

# Nutrition

## First Aid certificate requirements

All Bachelor of Nutrition Science students are required to have a current:

- **Apply / Provide First Aid Certificate**

from a Recognised Training Organisation before starting any professional experience placement (PEP).

Commencing students are required to submit evidence of attainment by:

**Census date of the first semester of your course.**

The University of Tasmania is required to comply with Commonwealth and State legislation to ensure the safety of students and clients while on placement.

You are responsible for the **cost** of the Apply / Provide First Aid Certificate course.

You should check that your certificate **remains current** throughout the course and has been **uploaded** to InPlace by the due date. The Apply / Provide First Aid certificate is to be updated every 3 years.

You must also retain and produce the certificate if required by placement agencies and/or the University of Tasmania.

If you do not submit a current Apply / Provide First Aid Certificate via InPlace, by the due date you **will not be eligible to undertake PEP**.

If you have any questions, please contact:
