

Pharmacist Professional Indemnity Insurance (PII) is required for pharmacy students and interns.

What is PII?

It is a type of insurance that covers you in your professional practice as a pharmacist. It is a requirement of the Pharmacy Board of Australia (PBA) for pharmacists and interns to have Professional Indemnity Insurance (PII). Students and interns are advised to get cover because you may be involved in incidents or errors. PDL offers FREE cover to students and interns.

The PDL insurance policy has been designed by experts in pharmacy to provide a high level of cover for pharmacists. It is consistent with the requirements of the PBA and with the needs of pharmacists working across a range of environments including; hospital, clinical, research and community, together with students and interns. The cover protects you in the event of an incident such as a dispensing error; if you receive a complaint or demand; in a case where you are the target of an official enquiry; if you've made a system input or labelling error; dispensed a product to the wrong person; or in the event of an omission of advice on a label or when advising in person.

About PDL

We continually support you throughout your career as a pharmacist. PDL is owned by its members and is an independent organisation dedicated solely to pharmacists and the pharmacy profession. For more than 100 years we've funded and advocated Pharmacy and supported education through sponsorships, prizes and awards. We also offer a unique service to pharmacists, students and interns by providing 24 / 7 incident and claims support.

Important Information
