

School of Medicine Short Course Program Expedition Medicine Courses

These eight day intensive and practical residential courses are now being offered by the University of Tasmania in partnership with the Australian Antarctic Division as stand-alone courses or as an elective unit in the new Graduate Certificate in Healthcare in Remote and Extreme Environments.

DATES	25th July - 1st August 2020
	28th November - 5th December 2020
	5th December - 12th December 2020
WHERE	University of Tasmania, Medical Science Precinct
	17 Liverpool Street, Hobart
	Arm River, Tasmania (July/August course)
	Maria Island, Tasmania (November/December courses)
COST	Health professionals: \$3,900 (GST inclusive)
	Non-health professionals: \$2,600 (GST inclusive)*
	Students undertaking the Graduate Certificate in Healthcare in Remote and Extreme Environments: \$3,291# (GST inclusive)

Both courses provide both theoretical and practical coverage of the following topics:

- Pre-expedition planning and medical kits
- Wilderness emergency medical response
- Environmental medicine (cold injury, high altitude medicine and avalanche burial and rescue)
- Search and rescue
- Steep terrain rescue
- Use of stretchers and splints
- Leadership and teamwork
- Remote area communications
- Navigation

Students undertaking the Graduate Certificate in Healthcare in Remote and Extreme Environments (M5A) are required to complete this residential short course before they can undertake the assessment for CAM631 Expedition Medicine. The assessment must be completed within 12 months of undertaking the short course.

Visit our website for further information:
