assessment tasks (written, electronic or other) and due date for submission in the Unit Outline.

2. All written assessment tasks should be word-processed, unless otherwise indicated. For electronic submissions the completion of an academic integrity statement may need to be submitted as stated in the specific unit assessment item guidelines.

3. Submitted written work which is below or exceeds the stated word limit by greater than 10% will be penalised as stated in the unit outline.

4. Assessment tasks submitted online will be submitted through MyLO and may be submitted to Turnitin (text-matching program). Breaches of academic integrity (in accordance with Ordinance 9) may be identified through this process.

5. Written assessment tasks must be submitted by the due date and time as specified in the Unit Outline.
1. **Application process**
   In all cases, students requiring a time extension for submission of a **written assignment** must adhere to the following process:
   - Submit an application for extension via the **Assessment Extension Request Folder on the unit MyLO site** using the SHS Assessment Extension Form available on the Unit MyLO site. In all cases, reasons for the request must be clearly stated on the Extension Form with any relevant documentation also uploaded to the Assessment Extension Request Folder (i.e. medical certificate etc). Extensions will be granted at the discretion of the unit coordinator. The Assessment Extension Request Folder can be accessed under Assessments>Assignments on the unit MyLO site.
   - Students may also be required to provide a draft of the assignment.

2. **Required documentation**
   For all requests for extension students must provide supporting documentation. Supporting documentation consists of:
   - Extension due to illness – Requires a Medical Certificate from a registered health practitioner;
   - Extension for personal or family circumstances – Requires documentation relating to the situation (e.g. medical certificate for family member or police accident report).

   In the event that circumstances prevent submission of supporting documents at the time of request, later submission of documentation can be negotiated with the Unit Coordinator.

3. **Penalties for late submission of assignments**
   - Assignments submitted without an approved extension after the due date will have a penalty of 10% of the total marks available applied per working day past the due date, unless otherwise indicated in the unit outline.

**Return of Assessment Tasks**

Assessed tasks will be returned to students within one month from the time of submission unless otherwise specified in the unit outline, or by the unit coordinator on MyLO.

1. Written assignments and in-class tests will be:
   - returned to students during classes, where possible
   - returned to students by SHS Reception for a limited time period when negotiated with Reception staff. Please note that this option should only be adopted if it is not practical to return assignments/tests in class.

   Any assessments which are not collected during classes will be retained in the unit coordinator’s office for distribution to students. Boxes of uncollected assignments/tests will not be left outside staff offices under any circumstances.

2. If it is a major piece of assessment in a unit, the last written assessment task will not be returned to students until the University has released the unit final results.
3. Assessment tasks submitted electronically will be returned as advised in the Unit Outline.

**Assessment in Professional Experience Placement (PEP)**

1. Pre-requisite theory units must be satisfactorily completed by the student for eligibility to commence units containing a PEP component.

2. Units that have a PEP component:
   - can have compulsory pre-placement assessment requirements, which students must pass to be eligible to undertake PEP; and
   - can have practice competency assessment requirements, which students must pass during the professional experience placement.

**Attendance at PEP**

Attendance requirements for PEP, as detailed in the Unit Outline, must be met.

Students who cannot attend PEP must
- notify the placement venue by telephone and the
- Unit Coordinator or nominated staff member as per the unit outline on the day or, if unable due to extenuating circumstances, as soon after as possible

Additional (make up) time in PEP is only available to students in exceptional circumstances and fully at the discretion of the SHS.

**Withdrawal from PEP**

A student may be withdrawn from PEP and/or have their commencement deferred, by the Manager, College Professional Experience Placement Safety in Practice, in consultation with the relevant Unit Coordinator in situations where:

- The student has committed an act of misconduct as defined under University Ordinance 9.
- The student’s behaviour has breached the professional conduct, discipline requirements or other rules of the professional experience placement provider.
- The student is consistently unable, after due guidance and instruction, to perform at the required standard as assessed by supervising university or professional experience facilitators/preceptors.
- The student has contravened professional experience placement rules.
- The student’s performance in practice is below a satisfactory standard in relation to the competency requirements.
- The student’s behaviour is disrupting other students, colleagues or people in the practice setting.
- There is an increased risk of injury or misadventure involving the student or others.

The student must be withdrawn from placement via the College of Health and Medicine Professional Experience Placement Risk Management Procedure. When a student’s placement is deferred and the period of deferral is of such length as to affect academic progress of the student, the Unit Coordinator shall:
- provide notice of the reasons for deferral in writing to the student; and
- advise the student of the requirements for satisfactory completion of the relevant unit.
### Attendance Requirements in Relation to Assessment

Student attendance requirements are set by the SHS, in accordance with University Assessment Procedure, taking into consideration:

- course accreditation professional regulations;
- the amount of time required to develop professional experience placement competency standards; and/or
- the amount of time required for students to participate and interact in learning experiences.

Student attendance/interaction requirements and penalty for failure to meet such requirements are made explicit in all SHS Unit Outlines.

Students not meeting the specified attendance requirements for classes relating to preparation for PEP may be prevented from undertaking a placement.

### Examinations

Examination procedures are implemented by the University Student Centre.

See Rule 6 Admission, Assessment and Student Progress: 5.7 Formal, deferred and supplementary examinations; 5.7 Eligibility for deferred examinations and supplementary assessment and 5.11 Eligibility for alternative assessment arrangements for rules applying to examinations:

### Additional Assessment

1. The Unit Coordinator may recommend an additional assessment task be granted to a student who has failed within the supplementary assessment range, according to Rule 6 Admissions, Assessment and Student Progress 5.10 and 5.11.

2. The decision whether to grant additional assessment is made by the Unit Coordinator in consultation with the Associate Head, Learning and Teaching at the related end of each semester academic progress meeting.

3. Students who are granted additional assessment will be offered resubmission or supplementary work for the Unit.

### Assessment Results

1. Assessment results are graded in accordance with Rule 6 – Admission, Assessment and Student Progress: 5.5 Grades of pass.
2. Course committees, chaired by course coordinators will review results prior to submission of results by unit coordinators to the Manager, Support Team _Academic Administration, SHS who will submit the results to the central UTAS Examinations office in the University Student Centre.

3. The SHS Assessment Committee chaired by the Associate Head, Learning and Teaching is responsible for recommending final results as stated in Rule 6 Admissions, Assessment and Student Progress 5.8 Academic Unit level Assessment Committees.

4. The College of Health and Medicine Assessment Committee, chaired by the Associate Dean (Learning and Teaching) is responsible for the ratification of results in the SHS, as stated in Rule 6 Admissions, Assessment and Student Progress 5.9 College level Assessment Committees.

5. SHS staff will not divulge numerical or graded final results in any unit before the results have been ratified and officially released.

6. The University’s **Student Centre** officially releases the Final Results to students.

**During Semester Review of Mark**

A student who is concerned about a mark given for a particular assessment task (excluding PEP) during semester must in the first instance clarify the mark with the Unit Coordinator. The unit coordinator may then arrange for a review of the assessment and provide the results of this review to the student.

The student must submit the original work that was assessed for the review of mark.

**Final Assessment Outcomes and Academic Progress**

The SHS applies the following Rule 6 – Admission, Assessment and Student Progress rules for students’ assessment outcomes and academic progress:

- 5.12 Review of Final Result
- 6.1 Academic Progress Review
- 6.2 Admission or re-admission to a course after exclusion from a course

**Course Completion**

Completion is determined by a **Pass** grade for all required units outlined in the **Course and unit handbook for the course** in which the student is enrolled.

Course completion is governed by Rule 6 Admissions, Assessment and Student Progress:
- 7.1 Requirements and publication
- 7.2 Maximum time for completion
- 7.3 Eligibility for award
- 7.4 Posthumous award
- 7.5 Graduation
7.6 Revocation of awards
7.7 Transcript of academic record
Mandatory Reporting

The University has responsibility in relation to the “mandatory reporting” of students who have a medical, physical or psychological impairment or criminal record that may place the public at risk of harm, as detailed in the National Health Law Act 2009. Under this legislation, any academic school staff person who is also a health professional who is of the opinion that a student may place the public at risk of harm, as defined under the legislation, is obliged to submit a written report to the relevant registration board setting out their reasons for that opinion, and any other information required by the regulations.

SHS requires any staff member, including community persons employed by the school (e.g. professional experience facilitators), who has concern about a student’s capacity to safely meet the regulatory requirements, to make a confidential report to the Head of School. The Head of School will investigate the concern and determine whether to implement the SHS College of Health and Medicine Safety in Practice Student Compliance Procedure.
