The University’s College of Health and Medicine has engaged part-time Whole of Community Facilitators in rural and remote communities across Tasmania.

Our role is to provide local support for you to get the most from your rural placement and to enjoy the opportunity to live and work in our community.

We are here to guide and mentor you while you are on placement and to support you in your learning.

This may include:

- First-hand experience of a rural lifestyle and work environment
- Exposure to a more diverse range of experiences
- Extra support including learning and teaching, social and accommodation support
- Opportunities to connect with other students
- Potential job opportunities – there is a shortage of rural health professionals ... experiencing rural practice and engaging with the community could entice you to work here later on
- An opportunity for so many great experiences and to see and do things that you otherwise might not

ABOUT ME

I graduated as a registered nurse in 2013. Since, I have worked at NESM Hospital, the local GP clinic and the LGH. I have also volunteered internationally. I have a passion for learning and helping others.

I have lived in the local area all my life. I love the Dorset Community and all it has to offer. I enjoy gardening, mountain-bike riding, yoga and keeping active with my dogs.
