1 Objective

To provide a procedure, relating to the *Work Integrated Learning Policy*, that clearly communicates the expectations, roles and responsibilities of all stakeholders involved in Work Integrated Learning at and with the University of Tasmania.

This procedure should be read in conjunction with the *Work Integrated Learning Policy*.

2 Scope

This procedure applies to Organisational Unit staff, Vocational Education and Training (VET), undergraduate and postgraduate students, industry partners and professional and community organisations involved in Work Integrated Learning as defined in the *Work Integrated Learning Policy*.

This procedure does not apply:

- where an Organisational Unit has existing contractual arrangements which comply with the *Work Integrated Learning Policy* provisions;
- to activities (such as work experience and guest lectures) that fall outside of the Work Integrated Learning definition in the *Work Integrated Learning Policy*; or
- where a student:
 - is placed in paid employment with a work placement provider; or
 - undertakes workplace or community-based activities external to degree, course or unit requirements.

The University does however, encourage the inclusion of such innovative work related teaching and learning activities across the curriculum.

3 Procedure

3.1 Work Integrated Learning Agreements

Existing Relationships Under Established Agreements

Some Organisational Units have long standing relationships with industry and community organisations (Work Placement Providers) providing students with opportunities for Work Integrated Learning. These relationships are often governed by formal agreements (e.g. Memorandums of Understanding) between the University and the Work Placement Providers and are supported by a framework of established contractual arrangements.

This Procedure and the supporting agreement templates are not meant to override existing contractual arrangements, as long as these existing arrangements comply with the *Work Integrated Learning Policy*.

New Contractual Agreements

Organisational Units negotiating new agreements governing Work Integrated Learning arrangements may utilise:

- the template *University and Work Integrated Learning Placement Agreements* to establish agreement between the University and Work Placement Provider(s)
OR
- alternative agreement documentation which complies with the requirements of the *WIL Policy*

and

- the template *Student Placement Agreements* to establish agreement between the University and students OR
- alternative agreement documentation which complies with the requirements of the *WIL Policy*.

Where alternative documentation is used, the Organisational Unit may seek legal advice from the Legal Office.
