## Donor-funded access scholarships and bursaries

Our program supports students who have the potential to succeed with study, although it may not necessarily have translated to a high ATAR, or students who have not yet participated in higher education. A large number of our scholarships take into account circumstances (including distance from campus, difficult life events, and financial barriers) as well as academic capability. Many of these scholarships and bursaries are made available through the generous support of donors to the University of Tasmania. There are scholarships for commencing and current students.

## Access and diversity

### Vice-Chancellor's University of Tasmania Access Scholarships

The Vice-Chancellor provides a number of scholarships for access and diversity. These scholarships are valued between \$5,000 and \$15,000 per year for up to five years of study. Each scholarship will consist of a cash incentive, and a guaranteed place in on-campus accommodation.

### Global Leaders Scholarships

These scholarships are available to commencing students who demonstrate strong leadership qualities and community-based involvement. These scholarships are valued at \$5,000 per year for up to five years of study and includes an optional overseas study experience (valued at \$5,000), and involvement in student leadership activities.

### Relocation bursaries

Moving can be expensive and we want to minimise the stress. That's why we offer relocation bursaries for new domestic students studying selected courses. You could be eligible, even if you already live here and are just moving to a different part of Tasmania. Visit [utas.edu.au/relocation-scholarships](https://utas.edu.au/relocation-scholarships)
