18 December 2019

**Notice of early works commencing at Inveresk - January 2020**

The University of Tasmania is planning to commence early works to prepare the foundations for the new Library and Student Services building at Inveresk on 22 January 2020.

This will involve driving piles and construction of pile caps on the site marked 1 on the Inveresk Precinct Plan map (see next page). The commencement of the work is dependent upon the appointed contractor obtaining the required building permit.

To minimise impact upon the surrounding community and scheduled programs around the precinct, work has been scheduled to start immediately after MONA FOMA music and arts festival and before the start of the University’s first semester, as follows:

**Dates:** Wednesday 22 January for a period of 4-6 weeks  
**Days of site activity:** Monday - Friday (excluding public holidays)  
**Working hours:** Between 7am - 5pm

Residents and businesses located near this area will experience noise associated with piling works and other construction activities.

Light and heavy construction vehicles and machinery will access the work area off Invermay Rd via the site access road which runs between Big Picture School and UTAS Stadium.

The existing UTAS/TAFE staff carpark in this area will be unavailable from 21 January 2020, with alternative options available close by.

The University of Tasmania apologises for any inconvenience and thanks the local community for their cooperation during these important works.
