Purpose

This procedure describes how parking areas on University land are administered by the University, including the charging of parking fees, the conditions of permits and the issuing of infringement notices.

Applicable governance instruments

Instrument	Section	Principles
<i>University By-Laws 1993</i>	<i>Part III</i>	
<i>Facilities, Infrastructure and Asset Management Policy</i>	<i>1 - Physical assets management</i>	
<i>Sustainability Policy</i>		

Procedure

1. General Parking Principles

- 1.1. This procedure is established in accordance with, and supports implementation of the University By-Laws 1993, Part III related to the parking of vehicles on University land.
- 1.2. Parking arrangements at the University are developed and operated in a manner consistent with the University’s sustainability goals.
- 1.3. There is a limited number of parking spaces available on most campuses/sites.
- 1.4. An appropriate University permit is required to use most parking spaces.
- 1.5. For the purposes of this Procedure, staff means full-time, part-time and casual staff, honorary staff, and postgraduate students who are paid employees of the University and are required to be on campus full time by virtue of their Australian Postgraduate Award or similar instrument.

- 1.6. The apportionment of parking spaces between staff, students and visitors is based on a premise of equitable access and need. The apportioning is administered by Infrastructure Services & Development (ISD).
- 1.7. University parking areas are indicated by signs, with some also having coloured markers on the ground, to indicate the type of parking permitted. The marker colours are:
 - a. blue – Pay As You Go timed parking;
 - b. white – Staff permit holders;
 - c. green - Student Resident permit holders; and
 - d. red - Student parking.
- 1.8. Staff, student and/or visitor parking may not be provided at all University campuses and sites.
- 1.9. It is the responsibility of the vehicle driver to observe all signs and park accordingly, noting parking areas and conditions may change from time to time.
- 1.10. Parking in University car parks is at the driver's risk.
- 1.11. A summary of the standard parking permits, parking areas and relevant conditions is in Schedule A of this Procedure.

2. Parking fees

- 2.1. Parking fees will generally be aligned with municipal and commercial rates and referenced to independent market price indicators.
- 2.2. Where parking fees apply, the fees for both parking permits and pay-as-you-go parking are periodically reviewed by University Council (a By-law requirement) and in the interim period will generally increase annually in line with the Consumer Price Index (CPI).
- 2.3. Parking fees are charged by the University by way of either:
 - a. Parking permits - current parking permit fees and conditions are listed on the University's Campus Services website at <http://www.utas.edu.au/campus-services/parking/permits>.
 - b. Casual, pay-as-you-go parking. Casual parking fees are displayed on the payment machine or signage at each parking location.
- 2.4. Parking fees are administered by ISD.

3 Parking Permits

- 3.1. The University offers a range of different types of parking and this is supported by a system of parking permits. These include Staff Standard, Executive Staff, Student, and Disability permits.
- 3.2. Permit types, terms and conditions, and information on how to apply for permits are outlined on the Campus Services web page at <http://www.utas.edu.au/campus-services/parking/permits>, and are summarised in Schedule A of this Procedure
- 3.3. The terms and conditions that apply to all permits include the following:
 - a. Permits are valid for the calendar year or for a specified period (such as for the calendar year).
 - b. Only one permit will be issued per person.
 - c. Permits cannot be copied; the original permit must be displayed; copies are not permitted.
 - d. Permit holders are eligible to park in the parking areas signed for their permit type.

- 3.4 Some permits have specific terms and conditions attaching to them, for example:
- a. Conditions allowing the permit to be shared with other persons eligible to hold a permit of that type.
 - b. Permits that guarantee the holder a designated parking space.
 - c. Terms allowing the permit holder to park at multiple University sites.
- 3.5 Parking permit types and conditions are reviewed from time-to-time to take into account transport changes.
- 3.6 In the event of loss or accidental destruction of a printed permit, a Replacement Parking Permit Application form is available at the Campus Services website www.utas.edu.au/campus-services/parking/parking-permits
- 3.7 Permits can be suspended by the holder for a minimum of three months on written request to Campus Services, for reasons of personal, study, parental or other approved leave. Payments will be adjusted in line with the suspension period.
- Digital permits can be cancelled at any time by the permit holder by accessing their parking account in the digital permit system. For permit holders paying by salary sacrifice, payments will cease the following pay period.
- 3.8 Permits will be cancelled upon:
- a. surrender of the permit by the staff member or student to Campus Services;
 - b. following advice that a permit holder has ceased employment or study; and
 - c. abuse of parking permit conditions or parking facilities by the permit holder.
- 3.9 When a permit has been pre-paid in full and is cancelled prior to the full term, a pro-rata refund of the payment will be calculated per month of unused permit time.

4 Infringements

- 4.1 Infringement notices and fines may be issued to car park users who park contrary to the parking By-laws, the terms and conditions of the relevant permit, and other University directives.
- 4.2 Details of the infringement process and how to appeal an infringement are outlined on the Campus Services web page at <https://www.utas.edu.au/campus-services/parking/parking-infringements>.
