1 Objective

The objective of this procedure is to provide non-examination based alternative assessment to ensure equitable assessment practices and processes exist for eligible students with disability/health condition.

2 Scope

This procedure applies to:

- All staff undertaking teaching and/or assessment at the University of Tasmania;
- All students with disability/health condition seeking to apply for non-examination based alternative assessment.

3 Procedure

3.1 Application Process

Submit MAR to Accessibility/Disability Services Interview student, refer to MAR and review existing Learning Access Plan (LAP) Consider eligibility criteria: 1 Student has previously received alternative examination arrangements, identified via the LAP procedure. 2 Student's current MAR clearly indicates the need for nonexamination based alternative assessment. 3 Student has a demonstrable history of disability/health- related extenuating circumstances that has negatively impacted upon their health and academic performance within a timed, supervised examination environment that included alternative adjustments. 4 Student's unit does not require timed, supervised examinations as an inherent requirement of the course, the student is notified that alternative assessment method is not available and is advised to select another course pathway. 5 Student is considered to have engaged with the unit (ie they have previously met all unit requirements in relation to attendance and participation - either face to face or online, together with submission and successful completion of internal assessment tasks as appropriate; considering any adjustments made in their LAP). 6 Student's enrolment load is no greater than 50% in examinable units. 	Review 2 – April 2017
	Review 3 – March 2020

Appendix A - ALTERNATIVE ASSESSMENT ELIGIBILITY REPORT - TEMPLATE

(student's name) (ID no) is unable to undertake timed, supervised examinations because of the impact of their disability/health condition and has subsequently been approved for non-examination based alternative assessment subject to a suitable level of engagement with studies as identified in each Unit Outline. This report, to be viewed in conjunction with the student's current Learning Access Plan, assists academic staff to identify assessment adjustments that meet the disability related needs of the student. TILT staff will assist academics to construct alternative assessment tasks.

	PREVIOUS HISTORY Medical Assessment/s (date/s) – (list of impairments)
	Intervention/s The student has received alternative examination arrangements, identified via the University Learning Access Plan (LAP) procedure.
	(list of previous LAP examination arrangements)
CURI	RENT
	Medical Assessment The student's current medical assessment report clearly indicates the need for non-examination based assessment.
	(list of impairments) Non-examination based assessment recommended.
	Extenuating Circumstances There is a demonstrable history of disability related extenuating circumstances that negatively impacted upon the health and academic performance of the student within a timed, supervised examination environment that included alternative adjustments.
	Review undertaken by (name of Disability Adviser) (date): (list of circumstances)
	Inherent Requirements The student's unit does not require timed, supervised examinations as an inherent requirement of the course.
	Intervention The student's current Learning Access Plan, which includes alternative assessment details, has been approved by the Associate Dean Learning and Teaching
	LAP attached.
	Engagement with Studies The Unit Coordinator is to consider the level of the student's engagement with study prior to the agreed alternative assessment period.
	The student should be deemed to have engaged with the Unit if they have previously met all Unit requirements in relation to attendance and participation, (either face to face or online), together with submission and successful completion of internal assessment tasks as appropriate (considering any adjustments made in their LAP).

Appendix B - ALTERNATIVE ASSESSMENT AGREEMENT - TEMPLATE

This agreement documents the alternative assessment process developed by the Unit Coordinator, in collaboration with a TILT staff member and Disability Adviser, to meet both the inherent requirements of the unit of study and the disability/health condition related needs of (student's name) (ID no).

1 UNIT COORDINATOR

1.1 Academic Requirements

The Unit Coordinator has identified and considered the inherent requirements of this unit in determining the alternative assessment tasks and criteria required to ensure that the process meets academic standards

1.2 Alternative Assessment Process

Method of assignment and assessment criteria: METHOD

(insert)

ASSESSMENT CRITERIA

This task will be assessed according to the following criteria: (insert)

The marks for this assignment represent (insert)% of the overall grade for the unit.

COLLECTION AND SUBMISSION

Date for collection of the assignment from the Unit Coordinator on: (insert)

Date for submission of the assignment, with an assignment cover sheet – *Place in submission box (insert) Office* by: (insert)

2 HEAD OF SCHOOL
