Expedition Medicine Courses

These eight day intensive and practical residential courses are now being offered by the University of Tasmania in partnership with the Australian Antarctic Division as stand-alone courses or as an elective unit in the new Graduate Certificate in Healthcare in Remote and Extreme Environments.

**DATES**
- 27th July - 3rd August 2019 (Winter)
- 7th - 14th December 2019 (Summer)

**WHERE**
- University of Tasmania, Medical Science Precinct
  - 17 Liverpool Street, Hobart
  - Arm River, Tasmania (Winter)
  - Maria Island, Tasmania (Summer)

**COST**
- Health professionals: $3,750 (GST inclusive)
- Non-health professionals: $2,500 (GST inclusive)*
- Students undertaking the Graduate Certificate in Healthcare in Remote and Extreme Environments: $3,180# (GST inclusive)

Both courses provide both theoretical and practical coverage of the following topics:
- Pre-expedition planning and medical kits
- Wilderness emergency medical response
- Environmental medicine (cold injury, high altitude medicine and avalanche burial and rescue)
- Search and rescue
- Steep terrain rescue
- Use of stretchers and splints
- Leadership and teamwork
- Remote area communications
- Navigation

# Students undertaking the Graduate Certificate in Healthcare in Remote and Extreme Environments (M5A) are required to complete this residential short course before they can undertake the assessment for CAM631 Expedition Medicine. The assessment must be completed within 12 months of undertaking the short course.

ACRRM and RACGP (category one) QI&CPD Points will be offered.

This workshop has been approved for a **three day procedural skills training grant** of $2000 per day. These grants are offered by the Australian Government for rural and remote GPs to maintain their skills. For more details please contact Australian College of Rural and Remote Medicine (ACRRM) or the Royal Australian College of General Practitioners (RACGP).
