**Prepare and apply online**

**Step 1**
The first step is to complete an online application for admission directly to the University of Tasmania at utas.edu.au/admissions. Read the University Course Guide to familiarise yourself with the prerequisites for courses that interest you. If you are at school, discuss your application with your school careers counsellor or teachers and seek advice on your application.

**Step 2**
Once you’ve decided on the courses you wish to apply for, search the scholarships website at utas.edu.au/scholarships. You can search for scholarships by study area, College or School, or level of study. Read the eligibility criteria to decide whether you are eligible and think about the information you will need to complete the application.

**Step 3**
You will need to supply details of any work experience, sporting achievements, hobbies and interests. If you are applying for an access scholarship or bursary you will need to include details of your family income.

**Step 4**
Complete the online scholarship application. Only one application is needed. You can apply for as many scholarships as you believe you’re eligible for in the one application. Take your time preparing and completing your scholarship application. The online application can be saved so you can return to it and complete it over a period of time. It is also recommended that you keep a separate word document of your application in case of technology issues. The quality of your application will be taken into consideration, so please pay attention to spelling, punctuation and grammar.

**Step 5**
