We acknowledge the palawa/pakana of lutruwita and Gadigal people of Sydney, the traditional owners of the land upon which we live and work. We pay respects to Elders past and present as the knowledge holders and sharers. We honour their strong culture and knowledges as vital to the self-determination, wellbeing and resilience of their communities. We stand for a future that profoundly respects and acknowledges Aboriginal perspectives, culture, language and history.

Want to learn new skills and take the next step in your career? There’s no place quite like Tasmania.

Here, you won’t just get hands-on learning and a great lifestyle. You’ll immerse yourself in one of the world’s most spectacular natural environments.

Framed by charming cities, beaches, snowfields and wilderness, Tasmania is a place where you can hear yourself think and learn beyond the classroom. As a student, our whole island is your campus.

Many of our courses let you take your studies into Tasmania’s great outdoors – on field trips, through work placements, and through our sustainability program.

These real-world experiences make you more employable, while also giving you the chance to engage with our welcoming community. Plus, you’ll have a distinctive and unforgettable Australian experience.
#1 in climate action globally

By choosing to study with us, you'll become a part of the world's leading university on climate action.

- Ranked 1st by Times Higher Education Impact Rankings 2022
- Certified as a carbon neutral organisation by Climate Active
- Winner of the 2021 Green Gown Awards Australasia for Sustainability Institution of the Year
- Winner of the 2022 International Green Gown Awards for Student Engagement
- The first STARS accredited institution in Australasia, achieving a Gold rating in 2022

Learn more at utas.edu.au/study/sustainability
Your journey starts here
Tasmania is filled with creativity, industry, nature, and adventure. It’s a great place to follow your passions and start doing what you love. Because we’re the only university in the state, you get close access to the people and industries that are shaping our island.

We’ve gained international recognition for our teaching and research excellence. No matter what you want to study, you’ll learn alongside the very best as you hone your skills for a successful career. Plus, our committed staff will give you the close attention and support to succeed.

**Our whole island is your campus**

When you’re in one of the world’s most amazing places, you need to get outside, explore and live while you learn. Whatever you’re passionate about, we’ll give you a hands-on education and an unforgettable adventure.

In the natural and social sciences, our island becomes your living laboratory. In health, you’ll travel the state and apply your learning to real-life scenarios. In engineering and design, you’ll access cutting-edge facilities and technology.

Our courses also put you alongside key decision-makers in government, industry, and the community. You’ll help yourself and future generations to create a better tomorrow. You’ll also find yourself at the heart of a creative revolution. Working on real briefs and projects, you’ll connect and collaborate with the acclaimed artists, performers, and creatives that are drawn here.

**Generous scholarships**

We offer a great range of scholarships for international students. These can reward you for academic merit, provide English language support, and give you tuition fee discounts. Read more about our scholarships on page 25.

**Where study meets sustainability**

By choosing to study with us, you’ll become part of the world’s leading university on climate action. Working together, we became certified carbon neutral in 2016 and have since divested from fossil fuels, joined the global Race to Zero, and committed to reducing our emissions by at least 50% by 2030.

But our understanding of sustainability goes beyond the climate emergency alone. Having adopted the United Nations Sustainable Development Goals, we’re also committed to improving socio-cultural, economic and environmental outcomes in Tasmania and beyond. Recognised as Australasia’s Sustainability Institution of the Year in 2021, we see sustainability as an opportunity across everything we do and are passionate about the role you can play as a student.

Our award-winning Sustainability Integration Program for Students (SIPS) lets you apply your study to real-world sustainability challenges and be paid or gain course credit for your work. It’s just one way that you can get involved no matter what you study.

**A great student lifestyle**

Tasmania offers an authentic Australian experience with a more relaxed lifestyle. Each campus puts you in the heart of our cities and amongst a creative, diverse, and welcoming community.

You’ll immerse yourself in an English-speaking environment and a truly unique location. Here, you can experience world-renowned cultural festivals as well as pristine World Heritage Wilderness – all within a day. Studying with us, you’ll also become part of a friendly and inspiring community.

This will provide you with valuable opportunities to develop lasting friendships, employment opportunities, and great English language experience – all guaranteeing a rewarding study experience.
Tasmania is Australia’s only island state. It’s the country’s southernmost state and the gateway to Antarctica. Our island is famous for its pure air, clear skies, and stunning natural beauty.

Home to the famous Tasmanian Devil, we are affectionately referred to as ‘Tassie’ by the locals. With 45% of our island being National Park or World Heritage listed, Tassie is the perfect mix of land meets sea. You can fly here in less than an hour from Melbourne on mainland Australia.

Here, rugged mountain ranges and ancient forests spill out onto pristine beaches. Our island boasts summer rock concerts, the biggest winter festival in Australia, and a unique art and cafe scene. Tasmania was named by National Geographic as one of the top 25 trips to take in 2020. Not only do we have some of the world’s cleanest air and water, we also have more artists and marine scientists per capita than any other state. As the only university in Tasmania, we have a strong set of course offerings. Studying with us, you’ll learn alongside our unique people and places.

Studying with us will give you an inspirational and diverse study experience, one that will enrich you academically, socially, culturally, and environmentally.
Population:
Hobart: 267,000
Greater Launceston: 107,000
Devonport & North West: 40,000

Students:
Total student population: 50,787
International students: 5,446

Timezone:
Tasmania uses Australian Eastern Standard Time (AEST). AEST is equal to Coordinated Universal Time plus 10 hours (UTC +10). It’s a similar time zone to Tokyo, around +3 hours to Beijing and Singapore, +5 hours ahead of New Delhi and +8 hours ahead of Riyadh.

Explore our campuses
Tasmania is a very special place. No matter where you choose to study, you’ll find yourself immersed in a vibrant campus lifestyle filled with hands-on learning and adventure.

We have campuses in the distinct regions of Tasmania: Hobart in the South, Launceston in the North, and Burnie in the North West. We also have a specialised Nursing campus in Sydney.

Our campuses make the most of each region’s strengths, which means your learning is informed by the place you live. We’re also building exciting new campuses and spaces to connect you with industry and community.

---

**Did you know?**

Tasmania is the southernmost state in Australia. From here, it’s easy to travel to other major cities on the mainland or to find connections to international flights.
Hobart

Hobart is a perfect slice of urban living on the edge of pristine wilderness. Study in the heart of the city, on the harbour, or by the beach.

Our beachside Sandy Bay campus is located five minutes’ drive south of the city centre. Located on Hobart’s waterfront, the Institute for Marine and Antarctic Studies combines Tasmania’s strengths in marine and Antarctic studies in one precinct. The building provides unique facilities for around 300 students and staff.

Our Hobart campuses also include the new Hedberg building. This cutting-edge facility provides a learning space for music and creative arts students unlike anywhere else in the country. On Hunter Street, you’ll find our School of Creative Arts and Media. This is a precinct where working artists, students, and teachers all collaborate to create meaningful work.

In the coming years, we’re planning an exciting move to Hobart City. This will be a vibrant, contemporary learning space that blends university and city living.

Hobart students can also access our free student bus, Uni Hopper, to travel between our inner-city locations and facilities.
Launceston

Tasmania’s second-largest city, Launceston, is a vibrant city where you have creative, sporting, and outdoor experiences at your fingertips.

Our $300 million Northern Transformation is bringing some exciting changes, with the main campus moving to new purpose-built facilities. These will open at Inveresk between 2022 and 2024. If you want to study the Arts, Theatre, or Architecture, it’s a great place to realise your creative vision. We’re conveniently located alongside the local museum and art gallery. And if you’re interested in sport, health, or sciences, you’ll join a like-minded community and have real-life learning opportunities.

The new campus will feature nursing simulation labs as well as allied health clinics in a shared precinct that includes the city’s biggest sports stadium. Our new outdoor spaces include a Community Food Garden and Esk Activity space, so you can play and work while connecting with local industry leaders.

Our spacious campus overlooks the stunning kanamaluka/Tamar River. Home to the Australian Maritime College, our Newnham campus will continue to offer world-leading maritime simulation and teaching facilities.
Whether you need academic help, career guidance, or just someone to talk to, we’re here. Here are just some of the ways we support our students.

**Get help with your studies**

As a student, you’ll have access to all kinds of study support. These include:

**International Student Advisers**

Our team of International Student Advisers (ISAs) are available to support you from the moment you arrive right through to graduation. They can help you adjust to the University environment and provide advice on things that may be impacting your studies, health and safety, or your student visa.

**College Student Advisers**

Our Student Advisers are available to give advice on course and study planning. They can also provide support with time management and study tips, as well as getting to know our systems and processes.

**English Language Support**

Our highly qualified Learning Advisers can help you build your essential language, communication, and academic skills.

**UConnect**

This key frontline team will help you understand, navigate, and access information and services when you need it.

**Peer Assisted Study Sessions (PASS)**

These regular extracurricular study sessions are led by student mentors and can help you improve your grades.

**Learning workshops and webinars**

You can jump into live and pre-recorded sessions across a range of topics.

**Learning Lounge**

Drop in and talk with other students and peer mentors. We can also give you training in time management, researching, assignment writing, and more.

**Access to our online Student Portal**

Our online Student Portal makes it easy to get the information you need. From career guidance to counselling, learning support and university news, you’ll gain access to the portal when you accept your offer.
Health and wellbeing support

We offer a range of student health and wellbeing services. These include:

Counselling

Studying with us gives you free access to confidential and professional counselling. Counsellors can help you achieve your best by building a deeper understanding of yourself and the things that are getting in your way. They can also support you to implement strategies to succeed. Plus, you can access wellbeing sessions and information to help you get the most out of your time with us.

Accessibility support

We provide practical assistance and support for any student with a disability or health condition. Together, we’ll ensure that you meet your learning needs.

Close proximity to medical and health services

All our campuses are close to doctors, dentists, and allied health services.

Online chat service

Whenever you have a question or concern, you can access our chat service. You can use this to reach us by email, by phone, or to arrange a video chat with course advisers.

For more information on support and wellbeing, visit utas.edu.au/support.

A safe and diverse culture

We’re committed to creating a culture that’s safe, promotes equality and values diversity.

Respecting and maintaining the rights and dignity of our students and staff is our highest priority.

utas.edu.au/diversity

The Safe and Fair Community Unit is a university-wide service providing information, support and advice to keep everyone safe and well.

utas.edu.au/safe
Religious support
We welcome people of all faiths and spiritualities. We have a diversity of faiths within the community, with pastoral carers based at both the Hobart and Launceston campuses. The University can help connect you to local religious and cultural groups and organisations. There are also prayer rooms on the Sandy Bay and Newnham campuses for Muslim students and staff.

Childcare and parenting facilities
We support students who are also parents through our range of services and facilities available at our Sandy Bay and Newnham campuses. utas.edu.au/campuses

Career guidance and support
You’ll be supported throughout your whole journey from study to work. We’ll help you find jobs while you’re studying, make decisions about your career, and connect you with future employers. We also offer a range of work-integrated learning and professional placement experiences. These include programs with businesses and industry that help you gain valuable skills and experience as you study. utas.edu.au/student-careers

Leadership and volunteering
We can help you develop your leadership skills and make unique connections. You can take part in a leadership development course, volunteer in a sustainability project, become a student representative, or gain experience through a student leadership role.
Our Vice-Chancellor’s Leadership Program allows you to participate in experiences of your choice while engaging in professional development sessions. utas.edu.au/leadership-and-volunteering
Outdoor education session, Taroona.
There’s much more to university than studying. That’s why we encourage you to go beyond the classroom and take part in all the social opportunities we have on offer. Each campus is home to a thriving student community, with lots of events and social opportunities to engage with.

Making friends
Having a strong support network at university makes a big difference. There are plenty of ways you can meet people and make new friends. Studying in Tasmania, you can take part in social events, off-campus trips, travel opportunities, campus tours and much more.
Visit utas.edu.au/uni-life

Clubs and societies
From music groups to bushwalking clubs, our student societies cover all kinds of interests and help you get the most out of university. It’s a great way to meet new people and connect with familiar international and cultural groups. During Orientation Week, we host society days where you can learn all about what each club has to offer.
Visit tusa.org.au
Uni Sport
Interested in joining a local sports club? Whether you want a new experience or to pursue sport at its highest level, our clubs provide first-class equipment and facilities for athletes at any level.
Visit utas.edu.au/sport

Food and drinks
On our campuses, you’ll find plenty of great options for food and drinks. These offer high quality, fresh foods and a range of cuisines. Plus, our campuses are within walking distance of cafes, supermarkets, and shops.

Communities
When you join the University of Tasmania, we want you to feel a deep sense of connection. That’s why every student becomes a member of a distinctive, island-inspired community. Your community is a gateway to vibrant, fun experiences that extend far beyond your degree. They give you the chance to make new friends, build networks, work on meaningful projects, and learn new skills.
Our accommodation

Students in the outside spaces at Melville Street accommodation.
Join a vibrant student community by living near or on-campus. You’ll make new friends and share an amazing student lifestyle.

From self-contained apartments to communal living colleges, we have accommodation to suit your needs and budget. Most options are within easy walking distance from our campuses. Plus, they provide study support, social opportunities, and sports activities.

**Hobart**

Our 42 Melville Street and Hobart Apartments offer all the conveniences and attractions of inner-city living. Both locations offer self-contained studio accommodation, with 42 Melville Street also offering shared apartments. They’re a short walk to our city campuses, including Health and Medicine, Business and Economics, Creative Arts and Media, and Marine and Antarctic Science.

For those seeking more tranquillity, Sandy Bay is an oasis of calm, a short drive from the city. Our University Apartments offer six-bedroom flats, while Christ and John Fisher offer a residential college experience with single rooms and shared facilities.

**Launceston**

Launceston is home to both our Newnham and Inveresk campuses. Newnham is a spacious, 50-hectare campus overlooking the stunning kanamaluka/Tamar River, and just a short drive from the city centre.

Our Inveresk Campus is located near the inner city, alongside the Queen Victoria Museum and Art Gallery. The University offers a range of convenient and comfortable accommodation options. These include studio apartments, on-campus accommodation, and more.

**On-site security**

The safety of our students, staff and visitors is extremely important to us. We provide a number of services to ensure a safe and supportive experience. All students can also access our free SafeZone app, which operates across our campuses. This means that university security will be able to assist at the press of a button.

**Jump into uni life**

Our accommodation helps you make friends and get more out of your time at uni. Having a constant support network around you, you’ll always have someone to chat to and study with.

There are plenty of events and programs to get involved in. You can keep fit, rug up on a movie night, take art classes, compete in sports, tour the state, and much more. Your student leaders and Student Living staff will help get you started.

**How to apply**

Applying for accommodation is easy and can be done online. To get started, head to [utas.edu.au/accommodation](utas.edu.au/accommodation) and create an account.

**Other accommodation options**

We understand that finding the right accommodation is really important when you are moving to a new country to study, especially if you’re travelling with a partner or family. Explore the range of other accommodation options available to you [here](utas.edu.au/other-accommodation).

Accommodation locations and pricing can be found on the following page.

Our scholarships

“Getting a scholarship gave me so much confidence, knowing that I could make my dreams a reality, making it so much more achievable”

Fatemeh Nourouzi, Health and Medicine student
Scholarships give you peace of mind and let you make the most of your time studying.

Our huge range of support packages gives international students financial and academic support across all areas of study. We reward talent and hard work while also recognising individual needs and diversity.

When you apply to study with us, we’ll find the right ones for you. Whether you’re after financial support, recognition for your achievements, help with relocation, or your English skills, we have something for you.

These are just some of the scholarships and support packages on offer in 2023. You can find a full list on our website, along with terms and conditions.

**Dean’s Merit scholarships**

The Dean’s Merit scholarships are awarded to high-achieving international students who have demonstrated outstanding academic performance. The scholarships cover a range of courses across sciences, engineering, and business. You’ll need to be commencing your studies in 2023 and meet the eligibility requirements.

**Tasmanian International scholarship**

This scholarship recognises high performing international students across a wide range of degrees. It can provide you with a 25% reduction in tuition fees for the duration of your degree.

**ASEAN scholarship**

If you’re an international student from an ASEAN country, you can receive a 15% reduction in your tuition throughout your degree.

This includes nationals of Brunei, Cambodia, Indonesia, Laos, Malaysia, Myanmar, Philippines, Singapore, Thailand, and Vietnam.

**South Asia scholarship**

If you’re an international student from a South Asian country, you can receive a 15% reduction in your tuition for the duration of your degree.

This includes citizens of India, Pakistan, Bangladesh, Nepal, Sri Lanka, and Bhutan.

**Track to Tasmania scholarship**

This provides eligible African international students commencing study in 2023 with a 15% reduction in tuition fees for the duration of their course.

This includes citizens of Botswana, Cameroon, Egypt, Ghana, Kenya, Morocco, Namibia, Nigeria, South Africa, Uganda, Zambia, and Zimbabwe.

**Commencing onshore student scholarships**

If you’re an international student already in Australia, we have a set of packages to help kick start your study with us. Whether you’re looking to jump into a career, get some help relocating to Tasmania, or want to experience our vibrant on-campus living, we have a package for you.

**English language package**

If you need to improve your English before diving into one of our degrees, you can receive up to 20 weeks of free English Language Course (ELC) programs.

To learn more, visit [utas.edu.au/international-scholarships](utas.edu.au/international-scholarships)

WE’LL PREPARE YOU TO SUCCEED

Before you travel to Tasmania to study with us, we recommend you read the following list of tips. We’ll help make your transition smoother with pre-departure support, budgeting advice, information on preparing to study, and fun social events.

Pre-departure and arrival
Tasmania is a safe and relaxing place to live. Still, leaving home to study in a new country can be as daunting as it is exciting.
That’s why we offer a range of programs and services to help you transition to student life in Tasmania.

Pre-departure sessions
Our pre-departure webinars tell you what you need to know about travelling to Australia. They’ll make sure you’ve done everything you need to do before you leave home.

Managing your money
Understanding of the costs of living in Australia can make your study experience more enjoyable. We encourage all our students to set a realistic budget before travelling.

Study-related costs
Study fees are as per course

Additional study costs
All incoming students must have sufficient funds to cover the cost of:
- Accommodation
- Flights
- General cost of living
- Student visa application fee
- Overseas Student Health Cover (OSHC)

All students arriving on a student visa in Australia must have OSHC. The University of Tasmania provides cover through Medibank Private. This will cover the full length of your student visa. The current rates for OSHC will be included in your Letter of Offer.
Living Expenses

The following is a rough guide to living costs for international students living in Tasmania (in Australian dollars). Of course, these will vary depending on your preferred standard of living and where you choose to live.

- Groceries and eating out: $80–$280 per week.
- Electricity and utilities: $35–$140 per week.
- Phone and Internet: $20–$55 per week.
- Public transport: $15–$55 per week.
- Car (after purchase): $150–$260 per week.
- Entertainment, sport, personal care: $60–$150 per week.
- Study expenses (books, photocopying, stationery etc.): approx. $1,000 per annum

The quoted tuition fee is indicative only and subject to change. For more information on living expenses visit: studyaustralia.gov.au/english/live/living-costs

UniStart

UniStart is an online program that helps you pick up the skills to succeed at university. These skills include critical thinking, research, and assignment writing. We’ll also teach you to get more out of lectures, tutorials and online learning.

Find out more at utas.edu.au/unistart

Orientation

This is a special program of fun social events, workshops and information sessions to get you started at university. Join other new students and find out how to get the most out of your studies. If you’re studying online, don’t worry – we also offer a comprehensive online orientation program.

Get the support you need

To find out more about the range of support services available, visit page 15.

Preparing for study

Enrolment sessions

Our enrolment sessions are a great way to prepare for university. They help you understand the administrative parts of studying, including enrolling in units, finding your timetable, and learning about the online systems you’ll use.

Learn more at utas.edu.au/enrolments
Ways to study

Our great range of postgraduate degrees give you more flexibility and choice.

Today’s industries are all moving at a rapid pace. Our courses give you the knowledge and skills you need to stay ahead and take the next step. And if you’re looking to make a career change, our courses let you build on your past experiences and start an exciting new chapter.

Our courses include graduate certificates, graduate diplomas, and master’s degrees. You can choose the level of qualification you want, and find a course that fits your lifestyle and commitments. Your past experience can give you credit towards your course, which can make you graduate sooner.

Master’s degrees

A master’s degree takes one or two years, depending on your previous study experience. It’s a great way to advance your career, develop skills, and become a leader in your field. You can also use a master’s to switch gears and enter a new field. Your previous studies can make you eligible for credit, so you can graduate sooner.

Research degrees

Our university is home to a collaborative and diverse research community, which can give you the skills for a rich career in academia and beyond. We offer a Doctor of Philosophy (PhD) and Masters by Research. These are advanced study programs that allow you to deeply explore a topic that interests you.

Learn more at utas.edu.au/research-degrees

Other programs

Pre-Masters Preparation Program

This program is for students who already hold an undergraduate degree but need English language support. You’ll also get the academic skills you need to prepare for postgraduate study. You can enrol for one semester of the program and then progress directly into a postgraduate degree.

Learn more at up.education/study/university-partnerships/

English language programs

Whether you want to improve your English to qualify for further study, unlock job opportunities, or just build your language skills, we have a program to suit you. Our English for Academic Purposes program is for international students who want to enter an undergraduate or postgraduate degree but do not yet meet the English language entry requirements.

For more information, visit utas.edu.au/english-language-courses

Professional recognition allows you to take your career to new heights. Many of our postgraduate coursework programs are accredited and professionally recognised by industry bodies in Australia and abroad.

Use this guide to find out if your course is accredited. Look for the symbol.
Student visiting the Coal Mines Historic Site, Port Arthur.
Standard university entry requirements

Admission to most master’s by coursework (or postgraduate) courses at the University of Tasmania require qualifications equivalent to an Australian bachelor’s degree.

Refer to the relevant study area table for specific course requirements.
Some courses also require the completion of prerequisite subjects.

For more information on entry requirements visit, [utas.edu.au/entry-requirements](utas.edu.au/entry-requirements)

English language requirements

Some international applicants may need to provide evidence of an approved English language test completed within the last two years.

For full details on our English language requirements visit, [utas.edu.au/english-language-requirements](utas.edu.au/english-language-requirements)

Postgraduate English language requirements

Most of our postgraduate programs have the following English language requirements:

- IELTS (Academic) — 6.0 (no individual band less than 6.0)
- TOEFL (iBT) — 72 (no skill below reading 16; listening 16; speaking 18; writing 22)
- PTE Academic — 50 (with no score lower than 50)
- English for Academic Purposes - EAP2 60% (no individual score less than 60%)
- Cambridge CAE (Certificate of Advanced English) — B Grade
- Cambridge CPE (Certificate of Proficiency in English) — C Grade
- Cambridge BEC (Business English Certificate) Higher — C Grade

How to apply

1. Find a course
View our courses online utas.edu.au/courses
For information or advice, please call +61 3 6226 6200 or email your.study@utas.edu.au

2. Prepare your documents
Prepare electronic copies of the documents you need to complete your application.
These may include:
• evidence of your English Language proficiency (e.g. IELTS or TOEFL)
• evidence of your academic qualifications (including English translations), and
• evidence of your previous studies if you are applying for recognition of prior learning including official course and unit outlines.
All the documents provided must be the original document or a certified copy.
Delays in processing times may be affected if all documents are not provided on initial application.

3. Lodge your application
(a) Apply online at utas.edu.au/international/applying. Our International Admissions team will contact you if we require any further information from you.
(b) Apply through an authorised University of Tasmania agent.
IMPORTANT: If you, or your agent, submits an application without all the documents then there may be delays to the processing of your application. This includes requests and supporting documentation for credit/advanced standing.
To find an authorised agent, please visit utas.edu.au/world

4. Apply for a scholarship
We have a number of scholarships specifically designed for international students. Most of these are assessed at the time of application for your degree program but some require a formal scholarship application.
For more information including scholarship closing dates, please visit utas.edu.au/international-scholarships
5. Accept your offer and enrol

On receipt of your Letter of Offer, please follow the instructions outlining how to accept.

Once you have accepted your place, you’ll need to enrol in your course units.

For more information, please visit utas.edu.au/starting-uni

Are you eligible for advanced standing?

If you have previously studied, you may be eligible for advanced standing. If you are eligible for advanced standing, you may not have to complete all of the subjects listed in your course and you could graduate sooner.

You can apply for advanced standing at the same time as applying for your course.

For more information, please visit utas.edu.au/rpl

At the time of printing, the 2023 fees were not available. To assist you, the 2022 fees are included to provide an indicative rate. Please note, these fees are subject to change for 2023. For up to date 2023 fees, please visit utas.edu.au/fees
Learn to address contemporary challenges, and support sustainable agricultural growth and innovative food production. You can choose to focus on the disciplines that enable scientific approaches to sustainably manage agricultural systems and natural resources or food microbiology (from both manufacturing and safety perspectives).

The specialised skills and knowledge developed through this course will enable you to critically evaluate data and promote sustainable, ethical and safe practices in the industries you choose to work in.

Agriculture

CAREER OPPORTUNITIES

There is a growing demand for skilled Agricultural and Food Science graduates. The knowledge you’ll gain will support global careers, in both government and private sectors, indoors, outdoors, in the laboratory or the field.

Graduates have pursued a wide range of employment opportunities, such as an agronomist, production scientist, quality assurance, food safety managers, fermentation microbiologist. You may also choose to work as a consultant, or start your own agri-food business.
COURSE OPTIONS

Master of Agriculture and Food Sciences (Specialisation)
CRICOS: 106832A  Course Code: P7D
Estimated Annual Tuition (AUD): $30,950
Duration: Minimum 2 years
Intake: Semester 2
Location: Hobart
Structure: Requires the completion of 200 credits points
Core Units: 50 credit points
Specialisation Units: 75 credit points
Pathway Units: 75 credit points

The Master of Agriculture and Food Science (Specialisation) course aims to provide you with advanced knowledge in agricultural and food sciences.

You’ll develop a capacity for independent research and problem-solving that can lead to a higher research degree or a career in agriculture and food-related industries. You’ll be able to apply your skills and knowledge to address current challenges and support sustainable agricultural growth and innovative food production.

SPECIALISATIONS

- Crop Science and Plant Health
- Food Microbiology
- Sustainable Agricultural Systems

STUDY HIGHLIGHTS

Your course incorporates many practical learning experiences in the laboratory, and in agricultural enterprises.

Our strong relationships with grazing, seed growing and horticultural enterprises create the perfect field trips during your studies. You could be monitoring water use on farms, learning about irrigation systems, technology, or how to operate a dairy farm.

In your final semester of study, you can develop problem solving and consultancy skills in a capstone unit based on industry case studies or, for select students, undertake a research project to address a real-world issue.

During your research project you’ll have the opportunity to connect with industry experts and TIA researchers, exposing you to cutting edge research in agriculture and food microbiology.

Taught by experts from the Tasmanian Institute of Agriculture (TIA), a specialist research and teaching institute at the University of Tasmania, with international standing.

Follow your passion by choosing a specialisation in either Sustainable Agricultural Systems, Crop Science and Plant Health or Food Microbiology.

The diverse range of learning experiences from laboratories to industry engagement will equip you for a career in science and the agri-food sector.
Your studies will be guided by your interests, in a place where you can exercise your imagination through critical and rigorous design thinking. You’ll be immersed in an environment that allows and encourages your creative side to come to life.

You’ll tackle a range of challenging design problems, including those relating to urban futures, social and environmental responsibility, and complex buildings.

Gain real world experience through our work integrated learning units which can include internships in design-related organisations, study tours to meet with leading designers, attend major design conferences and exhibitions, volunteering positions in non-government or community organisations in key areas of interest, and participation in major creative events.

**Architecture**
Be empowered to develop original projects, working with ideas and inspirations drawn from the heritage and modern surrounds of Tasmania.

Gain specialised expertise in sustainable resources and industry.

Discover your strengths with learning by making, through embedding yourself in a workshop full of creative tools and technology.
Business students visiting Tasmanian entrepreneur Kim Seagram, Launceston.
While the business landscape has dramatically changed since the COVID-19 pandemic, many of the key challenges for organisations were already on the agenda of leaders and senior managers.

The global pandemic has amplified matters associated with changing notions of work, sustainability, resilience and more appropriate leadership approaches.

Global concerns such as the impact of automation, deep capability deficiencies and equity at work, are compelling companies to either transform the way they operate or risk losing competitive capacity.

Organisations from start-ups to governments need to redefine organisational capabilities to meet the demands of their workforces and the communities in which they operate.

Where managers may have previously operated as solo-decision makers or ‘hero leaders’, there is now a demand for more inclusive, ethical, compassionate, and collaborative styles of leadership.

**CAREER OPPORTUNITIES**

MBA graduates are prepared for leadership.

Capabilities developed during this course are in-demand locally, nationally and globally across commercial, public sector and not-for-profit organisations at very senior levels in all types of organisations.

An MBA will give you the professional capabilities required to make ethical decisions that can enhance the experience of the workforce, better recognise community expectations and positively influence the trajectory of your organisation.

Accelerate your career aspirations to senior leadership roles. Organisations are requiring executive level, broadly-based business capabilities, with employers demanding formal qualifications to compliment managerial work experience and the deep, practical insights that MBA courses develop.

Our graduates have excellent career prospects. Over 93% of postgraduate students from University of Tasmania are employed in full-time work within 4 months of graduating.1

1Source: 2020 Graduate Outcomes Survey
STUDY HIGHLIGHTS

As an MBA student, you’ll use ‘case method learning’ to explore, analyse and deconstruct traditional theories of organisational leadership and management with a view to exploring what is and isn’t relevant in today’s business landscape. For example, how do non-traditional leadership capabilities better meet the needs of contemporary workforces? What benefits and challenges does industry 4.0 deliver to organisations? How has cryptocurrency and NFTs impacted our understanding and idea of value? By undertaking the MBA, you’ll explore old theories with a contemporary lens - giving you the deep insight to lead with confidence in a post-pandemic world.

SPECIALISATIONS

Leadership and Organisational Capability

Designed to equip senior managers and leaders to address global challenges associated with the development of appropriate strategic organisational capability, students will be challenged to investigate and evaluate traditional and unorthodox approaches to leadership as well as indigenous knowledges about the topic. Generating a more expansive and critical view of the role of leaders and leadership will equip graduates with the capacity for critiquing traditional approaches for more creative and/or appropriate means of achieving organisational outcomes and stakeholder value.

• Leading Capability Development in Organisations
• Leadership, Process and Capability
• Leadership and ‘Place’
• Contemporary Issues in Organisational Leadership

Sustainable Business

The relevance of sustainability to all organisations, and indeed to all people, is a key area of concern for all managers and leaders. Operating an organisation in a manner that supports sustainable practices across the breadth of operations is now a critical imperative. The specialisation allows students to examine more closely managerial and leadership obligations as they related to sustainable business now and into the future.

• Organisational Social Responsibilities
• Managing and Reporting Sustainability Related Performance
• Sustainability Related Governance and Assurance
• Socially Responsible Investing
“Leaders who respond to the profound shift in traditional ways of enacting leadership and managing business will enable their organisations to rebound from the consequences of the pandemic and meet the immediate and future challenges of Industry 4.0 as well.”

Associate Professor Theresa Simpkin, MBA Director, University of Tasmania.

COURSE OPTIONS

Master of Business Administration
CRICOS: 108979K Course Code: 3701

Duration: Minimum 2 years
Intake: Semester 1, Semester 2
Location: Hobart, Online
Structure: Requires the completion of 200 credit points:
Core units: 150 credit points
Specialisation Units: 50 credit points

The Master of Business and Administration is your opportunity to develop a suite of professional capabilities to become a leader for our time and into the future.

You’ll investigate, critique, and completely rethink traditional theories of business, while exploring new forms of creative and collaborative leadership for a volatile business as usual.

Three years of genuine managerial experience is required for this course.
The Graduate Certificate in Business Studies will equip you with the skills and knowledge to succeed. You’ll cultivate skills in critical thinking and analysis, reflective practice and professional presentation. Plus, you’ll develop an understanding of contemporary business theory and practices around marketing, accounting, sustainability practices, and organisational management.

**CAREER OPPORTUNITIES**

By completing the Graduate Certificate in Business Studies, you can gain professional qualifications in preparation for your next role, or to upskill in your existing position. You’ll have developed your critical thinking skills, which are necessary for business decision making, and gained valuable knowledge in the core areas of business management.

Careers requiring business skills are growing fast, with employers demanding formal qualifications. Here are some of the careers projected to grow into 2025:

- **Accountants**: 9.4%
- **Advertising and Marketing Professionals**: 21.1%
- **Business Administration Managers**: 9.9%

*National Skills Commission five year projections from November 2020 to November 2025.*
Consolidate your experience into a business qualification and develop the skills to become a more effective leader.

Build your professional networks while working collaboratively in intensive workshops.

Begin your pathway towards a Master of Professional Accounting.

STUDY HIGHLIGHTS

Our Graduate Certificate in Business Studies combines theoretical and practical learning and is flexible enough to be able to tackle whilst working full-time.

Your studies will cover four exciting and topical areas: Accounting for Managers, Foundations of Marketing, Corporate Sustainability, and Fundamentals of Management.

COURSE OPTIONS

Graduate Certificate in Business Studies
CRICOS: 094432J  Course Code: 35A1
Estimated Tuition (AUD): $17,975
Duration: Minimum 0.5 years
Intake: Semester 1, Semester 2
Location: Hobart
Structure: Requires the completion of 50 credit points:
Core Units: 50 credit points

The Graduate Certificate in Business Studies - International is ideal for those students who want to undertake postgraduate coursework programs with the Tasmanian School of Business and Economics, but have never studied at university before. It’s also great for those who want a formal qualification to support their professional experience.

Graduate Certificate in Sustainable Business
CRICOS: 109407E  Course Code: CSQ
Duration: Minimum 0.5 years, up to a maximum of 2 years
Intake: Semester 1, Semester 2
Location: Hobart, Launceston, online
Structure: Requires the completion of 50 credit points
Core Units: 50 credit points

It is increasingly becoming an expectation for organisations, SMEs, not-for-profits, industry bodies and educational institutions to address their significant social and environmental impacts, both positive and negative. The Graduate Certificate in Sustainable Business allows graduates to develop knowledge and skills helpful in managing the sustainability related issues necessary in a society increasingly concerned about the social and environmental performance and impacts of organisations.
Upgrade your pharmacy qualifications and become a leader in medications management and medication safety.

You’ll study units that cover pharmacotherapeutics in cardiology, respiratory medicine, infectious diseases, oncology medicine, endocrinology, neurology, psychiatric disorders and gastroenterology. The contemporary evidence-based practices that you’ll develop can be applied to both hospital and community pharmacy settings, providing you with career advancement opportunities upon graduation.

Our Clinical Pharmacy courses are all available fully online.

Undertake a workplace-based research project of your choice to enhance your skills in clinical pharmacy or pharmacy practice.

Learn contemporary evidence-based practice, applied to hospital and community pharmacy settings.

CAREER OPPORTUNITIES

Pharmacy practice is constantly evolving, and pharmacists are becoming more involved in the day to day management of complex diseases. Our courses support your skills in clinical settings, conducting medication reviews, and enhance your role as a member of a multidisciplinary health care team.

You’ll develop your ability to communicate effectively with other health professionals, helping to meet evolving health industry needs and deliver better patient-focused care.
COURSE OPTIONS

Graduate Certificate in Clinical Pharmacy
Course Code: M5C
Estimated Tuition (AUD): $14,975
Duration: Minimum 0.5 years
Intake: Semester 1, Semester 2
Location: Online
Structure: Requires the completion of 50 credit points:
- Core Units: 12.5 credit points
- Elective Units: 37.5 credit points
This course provides an opportunity for registered pharmacists to develop clinical pharmacy skills and qualifications in clinical pharmacy and pharmacy practice by offering a flexible education program delivered online.

Graduate Diploma of Clinical Pharmacy
Course Code: M6L
Estimated Annual Tuition (AUD): $29,950
Duration: Minimum 1 year
Intake: Semester 1, Semester 2
Location: Online
Structure: Requires the completion of 100 credit points:
- Core Units: 100 credit points
This course expands on the Graduate Certificate, providing further depth in topics including pharmacotherapeutics in cardiology, respiratory medicine, infectious diseases, oncology medicine, endocrinology, neurology, psychiatric disorders, gastroenterology, and medicine safety. Further unit choice options provide learning opportunities for pharmacists wishing to develop their understanding of contemporary management, public health, or research methods.

Through your studies, you’ll gain advanced skills in evidence-based practice that you can apply to hospital, community and aged care settings or medication reviews.

Master of Clinical Pharmacy
Course Code: M7F
Estimated Annual Tuition (AUD): $29,950
Duration: Minimum 1.5 years
Intake: Semester 1, Semester 2
Location: Online
Structure: Requires the completion of 150 credit points:
- Core Units: 150 credit points
The Master of Clinical Pharmacy will enhance your ability as a registered pharmacist, to contribute to the quality use of medicines and to improve your critical analysis and clinical decision-making skills.

Fully online, flexible and self-directed, this course will enable you to diversify your skills for a range of advanced practice roles emerging in community and hospital settings. You’ll also have the option to undertake an audit of practice with further unit choice options or to undertake a research project in the area of clinical pharmacy or pharmacy practice.

STUDY HIGHLIGHTS

You’ll undertake a practice-based research project of your choice in the area of pharmacy practice, providing you with the opportunity to conduct truly transformative research.
Dementia

Our fully online postgraduate courses in dementia provide cross-discipline, evidence-based insights into the nature and impact of dementia on individuals, organisations and societies. Spanning the neurobiology of disease, individual care and support, dementia-friendly communities and policy-level responses, our courses are aimed at graduates and professionals building expertise in a field related to dementia.

You'll be studying with the Wicking Dementia Centre, our specialist research and teaching centre and global leader in dementia research and education, to empower your leadership in positive change. The Centre’s mission is to transform the impact and understanding of dementia worldwide, by empowering leaders committed to improving the lives of people living with dementia.

CAREER OPPORTUNITIES

It is estimated that there were 46.8 million people worldwide living with dementia in 2015, and this number will reach 131.5 million in 2050*. Postgraduate study in dementia will provide you with an in-depth understanding of dementia and its impact on individuals, societies and governments. Graduates will possess the skills and critical faculties to identify and evaluate primary evidence, international practices, and appropriate resources to inform their professional and personal dealings in meeting and anticipating the needs of people with dementia.

*Alzheimer’s Disease International.

Gain specialised knowledge to address the increasing global prevalence of dementia.

Build your capacity as a progressive leader who can provide multidisciplinary insight into dementia.

Link your learning to your individual situation through tailored assessments, keeping your study relevant and up-to-date.
STUDY HIGHLIGHTS

Our courses focus on four core disciplines: neurobiology, public health, health care systems and policy, and health and social support for people living with dementia. An international perspective threads all units with global examples and statistics, including national approaches to common problems as well as cross-cultural and indigenous people’s views and experiences. We also provide the opportunity for your personal perspectives to be highlighted throughout the course in assessments, linking your learning to individual contexts, making the content focussed, relevant, and always up-to-date.

Studying with us, you’ll gain updated knowledge and perspectives to inform your professional and personal support for the needs of people with dementia. As expectations increase around person-centred care, and decision making informed by a deep knowledge of dementia, a variety of opportunities may become available for those with postgraduate qualifications in dementia.

COURSE OPTIONS

Graduate Certificate in Dementia
Course Code: M5X
Estimated Tuition (AUD): $6,000
Duration: Minimum 0.5 years
Intake: Semester 1, Semester 2
Location: Online
Structure: Requires the completion of 50 credit points:
Core Units: 50 credit points

The Graduate Certificate in Dementia offers a cross-disciplinary understanding of dementia and its impact on individuals, societies and governments. Graduates will possess a range of knowledge and perspectives to inform their professional and personal support for the needs of people with dementia.

Graduate Diploma of Dementia
Course Code: M6X
Estimated Annual Tuition (AUD): $12,000
Duration: Minimum 1 year
Intake: Semester 1, Semester 2
Location: Online
Structure: Requires the completion of 100 credit points:
Core Units: 62.5 credit points
Elective Units: 37.5 credit points

The Graduate Diploma of Dementia offers a research focus on dementia knowledge, using and adapting information and evidence from a wide range of local and global perspectives on dementia, as it applies to individuals, organisations, governments and communities. Graduates will evaluate the quality of evidence that informs strategies, systems and practices aimed at improving the lives of people with dementia.

Master of Dementia
Course Code: M7X
Estimated Annual Tuition (AUD): $12,000
Duration: Minimum 1.5 years
Intake: Semester 1, Semester 2
Location: Online
Structure: Requires the completion of 150 credit points:
Core Units: 87.5 credit points
Elective Units: 62.5 credit points

The Master of Dementia offers a research-enabled, cross-disciplinary understanding of dementia and its impact on individuals, societies and governments. Graduates will possess a range of knowledge and perspectives, and deep insights to the nature and quality of evidence which underpins them, to inform their professional and personal support for the needs of people with dementia. Experience in critical appraisal and design of research allows graduates to choose the best information and evidence, or to design research where the evidence is lacking.
Economic Geology

Our postgraduate courses are ideal for practising geoscientists who aim to expand their career into economic geology.

Delivered by international experts with experience across industry, academia and government, you’ll learn about the latest developments in mineral exploration, mining and environmental management. You’ll also analyse and interpret a wide range of geological data sets that impact the mining value chain.

CAREER OPPORTUNITIES

Careers in economic geology involve assessing the process of mining natural resources and evaluating the climate risks associated with non-renewable energy sources. When you graduate, you’ll have the skills to interpret appropriate methods and data sets required to solve a variety of mineral industry challenges. With high level expertise to working on the technical elements of mineral exploration and mining projects, graduates are highly sought after by international mineral resource companies.
COURSE OPTIONS

Graduate Certificate in Economic Geology
Course Code: K5F
Estimated Tuition (AUD): $16,975
Duration: Minimum 1 year
Intake: Semester 2, Winter school
Location: Online
Structure: Requires the completion of 50 credit points:
Core Units: 50 credit points

The Graduate Certificate in Economic Geology has been designed for those working as geoscientists, providing a detailed overview in the fundamentals of Economic Geology including the latest developments in mineral exploration, mining, and environmental management. The course introduces you to the theory, acquisition, analysis, and interpretation of a wide range of geological data sets that impact the mining value chain.

Master of Economic Geology
CRICOS: 010959F  Course Code: S7W
Estimated Annual Tuition (AUD): $33,950
Duration: Minimum 2 years
Intake: Semester 1, Semester 2, Summer school, Winter school, Spring school
Location: Hobart, Online
Structure: Requires the completion of 200 credit points:
Core Units: 200 credit points

This is a specialised master's degree course in Economic Geology specifically designed for industry and government geologists. It is the nucleus of the postgraduate teaching program at the ARC Centre of Excellence in Ore Deposits (CODES) and forms part of the National Minerals Geoscience Masters Program.

This course is designed to increase and update the knowledge and skills required by geoscientists for the exploration and exploitation of mineral deposits.

STUDY HIGHLIGHTS

If you study the Master of Economic Geology, you’ll have the chance to participate in field excursions to diverse locations across Indonesia, the Andes (Chile, Ecuador, Peru), New Zealand and Tasmania.

Access real geological data sets that impact the mining value chain.
Learn the latest developments in mineral exploration, mining, and environmental management.
Improve your practical skills with research opportunities and field trips interstate and around Tasmania.
Nature play program at Taroona Primary School, Hobart.
Take your teaching career to the next level with a postgraduate degree.

Whether you are looking to start your teaching career or increase your chances of securing a leadership position in education, a postgraduate qualification is the most efficient degree to get you there. At the University of Tasmania, our Education and Teaching courses will give you core teaching skills in leadership, communication, and organisation.

We offer degrees ranging from 6 months to 2 years, with flexible online study modes and options to also specialise in and across areas such as Applied Learning, Early Childhood, Inclusive Education, Leadership or TESOL.

Our education courses are pathways for graduates with Initial Teacher Education (ITE) or educators without a teaching qualification but with experience in teaching or training.

The Master of Teaching is a pre-service teaching degree that gives you the skills and knowledge to teach in a primary or secondary school setting. This degree is designed to build upon your tertiary qualifications and experience to start your teaching career.

**CAREER OPPORTUNITIES**

Education careers across Australia are growing fast, with employment in the Education and Training industry projected to increase by 12.2 per cent over the next five years. This growth is supported by increases in our school-aged population, continued strength in education internationally, and growing demand for adult and community education.

Schools in Australia are demanding primary and secondary school teachers to inspire the next generation in classrooms and beyond. Our graduates have a strong record of finding employment with 88.7% of recent graduates from the University of Tasmania’s postgraduate education and teaching programs securing full time employment – more than national average across Australia. *

*ABS Labour Force Survey, National Skills Commission trend data to November 2020 and projections to 2025

^Graduates Outcomes Survey 2019-2021

Gain an accredited teaching qualification that allows you to teach anywhere in Australia.

Taught by experts in Inclusive Education, Leadership, Applied Learning, Early Childhood and TESOL.

Design a degree that aligns with your career goals using our flexible course structure.
COURSE OPTIONS

Graduate Certificate in Early Childhood Education
Course Code: E5M
Estimated Tuition (AUD): $15,475
Duration: Minimum 1 year
Intake: Semester 1
Location: Online
Structure: Requires the completion of 50 credit points:
Core Units: 50 credit points of Core units and;
60 days of Professional Experience.
The Graduate Certificate of Early Childhood Education will prepare you to lead early learning experiences for children from birth to 8 years of age. Your studies will embed indigenous worldviews, education for sustainability, and health and wellbeing. You’ll learn to recognise how relationships with self, others, cultures, and places are critical to teaching and learning with children. Graduates are inclusive education practitioners with specific capacities to lead with play-based pedagogies, and to work with complex communities.

Graduate Certificate in Education
Course Code: E5N
Estimated Tuition (AUD): $15,475
Duration: Minimum 0.5 years
Intake: Semester 1, Semester 2
Location: Online
Structure: Requires the completion of 50 credit points:
Specialisation Units: 50 credit points or Core Units: 12.5 credit points
Specialisation or Elective Units: 37.5 credit points
The Graduate Certificate in Education is ideal for professional development. This four-unit course will introduce you to principles of active learning. You can choose a specialisation pathway if you want to focus on a single area of study, or you can choose units to build a degree that suits your needs.

Graduate Diploma of Education
Course Code: E6J
Estimated Annual Tuition (AUD): $30,950
Duration: Minimum 1 year
Intake: Semester 1, Semester 2
Location: Online
Structure: Requires the completion of 100 credit points:
Core Units: 12.5 credit points
Specialisation Units: 50 credit points
Elective Units: 37.5 credit points
OR
Core Units: 12.5 credit points
Core Option Units: 12.5 credit points
Elective Units: 75 credit points
The Graduate Diploma of Education is a step up from a Graduate Certificate. You’ll explore advanced theories and practices supported by the latest research in education. Through eight units of study, you’ll learn to critically reflect on and improve your current practice. You’ll also apply models for enquiry to your work context or specialised area of study.

Master of Education
Course Code: E7H
Estimated Annual Tuition (AUD): $30,950
Duration: Minimum 1.5 years
Intake: Semester 1, Semester 2
Location: Online
Structure: Requires the completion of 150 credit points:
Core Units: 12.5 credit points
Specialisation Units: 50 credit points
Elective Units: 37.5 credit points
Dissertation Units: 50 credit points
OR
Core Units: 12.5 credit points
Core Option Units: 12.5 credit points
Elective Units: 75 credit points
Dissertation Units: 50 credit points
The Master of Education is designed to meet the needs of experienced educators seeking professional development within a specialist area or across a range of specialisations.
Master of Teaching
CRICOS: 070429B Course Code: E7G
Estimated Annual Tuition (AUD): $30,950
Duration: 2 Years or 18 months (Fast track option)
Intake: Semester 1
Location: Hobart, online
Structure: Requires the completion of 200 credit points and three Professional Experience placements

Make a difference to future generations as a primary or secondary school teacher. The Master of Teaching is a teaching degree that gives you the skills and knowledge to teach in a primary or secondary school setting. This degree is designed to build upon tertiary qualifications and experience, enabling students to complete a teaching qualification in as little as 18 months with our new fast track options.

The content of our courses is informed by internationally renowned research in English literacy, inclusive education, arts and creativity, regional and rural education, and other areas inspired by the unique challenges and opportunities of education in Tasmania.

STUDY HIGHLIGHTS

Master of Education
Effective educators regularly reflect on professional practice to evaluate their approach and gain new insights to how people of all ages learn differently. Your studies will include a core unit in Reflective Strategies for Professional Learning to foster these important skills, which are in high demand across all teaching professionals.

Master of Teaching
Practise your teaching skills in a safe and supportive environment with 60 days (12 weeks) of professional experience placements in classrooms, graduating with the confidence to inspire the next generation. Our professional experience team will support you to easily find suitable pre-service teaching placements in Tasmania and other states in Australia. For Master of Teaching pre-service teachers, placements focus on subject specialisation/proficiency in a Primary or Secondary context. You’ll be able to choose whether to teach at a primary or secondary school level. The proficiency or specialisations you teach will depend on the major(s) you completed your bachelor’s degree.
Environmental challenges are becoming increasingly complex. Problems like bushfire management and climate change require highly skilled professionals who can analyse a variety of information, including mapped data, to adapt to the current crises.

Our courses integrate environmental, societal and spatial knowledge to make practical recommendations for enhancing places and natural values. By combining different skills in meeting environmental challenges, you’ll be well placed for an exciting career in the environment sector.

**CAREER OPPORTUNITIES**

You’ll apply skills in geographical information systems and remote sensing to address complex problems associated with managing ecosystems, conserving species and fostering sustainable practices. Such skills are in high demand by government and industry employers, and you will benefit from our close connections with the profession.

Our geospatial science researchers are at the top of world rankings and can help you combine technical skills with environmental training to make you highly competitive in the job market or prepare you for ongoing studies in Master or PhD programs.

Those who complete the Graduate Diploma of Land Surveying can progress to registration under State and Territory legislation as practising land and cadastral surveyors.

Many of your classes will be conducted in Tasmania’s pristine natural environments.

Combine environment and geospatial science to put yourself in the forefront for an exciting career.

Build your own network through placements and close contact with local industry professionals.
COURSE OPTIONS

Graduate Diploma of Land Surveying
CRICOS: 078556G  Course Code: K6J
Estimated Annual Tuition (AUD): $33,950
Duration: Minimum 1 year
Intake: Semester 1
Location: Hobart
Structure: Requires the completion of 100 credit points:
Core Units: 100 credit points

The Graduate Diploma of Land Surveying will prepare you for a professional career in Land Surveying, undertaking land and cadastral boundary surveys controlled by State legislation.

Graduates will gain a knowledge of land law, cadastral systems, and surveying practice necessary for undertaking cadastral surveys in Australia.

Bachelor of Applied Science (Professional Honours in Environmental Geospatial Science)
CRICOS: 106223D  Course Code: P4J
Estimated Annual Tuition (AUD): $30,950
Duration: Minimum 1 year
Intake: Semester 1, Semester 2
Location: Hobart
Structure: Requires the completion of 100 credit points

This course is a pathway to the Master of Environmental Geospatial Science. You’ll learn to integrate geospatial and environmental knowledge to make practical recommendations for enhancing decisions around places – both predominantly natural through to highly urban.

You’ll apply skills in geographical information systems and remote sensing to address complex problems associated with managing ecosystems and fostering sustainable practices.

Master of Environmental Geospatial Science
CRICOS: 106224C  Course Code: P7B
Estimated Annual Tuition (AUD): $30,950
Duration: Minimum 2 years
Intake: Semester 1
Location: Hobart
Structure: Requires the completion of 200 credit points:
Core Units: 137.5 credit points
Elective Units: 62.5 credit points

The Master of Environmental Geospatial Science gives you access to professional, practical and research learning opportunities.

In your first year, you’ll complete the same units as Bachelor of Applied Science (Professional Honours in Environmental Geospatial Science), before transiting into your second year to develop mastery of your geospatial skills.

You’ll participate in a range of practical experiences, from assessing fuel loads for bushfire planning to surveying urban bushland for biodiversity values. You’ll also complete a Professional Placement, where you’ll have the opportunity to connect with key contacts and stakeholders in your profession.

STUDY HIGHLIGHTS

We have strengths in biodiversity management, geospatial science, climate change and environmental management more broadly. Our geospatial science researchers are at the top of world rankings and can help you combine technical skills with environmental training to make you highly competitive in the job market or prepare you for ongoing studies in Master or PhD programs.
Open valuable career opportunities in finance.
Finance

Finance is at the centre of the most exciting developments shaping our world. Studying a Master of Finance at the University of Tasmania enables you to be a decision maker for the future.

The skills you develop will open valuable and satisfying career opportunities across an incredible range of exciting vocations such as corporate chief executives and major institutional investors through to fintech unicorns and private capital entrepreneurs.

Our finance courses are recognised by the CFA Institute University Affiliation Program and the Global Association of Risk Professionals. This recognition is an important signal to potential employers that our finance curriculum ensures our students are prepared for successful investment management and risk management careers in the global finance industry.

Whether you are looking for the qualification to start out in the industry, or you are planning to upskill and accelerate your career, the skills and knowledge you attain will enable you to achieve.

CAREER OPPORTUNITIES

The Master of Finance will give you financial knowledge and skills that you can utilise throughout your future professional career in the broader finance community both at the personal and institutional level including: financial planning, financial institutions, insurance, superannuation funds, not-for-profit organisations, and government and local authorities.

Our teaching philosophy emphasises the acquisition of life-long financial knowledge and skills, fosters empowerment and personal responsibility by encouraging students to challenge the conventional paradigms in finance. This approach has been extremely successful, with 89% of our graduates finding a job within 4 months of graduation.

Careers in finance are growing fast, here are some of the careers projected to grow into 2025.*

- Accountants 8.4%
- Auditors and corporate treasurer roles 14.7%
- Financial Brokers 10.6%

Learn from finance leaders with guest lectures and real-world case studies from businesses in Tasmania and around the world.

Post Graduate Business and Management students from the University of Tasmania earn a median salary of $109,000.*

Get a globally relevant qualification that can take you anywhere.

**Specialisation and Research Units:** 100 credit points
The Master of Finance delivers deep knowledge of global markets and the opportunities they create. Your insights will be informed by industry practitioners, exposure to live market information, and contemporary case studies. The course will enable you to become a decision-maker in the finance industry of the future.

COURSE SPECIALISATIONS

- Sustainable Finance
- FinTech
- Behavioural Insights

STUDY HIGHLIGHTS

Our Master of Finance courses will prime you for an exciting career in finance. You’ll gain a deep knowledge of global markets and the opportunities they create by engaging with our industry partners, learning through exposure to live market information, and via a range of contemporary case studies.

Engagement with our business partners provides a rich learning experience through industry expert interviews, and keynote presentations on current trends in FinTech, Sustainability, and Behavioural Finance.

Your industry knowledge will be enhanced through local, national and global case studies, and market trading data and real-time financial news will further build your familiarity with global business activity. Our capable teaching team will facilitate your examination of expert input, current cases and market events through the application of theories, concepts, and market techniques.
Master of Finance students will engage with business and industry to gain real-world experience.
The Graduate Diploma of Financial Planning is designed for new entrants and experienced financial planners who provide standard financial or para-planning services. This course explores important steps in the financial planning process such as gathering qualitative and quantitative data, identifying goals, and recognising financial problems.

Key assessments will test your ability to apply financial planning theory to develop strategies and address financial challenges. You'll also develop a range of skills and knowledge associated with providing compliant financial advice to clients across different types of financial products.

This course is accredited by the Financial Adviser Standards and Ethics Authority (FASEA), meeting these standards.
Learn from lecturers with extensive experience in financial management and planning, strategy, and superannuation and wealth management.

Network with industry peers while studying in a blended learning environment using live case studies.

Develop industry specific skills to inform your practice and enable you to provide sound, ethical financial advice.

CAREER OPPORTUNITIES
The Financial Adviser Standards and Ethics Authority (FASEA) has announced mandatory educational requirements and professional standards for the financial advice sector. The University of Tasmania is an approved FASEA Higher Education Provider, which means the Graduate Diploma in Financial Planning meets these standards. This includes the FASEA bridging course Ethics for Professional Advisers, which is the minimum requirement for existing advisers.

Financial Planning graduates are in growing demand. Here are some of the careers projected to grow into 2025.*

14% Financial Advisers
9.4% Financial Brokers
17.1% Auditors

STUDY HIGHLIGHTS
The Graduate Diploma in Financial Planning takes a structured, scaffolded approach to its curriculum, where knowledge, skills and graduate attributes are built over time through an integrated and complementary set of financial planning units. The program is based around a dynamic, real world learning approach to student centred education.

Graduates will have the capacity to reflect on experiences, and interpret complex information and practices through research and inquiry.

COURSE OPTIONS
Graduate Diploma of Financial Planning
CRICOS: 102955M  Course Code: C6D
Estimated Annual Tuition (AUD): $35,950
Duration: Minimum 1 year
Intake: Semester 1, Semester 2
Location: Hobart, Online
Structure: Requires the completion of 100 credit points:
Core Units: 100 credit points

Over the duration of the Graduate Diploma of Financial Planning you’ll cover a range of specialised areas to expand your financial planning skills, such as risk planning, commercial law and financial services regulation, investment planning, retirement planning, taxation strategies and more.

Global Logistics and Supply Chain Management

The Australian Maritime College (AMC), a specialist research and teaching institute at the University of Tasmania, offers courses that will advance your career in supply chain management and international trade. Your learning will be informed by research that is shaping the future of the industry.

Our postgraduate courses are designed for professionals seeking a career in logistics and supply chain management. You’ll be equipped with high-level knowledge and skills in managing logistics planning and operations, development of logistics strategies, design and optimisation of supply chains, and governance of supply chain functions.

CAREER OPPORTUNITIES

Our graduates pursue careers across industries and sectors that include manufacturing, transport and logistics, mining, defence, agriculture, retail, and government.

Employment outlook for logistics, supply, distribution and procurement professionals is growing fast, with skilled graduates in global demand. Logistics analysts are in the top 25 emerging occupations. (National Skills Commission Australia).

Over the next five years, strong growth is also projected for employment in supply, distribution, and procurement managers roles. The average weekly pay for supply, distribution and procurement managers is $2,519 AUD. (Job Outlook Australia).

Join Australia’s national institute for maritime education, training and research.

Benefit from our longstanding collaborations with businesses across the maritime and logistics industries.

Study in the Southern Hemisphere’s most advanced maritime research and learning facilities.
COURSE OPTIONS

Graduate Certificate in Global Logistics and Supply Chain Management
CRICOS: 107500B  Course Code: P5E
Estimated Tuition (AUD): $15,725
Duration: Minimum 0.5 years
Intake: Semester 1, Semester 2
Location: Launceston, Online
Structure: Requires the completion of 50 credit points:
Core Units: 25 credit points
Elective Units: 25 credit points

The Graduate Certificate in Global Logistics and Supply Chain Management is designed for people who wish to seek professional careers in logistics and supply chain management that are in high demand globally in different industries.

Graduate Diploma of Global Logistics and Supply Chain Management
CRICOS: 107499A  Course Code: P6E
Estimated Annual Tuition (AUD): $31,450
Duration: Minimum 1 year
Intake: Semester 1, Semester 2
Location: Launceston, Online
Structure: Requires the completion of 100 credit points:
Non-Cognate Core Units: 50 credit points
Elective Units: 50 credit points
OR
Cognate Core Units: 87.5 credit points
Elective Units: 12.5 credit points

The Graduate Diploma of Global Logistics and Supply Chain Management prepares you with the knowledge of theories, concepts, principles and practice in logistics and supply chain management to make informed decisions in a range of real-world global contexts. You’ll gain analytical skills to solve logistics and supply chain problems using state-of-the-art technologies, practices, and managerial innovations.

You'll have the opportunity to conduct a research or industry-based project during your master degree, providing real world experience and preparing you for your future career.

Master of Global Logistics and Supply Chain Management
CRICOS: 107498B  Course Code: P7E
Estimated Annual Tuition (AUD): $31,450
Duration: Minimum 2 years
Intake: Semester 1, Semester 2
Location: Launceston, Online
Structure: Requires the completion of 200 credit points:
Core Units: 50 credit points
Specialisation Units: 100 credit points
Dissertation Units: 50 credit points

The Master of Global Logistics and Supply Chain Management develops graduates with skills such as business analytics and optimisation to develop solutions for a range of complex issues faced by businesses and enhance their logistics and supply chain performance.

Those that have completed prior study or work experience in a related (cognate) area may receive credit towards this degree and can reduce the duration of study to 1.5 years.

STUDY HIGHLIGHTS

Your studies will include the opportunity to engage directly with industry. This could include activities and field trips such as industry guest lecturers and site visits to warehouses.

You’ll also have the opportunity to conduct a research or industry-based project during your master degree, providing real world experience and preparing you for your future career.
Students visiting TasPorts, Bell Bay, Tasmania.
Our Healthcare Redesign courses have been developed for healthcare professionals and administrators who are passionate about making positive change to help people, and improving the way our health services are delivered to patients and consumers.

You’ll learn leadership and project management skills, improvement theory, and be able to apply a suite of tools and techniques that encourage a problem-solving mindset to drive healthcare improvement through evidence-based solutions.

This course will provide you with an opportunity to undertake health service improvement research, building on topics that are of interest to you.

CAREER OPPORTUNITIES

These courses are perfect for anyone motivated to achieve positive change and improvement in healthcare, from practising health professionals to healthcare service administrators, in public, private or not-for-profit organisations.

You’ll learn practical, problem-solving tools and techniques to become a leader who can help the healthcare sector adapt to ever changing demands, locally and globally.
COURSE OPTIONS

Graduate Certificate (Clinical Redesign)
Course Code: M5V
Estimated Tuition (AUD): $11,475
Duration: Minimum 1 year
Intake: Semester 1, Semester 2
Location: Online
Structure: Requires the completion of 50 credit points:
Core Units: 50 credit points
This is the perfect start point for anyone motivated by positive change and improvement in healthcare, whether you are a practising health professional in a public, private or not-for-profit organisation, or a healthcare service administrator.

Graduate Diploma of Healthcare Redesign
Course Code: M6Z
Estimated Annual Tuition (AUD): $20,800
Duration: Minimum 2 years
Intake: Semester 1, Semester 2
Location: Online
Structure: Requires the completion of 100 credit points:
Core Units: 87.5 credit points
Elective Units: 12.5 credit points
Build on core healthcare redesign skills provided by the Graduate Certificate with studies in health research methods, evaluating health interventions, and your choice of elective to start tailoring your learning towards your future field of choice.

Master of Healthcare Redesign
Course Code: M7Z
Estimated Annual Tuition (AUD): $20,800
Duration: Minimum 3 years
Intake: Semester 1, Semester 2
Location: Online
Structure: Requires the completion of 150 credit points:
Core Units: 87.5 credit points
Elective Units: 12.5 credit points
Pathway Units: 50 credit points
The Master of Healthcare Redesign is a contemporary and comprehensive three year course that has been developed for healthcare professionals and administrators who are passionate about helping people and improving the way our health services are delivered to patients and consumers.

In the first two years you’ll combine theory with experiential learning, cementing your knowledge through a workplace improvement project. In third year, you can customise your learning with one of three pathways: research, coursework, or professional practice (leadership development).

STUDY HIGHLIGHTS
To help you respond to the healthcare needs of your community, you can customise your degree with a choice of electives in global health, public health, systems thinking, leadership in health, risk management or leading and managing change in health and human services.
Information Technology and Systems

IT professionals are found in every industry sector, and 1.1 million more technology workers are forecast to be needed in Australia by 2026. The advanced IT skills and practical experience you develop in this course could see you launching your own businesses, to working for a multi-national company.

This degree has been designed for everyone, not just those with IT backgrounds. It will develop and build on your current skills, and is focused on delivering genuine practical experience with options for work placement, work integrated learning (WIL) with the Tasmanian business community, and participation in research and development projects within the university.

You’ll graduate job ready, with specialist skills and knowledge to develop a successful and exciting career in your chosen field.

CAREER OPPORTUNITIES

Careers relating to technology are growing fast, with employers demanding technical expertise across a wide variety of industries. Over the next five years, the technology workforce is forecast to exceed 1.1 million jobs*.

A career in IT could see you starting your own business, to working for international companies such as IBM, Intel, Microsoft, and Samsung. From designing apps or websites, to running virtual reality tours, building the latest gaming sensation, or working at a bank leading advancement in cyber security, a career in technology will set you up for life.

**COURSE OPTIONS**

**Master of Information Technology and Systems**
CRICOS: 079193M  Course Code: K71
Estimated Annual Tuition (AUD): $33,950
Duration: Minimum 2 years
Intake: Semester 1, Semester 2
Location: Hobart, Launceston
Structure: Requires the completion of 200 credit points:
Core Units: 100 credit points
Specialisation Units: 100 credit points

The Master of Information Technology and Systems (MITS) provides a wide breadth of knowledge and practical skills in varying aspects of information technology (IT) and information systems (IS). It has been designed for everyone, not just those with IT backgrounds, to develop and build on your current skills, and enhance your ability to contribute to the workforce in any industry that has information technology and system needs.

**SPECIALISATIONS**
- Information Systems
- Information Technology
- Artificial Intelligence and Data Intelligence
- Cybersecurity
- Entrepreneurship
- ICT Research

**STUDY HIGHLIGHTS**

Customise your own learning towards your career goals with your choice of up to two specialisations from our range of seven advanced Information Technology and Information Systems areas. This will develop the critical knowledge and skills you need to work as an IT professional by choosing units that best suit your career development, interests, and needs.

We also ensure you graduate job ready with real-world experience by providing options for work placement, work integrated learning (WIL), and participation in research and development projects within the university.

The Master of Information Technology and Systems (MITS) has full, professional-level accreditation from the Australian Computer Society (ACS). This endorsement recognises that the degree is responsive to the current and future needs of the ICT industry.

Graduates of the MITS are eligible for membership of the ACS. Our degree is also recognised internationally under the Seoul Accord - a global qualification!

Create IT solutions for real clients through a guaranteed work placement with a Tasmanian ICT business.

Work in an industry that is forecasted to need 1.1 million technology workers in Australia by 2026.¹

Tailor your learning with your choice of two specialisations from a range of advanced IT and IS areas.

Laboratory Medicine

Laboratory Medicine is at the very heart of healthcare, providing vital results that assist in the diagnosis, monitoring, and treatment of disease. You’ll develop the theoretical and practical skills and knowledge for a career in specialised medical and pathology laboratories, providing diagnostic services essential to our healthcare system.

You’ll gain knowledge and a variety of practical laboratory skills in clinical chemistry, haematology, blood transfusion science, microbiology, histopathology, human molecular biology, immunology and more.

CAREER OPPORTUNITIES

You’ll graduate ready for an exciting career at the forefront of Laboratory Medicine. The opportunities are broad, including roles with diagnostic pathology labs, both public and private facilities, or within the medical research field.

With the skills and knowledge delivered by this course, you may find yourself providing vital diagnostic services as part of a small remote team in a regional hospital, or contributing more specialised skills as part of the combined operations of a large laboratory in a major city. This degree can also be used to launch a career in medical research, veterinary laboratories, diagnostic and pharmaceutical companies or health management.

Your skills and knowledge are recognised internationally, and you can forge an exciting career in pathology laboratories around the world.
STUDY HIGHLIGHTS

As part of your studies you’ll participate in a Professional Experience Placement (PEP). This work-integrated learning approach allows you to practice newly acquired skills, behaviours and knowledge in a workplace environment.

The aim of PEP is to immerse you in a professional healthcare setting, to gain a better understanding of the roles of professionals within the health care system.

This clinical placement is undertaken off campus in an accredited diagnostic pathology laboratory in mainland Australia.

There, you'll further develop your practical laboratory skills and contribute to patient care via the provision of laboratory results.

This placement also provides valuable networking opportunities and may lead to employment after graduation.

COURSE OPTIONS

Master of Laboratory Medicine
CRICOS: 093656A  Course Code: M7U
Estimated Annual Tuition (AUD): $37,950
Duration: Minimum 2 years
Intake: Semester 2
Location: Launceston
Structure: Requires the completion of 150 credit points:
Core Units: 50 credit points
Professional Experience Units: 50 credit points
OR
Research Sequenc Units: 50 credit points

The Master of Laboratory Medicine will provide you with the theoretical and practical skills necessary for employment as a Medical Laboratory Scientist in medical pathology laboratories or other diagnostic laboratories (Professional Experience Sequence), and to provide relevant research experience (Research Sequence). The course provides a formal qualification in Laboratory Medicine for those with an undergraduate background in science or health science.
PhD student conducting research at IMAS, Taroona.
Marine and Antarctic Science

The Institute for Marine and Antarctic Studies (IMAS) is our specialist research and teaching institute that offers the only postgraduate courses in the world that combine marine science with a focus on the Southern Ocean and Antarctica. These specialised courses will provide you with a strong grounding in coursework and provide a wealth of practical experience through a year-long research project.

As a gateway to Antarctica and with a natural marine laboratory on your doorstep, Tasmania is the ideal place to study for a career in marine biology, and the fisheries and aquaculture industries.

CAREER OPPORTUNITIES

Marine and Antarctic Science graduates can pursue exciting careers across a range of areas. This includes marine biology, climate research, conservation agencies, fisheries management, aquaculture, ecology, non-governmental organisations, environmental governance, and all levels of government from local to global.

With over 7,000 people in Australia directly employed in the commercial fishing and aquaculture industry, there is strong demand for professionals in sustainable aquaculture, fisheries management, marine biology, marine governance and policy. The skills and knowledge you develop during your studies can be used to help sustainability manage the world’s most precious resource, our oceans and waterways.

Our courses also provide a clear pathway for those who are interested in undertaking a research higher degree such as a PhD in their specialist area. The Institute for Marine and Antarctic Studies (IMAS) is the perfect place to undertake further study, with supervisors who are international experts with global connections.

We are ranked eighth in the world for Oceanography (ARWU by subject 2021).

Study at the gateway to Antarctica, with a natural marine laboratory on your doorstep.

Connect with industry via projects and research opportunities with a wide range of Tasmanian based marine science organisations.
COURSE OPTIONS

Graduate Diploma of Marine and Antarctic Science
CRICOS: 096367G  Course Code: S6Z
Estimated Annual Tuition (AUD): $37,950
Duration: Minimum 1 year
Intake: Semester 1, Semester 2
Location: Hobart
Structure: Requires the completion of 100 credit points:
Core Units: 50 credit points
Discipline Units: 50 credit points

Our Graduate Diploma of Marine and Antarctic Science provides you with a solid coursework grounding in your chosen area of specialisation, and provides a pathway to move onto our Master of Marine and Antarctic Science.

SPECIALISATIONS

- Fisheries Management
- Sustainable Aquaculture
- Marine Biology
- Governance and Policy

Master of Marine and Antarctic Science
CRICOS: 096366J  Course Code: S7Z
Estimated Annual Tuition (AUD): $37,950
Duration: Minimum 2 years
Intake: Semester 1, Semester 2
Location: Hobart
Structure: Requires the completion of 200 credit points:
Core Units: 25 credit points
Specialisation Units: 75 credit points
Research Project: 100 credit points

This is the only master’s degree in the world which uniquely combines marine science with a focus on the southern ocean and Antarctica. You’ll have access to industry-leading facilities at the Institute for Marine and Antarctic Studies (IMAS) and internationally recognised experts to help you kick-start your career.

Undertake two core research units to provide a foundation for your second year research project. You’ll then choose one of four specialisations.

SPECIALISATIONS

- Fisheries Management
- Sustainable Aquaculture
- Marine Biology
- Governance and Policy

STUDY HIGHLIGHTS

During your study, you’ll gain hands-on experience in field research techniques and laboratory methods as a large number of the units in this degree include field trips to marine reserves, fishing expeditions or visits to commercial aquaculture businesses throughout Tasmania.

Practical experiences can include learning about seafloor acoustics and oceanography on an IMAS vessel, and exploring the diversity of birds and mammals in the Southern Ocean.

During your studies there is also opportunities for you to volunteer on current IMAS research projects, developing your skills further while connecting with our internationally renowned researchers.

Maritime Engineering

Take on ground-breaking engineering projects with postgraduate studies in Maritime Engineering.

If you’re a professional engineer with a 4-year bachelor’s degree in any engineering discipline, this program will change the course of your career. You’ll study a wide range of subjects relevant to the development and procurement of maritime engineering systems. Each of these programs are aimed at engineering professionals already in the workforce, but with limited exposure to the maritime engineering sector.

CAREER OPPORTUNITIES

The Australian Government is committed to building a strong, sustainable, and innovative Australian naval shipbuilding industry creating thousands of jobs across the country. Our graduates secure employment in advanced technical and management roles in maritime engineering.

Your learning will be informed by research that is shaping the future of the Maritime industry. We are partnered with the Blue Economy CRC, bringing together expertise in marine renewable energy and offshore marine engineering sectors to deliver innovative solutions that will transform the way we use our oceans. This initiative supports a research community of PhD students and postdoctoral research fellows from the AMC, and is projected to grow jobs in the maritime engineering sector.

The AMC is ranked #1 in the International Association of Maritime Universities.

Work closely with the Australian maritime and shipbuilding industries.

Access the Southern Hemisphere’s best maritime research and learning facilities.
COURSE OPTIONS

Graduate Certificate in Maritime Engineering

CRICOS: 107651J   Course Code: P5G
Estimated Tuition (AUD): $16,000
Duration: Minimum 0.5 years
Intake: Semester 1, Semester 2
Location: Launceston, Online
Structure: Requires the completion of 50 credit points:
  Core Units: 37.5 credit points
  Option Units: 12.5 credit points
The Graduate Certificate in Maritime Engineering provides engineering graduates with an introduction to a wide range of subjects relevant to the development and procurement of marine vessels and systems. Improve your knowledge in advanced engineering practice and management related to the Maritime sector.

Graduate Diploma of Maritime Engineering

CRICOS: 107650K   Course Code: P6G
Estimated Annual Tuition (AUD): $32,000
Duration: Minimum 1 year
Intake: Semester 1, Semester 2
Location: Launceston, Online
Structure: Requires the completion of 100 credit points:
  Core Units: 75 credit points
  Option Units: 25 credit points
The Graduate Diploma of Maritime Engineering is designed to provide engineering graduates with in-depth exposure to a wide range of subjects relevant to maritime engineering systems, and provide you with technical and management skills to work in maritime sectors.

Master of Maritime Engineering (Professional)

CRICOS: 107643J   Course Code: P7F
Estimated Annual Tuition (AUD): $32,000
Duration: Minimum 2 years
Intake: Semester 1, Semester 2
Location: Launceston, Online
Structure: Requires the completion of 200 credit points:
  Core Units: 175 credit points
  Option Units: 25 credit points
Progress your career into specialist areas of maritime engineering including naval architecture, fluid mechanics and marine and offshore systems. Your studies will combine learning that is specific to the design and construct of maritime vessels and systems with advanced studies in management, project planning and research. You’ll graduate with an understanding of complex marine systems and the ability to lead engineering projects in the maritime industry.

Master of Maritime Engineering (Advanced)

CRICOS: 107646F   Course Code: P7G
Estimated Annual Tuition (AUD): $32,000
Duration: Minimum 1.5 years
Intake: Semester 1, Semester 2
Location: Launceston, Online
Structure: Requires the completion of 150 credit points:
  Core Units: 125 credit points
  Option Units: 25 credit points
Combining studies in maritime engineering with management, this course will give you the expertise to manage engineering projects in the maritime industry. Your studies will cover maritime engineering topics including ship design, propulsion systems and associated auxiliary machinery.
STUDY HIGHLIGHTS

The federal government and the University of Tasmania are set to sign an agreement for the funding of a new $30 million Defence and Maritime Innovation and Design Precinct at the Australian Maritime College.

The project is expected to create hundreds of jobs by building on the region’s existing defence infrastructure and manufacturing capabilities.
The maritime industry is at the forefront of international trade. Gain a unique educational experience tailored for the maritime industry, centred on strategic and analytical thinking.

Our Maritime Management courses at the Australian Maritime College (AMC) will provide you with skills and knowledge to effectively manage maritime business and transport activities.

Develop a strategic and analytical perspective of the maritime industry and graduate with skills to develop solutions for complex issues faced by both domestic and international maritime businesses.

**CAREER OPPORTUNITIES**

Maritime Management graduates are leaders in business – locally, nationally and globally. An MBA in Maritime Management gives you the skills required to lead and achieve organisational goals in your chosen field, in both a general management and specialist context (such as management of shipping companies and port companies).

Gain a competitive edge in whatever career path you choose. MBAs are strongly represented amongst the world’s leading CEOs, relationship managers, business consultants, finance executives, entrepreneurs and company directors.

The AMC is ranked #1 in the International Association of Maritime Universities.

Work closely with the Australian maritime and shipbuilding industries.

Study in the Southern Hemisphere’s best maritime research and learning facilities.
COURSE OPTIONS

Graduate Certificate in Maritime Management
CRICOS: 107275F  Course Code: P5H
Estimated Tuition (AUD): $17,475
Duration: Minimum 0.5 years
Intake: Semester 1, Semester 2
Location: Launceston, Online
Structure: Requires the completion of 50 credit points:
Core Units: 50 credit points

The Graduate Certificate in Maritime Management is an ideal course for those who are seeking to pursue a career in the maritime industry. This course will equip you with the ability to develop solutions for complex problems faced by the maritime industry.

Graduate Diploma of Maritime Management
CRICOS: 107274G  Course Code: P6H
Estimated Annual Tuition (AUD): $34,950
Duration: Minimum 1 year
Intake: Semester 1, Semester 2
Location: Launceston, Online
Structure: Requires the completion of 100 credit points:
Core Units: 50 credit points
Specialisation: 50 credit points

This course will provide you with the extensive knowledge and analytical skills required to meet challenges facing the maritime industry, and enhance your career opportunities in management positions.

Master of Business Administration in Maritime Management
CRICOS: 107273H  Course Code: P7H
Estimated Annual Tuition (AUD): $34,950
Duration: Minimum 2 years
Intake: Semester 1, Semester 2
Location: Launceston, Online
Structure: Requires the completion of 200 credit points:
Core Units: 150 credit points
Specialisation Units: 50 credit points

The MBA in Maritime Management provides a unique educational experience with a focus on an applied approach to the maritime industry, centred on strategic and analytical thinking. The MBA provides learning outcomes focused on industry needs by applying business principles, such as management and finance to the maritime industry, and a strategic perspective to international issues relating to maritime management.

Those that have completed prior study or work experience in a related (cognate) area may receive credit towards this degree and can reduce the duration of study to 1.5 years.

SPECIALISATIONS

- Maritime Logistics
- Maritime Technology
- Shipping Operations

These specialisations are designed to give you the opportunity to explore the theory and practice of business logistics and supply chain management, shipping operations and technology in the context of maritime industry.

STUDY HIGHLIGHTS

The maritime industry is an exciting, dynamic, and challenging industry in which to work.

Maritime Management courses will provide you with the flexibility and choice to match your employment prospects and career/learning progression with personal goals and circumstances.
Designed with a blend of real-world experiences, industry expertise and cutting-edge research in marketing science, our postgraduate Marketing courses provide you with opportunities to develop knowledge and learn to apply contemporary marketing skills. Our graduates excel as marketing specialists or in general management roles across competitive and dynamic industries.

Marketing Management

Our courses take a practical and applied approach to prepare you for mid-level and senior-level marketing positions. You’ll study marketing theories and strategies across digital and social media marketing, marketing insights into big data, new product and service development, international marketing, integrated marketing communications, marketing intelligence through consumer decision making models, strategic brand management and more.
We’re highly connected to local industry, with guest lectures and real-world case studies from businesses in Tasmania and around the world.

Learn from internationally recognised academics who have years of industry experience in marketing.

Gain intensive, hands-on marketing experience with our Corporate Internship Program within your chosen industry.

CAREER OPPORTUNITIES
Marketing is at the centre of what makes any business successful, so it’s crucial for leaders in an organisation to know how and why it works. Our areas of study will prepare you for mid to senior-level roles in marketing management or general management.

Careers requiring marketing skills are growing fast, with many employers requiring formal qualifications. The demand for marketing and advertising professionals is expected to grow by 21% by 2025. Similarly, the World Economic Forum predicts that Digital Marketing Specialists will be one of the top 10 most in-demand jobs over the coming years.¹

¹National Skills Commission five year projections from November 2020 to November 2025.

STUDY HIGHLIGHTS
The capstone to your learning is a focussed research/business project, or the opportunity to apply for a project undertaken with one of our business partners through the Corporate Internship Program.

The Corporate Internship Program is an intensive work integrated learning opportunity that connects you with industry to gain work experience in your area of interest. This could be in government, not-for-profit, private, or a specific business environment.

Our students have completed internships for famous Tasmanian companies that export to the world, like Blundstone and Kathmandu, as well as vital local partners like the Tasmanian Parks and Wildlife Service.

COURSE OPTIONS
Graduate Diploma in Marketing
CRICOS: 105170J  Course Code: C6F
Estimated Annual Tuition (AUD): $39,950
Duration: Minimum 1 year
Intake: Semester 1, Semester 2
Location: Hobart, Online
Structure: Requires the completion of 100 credit points:
Core Units: 100 credit points

This course provides an introduction to Marketing principles for students who are new to the discipline, or who only have limited experience in Marketing. Successful completion of this course will give students a solid foundation in Marketing fundamentals, and can be built on through further studies to achieve the level of competency required to become a Marketing professional.

Master of Marketing Management
CRICOS: 106831B  Course Code: 37L
Estimated Annual Tuition (AUD): $39,950
Duration: Minimum 2 years
Intake: Semester 1, Semester 2
Location: Hobart, Online
Structure: Requires the completion of 200 credit points:
Core Units: 200 credit points

STUDY HIGHLIGHTS
The capstone to your learning is a focussed research/business project, or the opportunity to apply for a project undertaken with one of our business partners through the Corporate Internship Program.

The Corporate Internship Program is an intensive work integrated learning opportunity that connects you with industry to gain work experience in your area of interest. This could be in government, not-for-profit, private, or a specific business environment.

Organisational Resilience

The resilience of organisations continues to be challenged, whether it’s disasters, global pandemics, financial crises, or human threats such as cyber-attacks. Organisational leaders should have the skills and connections to solve these challenges and lead their organisations forward.

Our study options in Organisational Resilience are designed for practitioners currently working or seeking a career in the fields of business continuity, crisis management, protective security or organisational resilience.

CAREER OPPORTUNITIES

Professional training in Organisational Resilience will equip you to manage uncertainty and prepare for disruptions to critical business activities. Graduates will develop the confidence to make risk-based decisions and embrace challenges in the most testing of circumstances. The skills developed in this course can be applied to current or future roles across the public, private and not-for-profit sectors. The delivery of this course is designed for those seeking the benefits and flexibility of online learning.
COURSE OPTIONS

**Graduate Certificate in Organisational Resilience**
**Course Code:** A5R  
**Estimated Tuition (AUD):** $13,500  
**Duration:** Minimum 1 year  
**Intake:** Semester 1, Semester 2  
**Location:** Online  
**Structure:** Requires the completion of 50 credit points:  
**Core Units:** 50 credit points  

The Graduate Certificate in Organisational Resilience aims to develop independent and knowledgeable practitioners who are leaders in organisational resilience. With a strong reputation in resilience research and access to national and international industry partners from the public, private and not-for-profit sectors, the Graduate Certificate in Organisational Resilience will develop students’ theoretical knowledge and practitioner-relevant skills.

**Master of Business Administration**
**CRICOS:** 108979K  
**Course Code:** 37O1  
**Estimated Annual Tuition (AUD):** $33,450  
**Duration:** Minimum 2 years  
**Intake:** Semester 1, Semester 2  
**Location:** Hobart, Online  
**Structure:** Requires the completion of 200 credit points:  
**Core Units:** 150 credit points  
**Core Option Units:** 12.5 credit points  
**Specialisation Units:** 50 credit points  

The Master of Business and Administration is your opportunity to develop a suite of professional capabilities to become a leader for our time and into the future. You’ll have the opportunity to study Organisational Resilience as a four unit specialisation in this course. See page 41 for details.

**Master of Tourism, Environmental and Cultural Heritage**
**CRICOS:** 107522G  
**Course Code:** A7U  
**Estimated Annual Tuition (AUD):** $33,450  
**Duration:** Minimum 2 years  
**Intake:** Semester 1, Semester 2  
**Location:** Hobart  
**Structure:** Requires the completion of 200 credit points:  
**Core Units:** 87.5 credit points  
**Core Option Units:** 12.5 credit points  
**Specialisation Units:** 50 credit points  
**Research or Internship Capstone Units:** 50 credit points  

Our new Master of Tourism, Environmental and Cultural Heritage is designed to prepare students for a growing tourism sector in Australia and the world. You’ll have the option to study Organisational Resilience as a four unit specialisation in this course. See page 115 for details.

**STUDY HIGHLIGHTS**

Our courses are taught by leading resilience researchers who aim to educate and support people working in high-consequence environments. Your studies will cover important issues across Business Continuity Management, Crisis Management, Leading Resilient Organisations, and Protective Security. You’ll have the opportunity to connect with other students through our regular online discussion exercises. The learning materials also include access to over 50 pre-recorded interviews with leading practitioners sharing real-life experiences and how they chose to respond in challenging situations.
Pharmaceutical Science

Make your mark in the pharmaceutical and drug development industry with a career in pharmaceutical science. Pharmaceutical scientists develop new drugs that improve the quality of life for many people around the world. From the commonly encountered medical conditions through to life-threatening diseases, it is the ground-breaking developments in pharmaceuticals that make these conditions and diseases treatable.

If you would like to transition or expand your career into the pharmaceutical industry, our courses are for you. Your studies will develop a detailed understanding of pharmaceutical science, and cover the important laboratory techniques employed by pharmaceutical industries and research laboratories around the world. To ensure you graduate job-ready, you'll learn alongside academics who are researching in the most exciting fields of drug development.
Gain a globally recognised qualification and expand your career opportunities.

Gain practical experience in our highly sophisticated laboratories also utilised by researchers and industry.

Industry-leading high staff/student ratio provides tailored skills development and personalised support.

CAREER OPPORTUNITIES

The Department of Employment, Skills, Small and Family Business, reports that the healthcare industry in Australia is expected to grow by over 15 percent in the next five years.

Studying Pharmaceutical Science can open a range of career opportunities in this thriving sector. You could forge a career within the manufacturing, research, quality control, and marketing of pharmaceuticals, or find a rewarding role in research, academia, government, and regulatory agencies.

COURSE OPTIONS

Graduate Diploma of Pharmaceutical Science
CRICOS: 064285G  Course Code: M6E
Estimated Annual Tuition (AUD): $32,950
Duration: Minimum 1 year
Intake: Semester 1, Semester 2
Location: Hobart

Structure: Requires the completion of 100 credit points:
Core Units: 100 credit points

This course is the ideal first step to expand your career with knowledge in pharmaceutical sciences, and develop problem solving skills in the both the pharmaceutical and pharmacological sciences. Your studies will also cover the global context and social and ethical implications of pharmaceuticals.

Master of Pharmaceutical Science
CRICOS: 080696M  Course Code: M7E
Estimated Annual Tuition (AUD): $32,950
Duration: Minimum 2 years
Intake: Semester 1, Semester 2
Location: Hobart

Structure: Requires the completion of 200 credit points:
Core Units: 100 credit points
Research Project: 100 credit points

Expand on the pharmaceutical and pharmacological problem solving and communication skills offered by the Diploma with a research thesis on a industry relevant topic of your choice, fully supported by an expert supervisory team. This allows you to tailor your learning towards your career of choice, and draw on the experience of our highly connected research and teaching staff.

STUDY HIGHLIGHTS

As the hub for pharmaceutical science teaching and research in Tasmania, our industry, community, and government connections provide you with significant professional networking opportunities while you study.

A highlight of our program is the significant amount of hands-on training you’ll receive in a variety of modern techniques such as high-performance liquid chromatography, capillary electrophoresis, cell culture, and immunohistology.
Environmental Planning students in Derby
Planning

Planning is about the processes and procedures used by governments, organisations or groups to tackle problems and grow opportunities. It’s about making better futures.

Turn your passion for just and sustainable futures into a meaningful career.

You’ll learn theoretical, technical and communication skills, with experiences grounded in Tasmania’s rich heritage of environmental and social justice. You’ll develop a range of essential planning competencies, from the legal to the strategic. These two sides, legal and big picture, combine in a powerful way to enable planners to envision and action more sustainable futures.

Your studies will bridge from a learning environment into workplaces. This helps grow your professional network and actively shape your career path.

CAREER OPPORTUNITIES

The job market for planners is strong across public and private sectors with high demand by local and state governments, planning consultancies and community organisations in Australia and around the world. Planners are needed now more than ever, from the smallest housing developments to large project management on major projects.

Our Planning courses can see you working in the field of urban and regional planning developing plans for housing, transport or infrastructure, in Local government ensuring projects comply with environmental laws and regulations, or opportunities in higher level policy advice and research roles.

- Environmental Management and Planning
- Land and Heritage Management
- Parks Planning and Management
- Resource-Based Industries such as Forestry
- Biodiversity Conservation and Natural Resource Management
- Public Policy and Community Engagement

*Roles including Climate Officers and Land Use Planners are forecast to grow 13.8%. ABS Labour Force Survey, National Skills Commission trend data to May 2019 and projections to 2024.

Build your own industry network with placements and close contact with Tasmania’s planning professionals.

Learn in a varied environment, exploring diverse ecosystems within 30 minutes of our campuses.

Experience real world learning through face to face study, professional placement and individual research tasks.
COURSE OPTIONS

Master of Planning
CRICOS: 089608K  Course Code: K7P
Estimated Annual Tuition (AUD): $33,950
Duration: Minimum 2 years
Intake: Semester 1, Semester 2
Location: Hobart
Structure: Requires the completion of 200 credit points:
   Core Units: 125 credit points
   Elective Units: 25 credit points
   Professional Research Stream: 50 credit points
   OR
   Independent Research Stream: 50 credit points

In the Master of Planning you’ll gain knowledge and skills in planning for diverse communities and just and sustainable futures. You’ll learn theoretical, technical and communication skills required by planning professionals.

Our staff are recognised international leaders, with research interests that extend from climate adaptation to the interaction of climate risk with land-use economics. In studying with us, you’ll attain knowledge and skills in planning for just climate outcomes.

STUDY HIGHLIGHTS

There are many opportunities for hands-on learning and contact with the wider planning community. These happen in class, on professional placements, and in your individual research tasks.

In our Master of Planning you’ll undertake a semester long industry placement that provides opportunities to incorporate the knowledge gained in the course into planning practice.

Classroom work is often done in collaboration with professional partners, such as local government and the operations side of the University. This helps expand your professional network and gives you exposure to the complexities and multi-discipline nature of real-world challenges.
Planning students in Hobart on a site visit.
Professional Accounting students working through a real-world case study.
Professional Accounting

Accounting can take you far beyond the office desk and computer screen, both during your studies and after graduation. With our practical internships and work experience opportunities, you’ll engage with our Australian industry partners, such as KPMG, CPA, Blundstone, and Hazell Bros, and investigate real-world case studies on businesses from all around the globe. Our supportive and interactive learning environment provides real world experience, helps you build connections to forge your future career.

Accounting is all about providing expert consultation and helping businesses make sound financial decisions. As a graduate, you could find yourself providing financial advice for an exciting new start up business, or advising innovative solutions for organisations to be more sustainable in their operations as a climate change accounting specialist.

CAREER OPPORTUNITIES

Accountants are needed in every industry. They provide sound advice on all financial aspects of a business, including financial reporting, taxation, auditing, cost management, and planning and decision making for organisations. The skill level rating for accountants in Australia is considered very high and the number of accountant jobs is estimated to grow by 17,000 by 2025.‘

SCIENCE, TECHNOLOGY AND ENGINEERING
Protected Area Conservation students, Derby, North East Tasmania.
Throughout the world there are over 160,000 protected areas that are managed with the aim of ensuring the long-term conservation of nature with associated ecosystem services and cultural values. Good governance, planning and management are essential if protected areas are to achieve this aim.

Tasmania is the birthplace of the Greens movement, and over 40% of our landpass is protected. We draw on extensive conservation experience both in Tasmania and from around the world to equip you with the knowledge and skills required by contemporary protected area professionals. Your studies include governance, planning and management practice in government, private and community-based protected areas, as well as terrestrial, freshwater, and marine protected areas.

With ever-increasing challenges for protected areas management globally, the need for advanced knowledge and skills in governance, science and evidence-based policy, planning and management for effective protected areas has never been greater.

CAREER OPPORTUNITIES

Studying Protected Area Conservation provides a diverse range of career opportunities across government, private and not-for-profit industries. These include eco-tourism, natural area management, environmental management, protection and interpretation, emergency management and planning, and natural resource management.

Graduate with the skills and knowledge sought by government protected area agencies, private and NGO protected area managers, and community-based organisations.

Our courses have been designed to meet international competencies for protected area planners specified by the IUCN World Commission on Protected Areas, with a particular focus on middle and senior governance and management roles.

Protected Area Conservation

Our Protected Area courses meet international competencies for protected area planners as specified by the IUCN World Commission on Protected Areas.

Build your professional network through our strong industry contacts and work placements opportunities.

Tasmania provides an ideal location to study with world heritage protected areas, and globally recognised national parks and reserves.
**COURSE OPTIONS**

**Graduate Certificate in Protected Area Planning**
- **Course Code:** K5J
- **Estimated Tuition (AUD):** $14,975
- **Duration:** Minimum 0.5 years
- **Intake:** Semester 2, Summer school, Winter school (early)
- **Location:** Online
- **Structure:** Requires the completion of 50 credit points:
  - **Core Units:** 50 credit points
  This course equips students with the knowledge and skills required by contemporary protected area planners. This course covers planning practice in government, private and community-based protected areas.

**Bachelor of Applied Science (Professional Honours in Conservation Management)**
- **CRICOS:** 106221F  Course Code: P4C
- **Estimated Annual Tuition (AUD):** $29,950
- **Duration:** Minimum 1 year
- **Intake:** Semester 1, Semester 2
- **Location:** Hobart
- **Structure:** Requires the completion of 100 credit points:
  - **Core Units:** 100 credit points
  This course will train you in fundamental aspects of governance, planning, and management needed for effective conservation of nature. The unique combination of governance and management skills in a pragmatic, case-based learning environment will place graduates well for an exciting career.
  This course is the first 7 units of the Master of Protected Area Conservation, and can be completed stand-alone or become your pathway into a master degree.

**Master of Protected Area Conservation**
- **CRICOS:** 106222E  Course Code: P7C
- **Estimated Annual Tuition (AUD):** $29,950
- **Duration:** Minimum 2 years
- **Intake:** Semester 1, Semester 2
- **Location:** Hobart
- **Structure:** Requires the completion of 200 credit points:
  - **Core Units:** 200 credit points
  This course will provide you with the knowledge and skills required by contemporary protected area conservation professionals working in middle or senior governance or management roles. This course covers governance, planning and management practice in government, private and community-based protected areas, as well as broader landscape contexts. Terrestrial, freshwater and marine protected areas are addressed. You’ll apply your skills to address complex conservation problems across landscapes and within protected areas.

**STUDY HIGHLIGHTS**

We offer the best place in the world to study protected area conservation. The majority of units offer you practical experiences through field work and other real-world activities in a range of national parks, private conservations areas and farm visits.

Just 30 minutes from campus, you can access marine, coastal, heathland, wetland, grassland, woodland, dry eucalypt, wet eucalypt, rainforest, subalpine and alpine natural environments. Our world heritage recognised wilderness is also just over one hour away.

You’ll connect with industry through our strong partner networks. Our partners include eco-tourism operators, non-government organisations and various levels of government.
Students at Cradle Mountain, Lake St Clair National Park.
More Australians are seeking mental health support than ever before.

In 2021, 4 million adults in Australia either visited a health professional or utilised a phone or online health service for their mental health*.

Depression was the second-highest ranked reason to visit a GP in Tasmania during 2019-2020. Currently, private psychology practices have average wait-list times of 3 months (range 1-6 months). Community mental health services are operating at capacity with limited ability to service new referrals.

When you study a postgraduate course in Psychology, you gain the skills for a rewarding career that can help address the community’s mental health needs and make a real difference.

Psychology

CAREER OPPORTUNITIES

Psychology and counselling skills are in high demand. Join a growing workforce of over 26,000 registered psychologists Australia-wide.

Here are some of the careers projected to grow into 2025.*

22.8% Psychologists
23.1% Welfare Workers
14.5% Counsellors

*National Skills Commission five year projections from November 2020 to November 2025.

With greater demand for Psychological services nationally, we have new pathways to support you in the workforce.

Become a confident, competent, and sustainable psychologist who enhances the mental health and wellbeing outcomes of our community.

Access real-world placement opportunities.
STUDY HIGHLIGHTS

Learn advanced knowledge of values and ethics in psychology, as well as how to apply these in professional practice. With study options now available in Launceston and Hobart, you have greater access to achieving the career goals you have worked so hard to achieve, as well as helping our community where we need it most.

COURSE OPTIONS

Graduate Diploma in Counselling
CRICOS: 059581J  Course Code: M6I
Estimated Annual Tuition (AUD): $34,950
Duration: Minimum 1 Year
Intake: Semester 1
Location: Hobart, Online
Structure: Requires the completion of 100 credits points
Core Units: 100 credit points

This Graduate Diploma in Counselling equips students with fundamental knowledge and skills in counselling, together with an understanding of the ethical, legal and professional issues in relation to the practice of counselling required for employment in a range of counselling roles.

Master of Professional Psychology
CRICOS: 085985F  Course Code: M7Q
Estimated Annual Tuition (AUD): $34,950
Duration: Minimum 1 Year
Intake: Semester 1
Location: Hobart, Launceston
Structure: Requires the completion of 100 credits points
Core Units: 100 credit points

This is the shortest pathway to transitioning into the mental health workforce as a provisionally registered psychologist, allowing you to get into industry sooner.

Master of Psychology (Clinical)
CRICOS: 000443F  Course Code: M7L
Estimated Annual Tuition (AUD): $37,950
Duration: Minimum 2 Years
Intake: Semester 1
Location: Hobart, Launceston
Structure: Requires the completion of 200 credits points
Core Units: 200 credit points

Your work as a registered psychologist is underpinned by the three key elements of your training: coursework and research, where you’ll be working with nationally recognised psychologists and psychological scientists; and clinical placements where you’ll receive one-on-one supervision from qualified practicing psychologists.

On completion you’ll be able to provide vital, high quality psychological services and research, thereby helping local and global communities.

Admission to our postgraduate Psychology courses at the University of Tasmania require qualifications equivalent to an APAC accredited Australian bachelor degree. Applicants must achieve the required grade in their qualifying studies, meet any prerequisite subjects, and meet English language requirements to be eligible for an offer. Further details can be found on our website.
Public Health

With the COVID-19 pandemic elevating public health to the forefront of public interest, there has never been a better time to embark on or advance your career in public health and learn how to tackle the contemporary and emerging public health challenges.

Our courses will provide you with the tools necessary to make a difference in your community. You’ll learn to be a systems thinker and confidently navigate the research-policy-practice interface. Learn the skills to design, implement, and evaluate complex evidence-based policy and practice interventions in local and global contexts.

All postgraduate public health and health protection courses teach professional competencies that align with the curriculum standards developed by the Council of Academic Public Health Institutions of Australia.

CAREER OPPORTUNITIES

The healthcare industry is expected to grow by over 15 percent over the next five years. Studying public health can open a range of exciting career opportunities in the health care sector. You could be leading strategic planning, management, and policy development, or designing and evaluating public health interventions.

Public health expertise is needed across the health care sector. Occupations in this dynamic industry can include:

- Health policy analyst and advisor roles
- Epidemiologists and health data analysts
- Strategic planning, management, and policy development leads
- Emergency, disaster, and humanitarian response coordinators
- Public health academics (teaching and researching)
- Health promotion officers
- Evaluators and consultants
- Designing public health interventions

*Australian Bureau of Statistics data.*
COURSE OPTIONS

Master of Public Health
CRICOS: 098199C  Course Code: M7W
Estimated Annual Tuition (AUD): $31,950
Duration: Minimum 2 years
Intake: Semester 1 (Hobart), Semester 2 (Online)
Location: Hobart, Online
Structure: Requires the completion of 200 credit points:
Core Units: 150 credit points
Elective Units: 50 credit points coursework or research pathway

The Master of Public Health will introduce you to epidemiological monitoring, data analysis, and how to design, promote, implement and evaluate interventions to prevent or reduce the burden of disease and disability.

You have the opportunity to undertake an individual research project supervised by an expert in the field, which can be a pathway for entry to a PhD.

Part of what makes our courses distinctive is the opportunity to develop advanced skills in health protection, such as surveillance, outbreak management and environmental health.

STUDY HIGHLIGHTS

With a diverse range of electives, and your choice of coursework or research project, you can tailor your studies and transform your career goals.

We offer a range of contemporary study options including global health systems, public health intervention practice, health research, and systems thinking.

Your final year choice between an elective coursework or major research project completes your studies, or can be the pathway to higher degree research.
Social Work

Social Workers improve lives and fight inequality. We’ll teach you to respond to social justice and human rights challenges in ways that are culturally sensitive, principled, and effective.

The Master of Social Work (Qualifying) meets professional accreditation standards, and gives you key skills in ethical, innovative and collaborative practice.

Our course focuses on applied learning opportunities that include working with organisations, individuals and communities. We’ll also teach you to respond to changes in the health and community services industry. You’ll graduate ready to meet the needs of clients, communities and organisations.

CAREER OPPORTUNITIES

Our Social Work graduates pursue a diverse range of rewarding careers, such as:

- Child Safety Practitioner
- Social Worker Project Manager
- Youth Worker
- Mental Health Practitioner
- Researcher
- Policy Analyst and Advisor
- Community Development Worker
- Migrant and Refugee Settlement Workers
- Case Manager
- Drug and Alcohol Counsellor
- Palliative Care Social Worker
- Relationships Counsellor
- Disability Advocate
STUDY HIGHLIGHTS

This course takes a critical approach to social work, and engages with distinctive Tasmanian, national, and international contexts. Threaded through the course is a focus on decolonising, indigenising, sustainability, collaboration, and innovation in social work, ensuring that as a graduate, you are prepared for new and diverse roles in changing workplaces.

Professional experience placements offer unique opportunities to participate in professional activities, learn about the practice of social work as a change agent and meet people currently working in the field.

We work closely with community organisations across the state to create the practical learning experiences you need to apply your knowledge and develop the skills for professional practice.

COURSE OPTIONS

Master of Social Work (Qualifying)
CRICOS: 098281J    Course Code: R70
Estimated Annual Tuition (AUD): $33,950
Duration: Minimum 2 Years
Intake: Semester 1
Location: Hobart, Launceston, Cradle Coast
Structure: Requires the completion of 200 credit points comprising:
Core Units: 100 credit points
Research OR Professional Pathway Units: 100 credit points

Social workers need contemporary skills to respond meaningfully to social problems. Our Master of Social Work (Qualifying) has been redesigned after direct industry feedback to reflect current and emerging practice trends in the profession.

Our new curriculum will prepare you with advanced knowledge of social work research principles and methods. You’ll graduate as a creative and ethical communicator who respectfully uses knowledge to meet the needs of diverse social work client groups, communities and organisations.

The Master of Social Work (Qualifying) is an AASW-accredited qualification. It is an entry qualification into the social work profession and has been determined to meet the Australian Social Work Education and Accreditation Standards.
The Media School, Salamanca Place, Hobart.
Strategic Communication

Develop the professional skills, knowledge and tools to communicate across settings as diverse as the sciences, creative industries and politics.

From our unique location in Tasmania, you’ll build advanced analytical skills, professional media-making expertise, and a network of peers to help you make a future that matters.

Our postgraduate courses in Strategic Communication have been developed with industry and offer a flexible pathway from your undergraduate study or professional experience.

CAREER OPPORTUNITIES

Our courses will help you to develop advanced analytical skills and professional-level communications expertise to applied ‘real-world’ situations. Careers requiring media and communication expertise are growing fast, with employers demanding advanced analytical, strategic and production skills.

These are some of the top careers projected to grow in Australia over the next five years.

15.8% Public relations professionals
9.2% Multimedia specialist

The Media School’s state-of-the-art campus places you in the heart of Hobart’s cultural, scientific and civic centre.

Engage with industry standard equipment and skilled technicians to build your portfolio.

Undertake an internship with our industry partners to gain work-place experience and credit towards your postgraduate course.
COURSE OPTIONS

Graduate Certificate in Strategic Communication
CRICOS: 0100439  Course Code: R5Y
Estimated Annual Tuition (AUD): $15,475
Duration: Minimum 6 Months
Location: Hobart, Online
Structure: Requires the completion of 50 credits points:
Core Units: 50 credit points
Across government, corporate and community sectors, there is increasing awareness of the need for skilled communicators. The Graduate Certificate in Strategic Communication is an intensive study option designed to develop your professional knowledge and practical skills to provide you with a competitive edge in a rapidly evolving media environment.

Graduate Diploma of Strategic Communication
CRICOS: 0100440  Course Code: R6Y
Estimated Annual Tuition (AUD): $30,950
Duration: Minimum 1 year
Location: Hobart, Online
Structure: Requires the completion of 100 credits points:
Core Units: 87.5 credit points
Core Option Units: 12.5 credit points
The Graduate Diploma of Strategic Communication aims to produce independent and entrepreneurial communicators who can successfully participate in the contemporary media environment.

Designed for those wanting to promote and implement change across a range of social, environment, political and business settings, the course helps you to develop advanced analytical skills and professional-level communications expertise.

Master of Strategic Communication
CRICOS: 107105B  Course Code: R7Z
Estimated Annual Tuition (AUD): $30,950
Duration: Minimum 2 Years
Location: Hobart, Online
Intake: Term 1
Structure: Requires the completion of 200 credit points comprising:
Core Units: 100 credit points
Specialisation Units: 50 credit points
Research Units: 50 credit points
The Master of Strategic Communication has been developed to meet the complexity and dynamism of an ever increasingly digital and global communication environment. Jobs requiring communication skills are growing fast with employers demanding advanced analytical skills and professional-level communications expertise.

Our degrees offer a unique pathway for students coming from undergraduate study or professional roles in the sciences, arts or business to tailor their education.

SPECIALISATIONS

Choose one of four specialisations available, your study experience can be tailored to meet your personal career aspirations. Many units delivered on-campus are also available online, giving you the flexibility to balance life's other commitments.

• Environmental Conservation and Management
• Marketing Communication
• Public and Environmental Health
• Tourism and Experience

STUDY HIGHLIGHTS

Our postgraduate strategic communication courses include a unit on Arts and Cultural Events (HEJ513). In this unit, you’ll learn about the role of festivals, open days, street fairs and other events and how they contribute to the culture and economy of towns and cities around the world. In Tasmania, our vibrant arts and cultural calendar include MOFO and Dark MOFO, Ten Days on the Island, and Beaker Street. From concept to producing a fully costed proposal, you’ll develop a detailed understanding of the professional activities required to plan and execute an event, including budgeting, programming and promotion.
Students on a field trip to the Warra Supersite Flux Tower in the Tidbinbilla Forest region.
Tourism students on a field trip at Port Arthur Historic Site.
Tourism, Environmental and Cultural Heritage

Get equipped with the tools to work in a fast-changing and competitive industry. This immersive degree gives you a real-world understanding of contemporary issues in tourism. You’ll come away with a deep understanding of managing tourism in sites of environmental and cultural value and acquire skills to grow tourism enterprises.

Gain access to the university’s strong industry connections, with opportunities to experience Tasmanian tourist destinations. Our island state’s seven World Heritage-listed properties and popular Tasmanian businesses such as MONA are closely studied. You’ll connect with our industry partners and learn through authentic experiences including on-site visits, industry encounters, and critical reflections of tourist attractions.

CAREER OPPORTUNITIES

Tourism in Australia continues to be a driver of growth for the Australian economy. Our degrees will prepare you for a range of leadership and management roles in the global tourism industry. You’ll be equipped with entrepreneurial and leadership tools to work in a dynamic industry, disrupted constantly by technology and an ever-changing market.

Careers in Tourism are growing across Australia, here are some of the careers projected to grow into 2025.*

9.0% Hospitality, Retail and Service Managers
8.7% Travel Attendants

COURSE OPTIONS

Graduate Certificate in Tourism, Environmental and Cultural Heritage
CRICOS: 0100554  Course Code: A5T
Estimated Tuition (AUD): $16,725
Duration: Minimum 0.5 years
Intake: Semester 2
Location: Online
Structure: Requires the completion of 50 credit points:
Core Units: 50 credit points
The Graduate Certificate in Tourism, Environmental and Cultural Heritage will prepare you to work in a fast-changing and competitive industry. Offered fully online, your studies will introduce you to contemporary issues in tourism, including an understanding of opportunities, complexity and sensitivities that arise when culture, environmental values and creativity intersect with business development.

Graduate Diploma of Tourism, Environmental and Cultural Heritage
