## Students network with industry leaders at careers expo

Students at the University of Tasmania's Australian Maritime College will have the opportunity to network with industry leaders and investigate their future career options at the 2018 AMC Careers Expo.

Prominent Defence and maritime organisations will attend the two-day event, which features presentations on industry graduate programs, workshops on resume writing and interview skills, and the careers expo.

The exhibitors are BAE Systems, Defence Force Recruiting, Department of Defence, The PFG Group Pty Ltd, Wallbridge Gilbert and Aztech, Fincantieri, Subsea 7, Shell/Trident LNG Shipping, BMT Design and Technology, ANL Container Line and Woodside Energy.

AMC Interim Principal, Professor Nataliya Nikolova said that the Careers Expo successfully connects industry partners with future graduates, whose career-relevant courses make them in demand world-wide.

"The AMC Careers Expo is an excellent forum for our students to learn about the range of careers that await them in the maritime field, and for industry representatives to promote their organisations and identify new talent," Professor Nikolova said.

"The qualifications we offer — across the disciplines of coastal and ocean seafaring, maritime engineering, and maritime business and international logistics — correlate closely with global demand, leading to excellent outcomes for our graduates."

**MEDIA OPPORTUNITY:** The AMC Careers Expo, Swanson Building, room G53 between **12pm - 1pm on Friday, 16 March** (Building A18, AV29 on the campus map). Students and industry exhibitors will be available for interview and photo/filming opportunities at that time.
