HELP YOUR TEAM REACH THEIR POTENTIAL.
Are you a manager or leader looking for guidance and support?

Your Employee Assistance Program (EAP) is a professional service that offers counselling, guidance and support to employees and helps empower you, as a manager or leader, to maximise their potential.

Your EAP can help you address people management issues such as employee performance and other situations you may be unsure how best to handle. It can help make your job easier, achieve team goals and help you bring out the best in your team.

The EAP is an excellent management tool that will benefit you as a leader. Your EAP can help you:

- Provide encouragement and support to your team during difficult situations
- Be a better leader
- Address seemingly small issues early before they become larger problems
- Develop a plan to manage employee performance issues
- Provide intervention for personal issues which interfere with workplace productivity
- Retain a more satisfied and productive workforce

Manager Support

Manager Support assists with behaviour or performance concerns and improves workplace communication. Managers, supervisors and team leaders can call Newport & Wildman for impactful advice on how to refer an employee to the service, how to manage a challenging employee and how to cope with changes and challenges in their role.

Common situations for which managers seek assistance from Manager Support are:

- Dealing with challenging employees
- Discussing poor work performance with employees
- Encouraging an employee to use the EAP
- Managing an employee with a mental health concern
- Managing a traumatic event in the workplace
- Dealing with organisational change processes
- Breaking bad news to employees

Critical Incident Responses

Newport & Wildman provides crucial advice, training and coaching to support organisations in effectively managing traumatic incidents in the workplace such as fire, death, industrial accident or robbery.

Training

A range of training programs covering topics such as Building Resilience, Coping with Change, Stress Management, Workplace Conflict and Negotiation and Performance Management are available.

Role of the Manager or Leader

Managers and leaders play a critical role in an organisation’s performance and understanding good mental health is a vital contributor to the effectiveness of employees. Recognising the early warning signs of an employee in difficulty or distress, knowing how to talk to the employee and how to refer them to the EAP are critical skills.

Common early warning signs include:

- Changes in work performance
- Withdrawal from interaction with others
- Being oversensitive or defensive
- Loss of interest and motivation
- Increased absenteeism or lateness
- Emotional outbursts, especially over minor matters

Coaching

Coaching aims to bring about a sustained, positive behavioural change and improve the quality of the employee’s working and personal life. Coaching is focused on wellness and optimising performance and wellbeing. Managers and leaders can refer employees as part of a talent retention strategy.

Mediation

Independent support is available to help resolve conflict within the workplace.
